SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF MARCH 1903.

WEATHER during March was more frequently unsettled than usual; but the disturbances were slight, and were more noticeable in the south than the north of the Province. The local disturbances were caused by shallow depressions moving as usual eastward over Bengal, and rainfall was of almost daily occurrence in Lower Bengal between the 4th and 9th and between the 21st and 28th. There was also fairly general rainfall in the southern districts on the 13th. The heaviest rainfall occurred in East Bengal between the 26th and 28th, and was probably due to the rapid fall of pressure of those days and the development of a depression over Lower Bengal with a steep pressure gradient over the eastern districts.

Rainfall was much lighter in Bihar and Chota Nagpur, and only a few scattered showers fell in Orissa except between the 24th and 27th when moderately heavy showers were of more frequent occurrence.

The total fall for the month was 3·2 inches in East Bengal, and 1·8 inches in South-West Bengal, the former nearly 1 inch in excess and the latter about half an inch.

In North Bengal the fall of 1·1 inches was practically normal, and in the western districts there was a relatively large defect varying from ·2 inch in Bihar to ·5 inch in Orissa.

In the early part of the month temperature was in excess by variable amounts up to 8° on the 5th and 6th. With the occurrence of disturbed weather temperature fell, but it was not until the 9th and 10th that the marked fall of temperature occurred, which was due to the eastward advance of a cold wave from the west. On the 8th mean temperature was above the normal over the whole Province, and the greatest excess was 4° to 6° in Lower Bengal. On the 9th there was a general defect of 2°, and on the 10th defect varied from 3° in the south to 8° in North Bengal.

The pressure changes of those days gave no clear indication of the character of the disturbance. A shallow depression was shown over the United Provinces on the 6th, in the Circars and Orissa on the 7th and over the Bay on the 8th, after which it appeared to recurve towards the south-west. Fairly general showers fell in Bengal Proper on the 7th and 9th, but the falls were in nearly all cases light and at only a few stations exceeded 1 inch.

On the 12th pressure was again falling rapidly in the west, and a shallow depression was shown in the United Provinces. On the 13th the depression was in Bengal with a steep pressure gradient to the west. The temporary rise of temperature which had preceded this depression continued until the 15th, when dry cool westerly winds were again general over the Province. On the 13th when pressure was lowest in Bengal, rain fell at most of the stations in Lower Bengal, but only a few scattered showers occurred in other parts of the Province.

The pressure changes of the 15th appear to show that, as in the previous disturbance, the area of lowest pressure recurved southward, but it is impossible to say, when the area of lowest pressure is in the neighbourhood of the Himalayas on the 14th and over the centre of the Bay on the 15th, that the disturbance is the same. Probably the disturbance was in the upper atmosphere, and the position of the centre was imperfectly indicated by the ground level observations.

Temperature continued low until the 18th, and there was still a small defect on the 19th, when weather was again becoming disturbed in the west. On the 20th a very slight depression had developed over the south-western districts. Defect in the central area was only ·05 inch, but rainfall had begun at a few scattered places, and as the depression moved eastward moderate showers fell at most of the stations in East and North Bengal. This depression disappeared over Bengal, and on the 22nd fine cool weather was again general over the Province. Defect was rarely more than 2° except in North Bengal where it ranged up to 10°.

Another disturbance appeared in the west of the Province on the 24th as a shallow diffused depression. Rainfall was general in South-West Bengal, and a few showers fell in Orissa, while a rapid fall of temperature had begun in the west of Bihar, where from being slightly in excess on the 23rd mean temperature was 6° below the normal.

Irregular changes occurred during the subsequent days, pressure rose briskly in Bengal and the depression gradually became diffused over the Bay, but as rainfall continued in East Bengal weather was still unsettled. On the 27th after a rapid fall a centre of low pressure appeared over Lower Bengal, and though there was some recovery on the 30th pressure continued low up to the end of the month. Weather was, however, more settled in the eastern districts, as rainfall had ceased after the 28th and temperature was steadily rising.

Pressure was more unsettled than usual owing to the numerous shallow depressions which either crossed the Province from the west or devolped over Bengal. These depressions, as they usually are in March, were so shallow as almost at times to escape detection by the ordinary 8 A.M. observations, and the disturbances were shown to be of importance more by the rainfall than by pressure changes.

For the month as a whole pressure was below the normal over the Province and the extreme north of the Bay, the greatest defect being ·03 inch in Chota Nagpur and South-West Bengal Over the south of the Bay, and especially in the south-west, there was considerable excess in pressure, so that there was throughout the greater part of March a

steeper gradient than usual over the north of the Bay. The largest variations were excess of ·06 inch in the south of the Circars and defect of ·04 inch at Midnapore.

Temperature at the beginning of the month was continuously high for some days, and towards the end of the first week was as much as 8° above the normal. The most important change began about the 8th, and by the 10th cool weather was general over the Province, with defect of about 8° in the Northern districts. During the remaining part of the month weather was frequently disturbed, and temperature was low except for brief intervals between the disturbances when a moderate excess developed. At the end of the month mean temperature was practically normal.

The excess in the early part is practically neutralised in the averages for the month by the defect caused by the numerous slight disturbances during the second to fourth weeks. Average maximum temperature differs from the normal by small amounts ranging from excess of 2° in Orissa to defect of 1° in North Bengal and Bihar. The difference from the normal minimum temperature is similar, only smaller, and varies from excess of 1° in Orissa to defect of 1° in North Bengal. For the division as a whole mean defect is between a half and one degree in North and East Bengal and Bihar, practically normal in South-West Bengal and half a degree in excess in Chota Nagpur and Orissa.

Rainfall was more frequent than usual in March, but the falls were in nearly all cases light, and were most frequent in Bengal Proper. The heaviest rainfall of the month occurred in East Bengal about the 27th or 28th. In the western districts there was a not unfrequent tendency to rainfall, but the showers were so light and scattered that the total fall for the month is relatively much lighter than in Bengal Proper. The fall in East Bengal is 3·2 inches, nearly 1 inch in excess, in South-West and East Bengal about 1·2 inches, the former with considerable excess. Orissa received ·7 inch, rather more than half the normal, Chota Nagpur ·4 inch, and Bihar ·16 inch less than half the normal.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the month of March 1903:—

Meteorological Divisions.	Temperature.						Rainfall

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 80, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

47. (*a*) If the application is made by a proprietor, it shall not be admitted unless the name of the applicant and the extent of his interest are registered under Act VII (B.C.) of 1876. — Existing rule.

(*b*) If the application is made by a tenure-holder, it shall not be admitted unless the right of the tenure-holder and the extent of his interest is admitted by the superior landlord or is proved to the satisfaction of the Collector.

48. On receipt of the application, the Collector shall forward it to the Commissioner with any remarks which he may think necessary. — Ditto.

49. The Commissioner may call for further information or may require the application to be amended. — Ditto.

50. If the Commissioner considers that the application cannot be granted with advantage to the interests of all persons concerned, he may reject it. If he approves it, he shall forward the application, with an expression of his opinion, for the orders of the Board of Revenue. — Ditto.

51. A Commissioner rejecting an application shall record his reasons for doing so, and the applicant, if dissatisfied with the order, may appeal within one month to the Board of Revenue. — Ditto.

52. When an application is referred to the Board under rule 50, or an appeal is preferred under rule 51, the Board may call for further information if necessary, and shall pass such orders as it may think fit for allowing or rejecting the application. — Ditto.

53. As soon as an application is allowed, the Collector shall call upon the applicant to deposit eight annas per acre of the estimated extent of the estate or tenure or part thereof in respect of which the application has been allowed. If the Collector is unable to estimate the area, he shall require a deposit at the rate of Rs. 2 for each tenant. If the amount does not exceed Rs. 500, the applicant must deposit the whole amount in advance. If it exceeds Rs. 500, the applicant shall deposit the sum of Rs. 500 and shall give such security as the Collector may require for the payment of the balance of the deposit in such instalments as the Collector may from time to time demand. — Ditto.

If the amount deposited as above proves more than sufficient to cover the cost of the proceedings, the unexpended balance will be refunded on their termination.

If the amount deposited proves insufficient to cover the cost, the applicant shall, when required by the Collector, deposit from time to time such further sums as the Collector may think necessary for the completion of the proceedings. If he shall fail to do so, the proceedings may be stopped and the order allowing the application cancelled.

54 In conducting the operations the Revenue officer shall proceed in accordance with the rules for the guidance of officers acting under orders made under section 101. — New.

ENGINEER DEPARTMENT.

Session 1903-1904.

CANDIDATES for admission to the Engineer Department should apply to the Principal before the 15th May 1903. Each application must be accompanied by a registration fee of Re. 1.

The session begins on Monday, the 1st June 1903.

Candidates must furnish proof that they have passed one of the following tests:—

(1) The B.A. Examination in the B Course in Physics and Chemistry of the Calcutta University. The candidate's age must be under 23 years.
(2) The F.A. Examination of Calcutta and Madras Universities.
(3) The Intermediate Examination of Allahabad and Punjab Universities.
(4) The Intermediate Examination for the degree of B.A. of Bombay University.

The candidate's age in (2), (3) and (4) must be under 21 years.

In selecting candidates who have passed the F.A. (all other things being equal), preference will be given to those who have passed in Sanitary Science in addition to the ordinary subjects of the F.A. Examination.

The maximum number to be admitted is limited to 40. The position in the University examination and the age of the candidate will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer class is Rs. 10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight.

Further particulars will be supplied on application to the Principal.

Civil Engineering College, Sibpur.

APPRENTICE DEPARTMENT.

Session 1903-1904.

THERE are about 40 vacancies for native and 10 for Christian apprentices.

The date for admission to this Department is 1st June 1903. Candidates must be at least 15 and not more than 17 years of age.

They must have passed Standard VII or the Middle School examination of the Code for European Schools or the University Entrance examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed

the requisite standard so as to reach the Principal not later than the 6th May 1903, together with a registration fee of one rupee. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the 1st Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or readmitted to the College after the close of the month of June except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be one vacancy on the free list for Christian apprentices in June next and there will be 6 on the reduced-fee list. For natives there will be at least 7 vacancies on the reduced-fee list. Elections to these lists will be made by the Board of Visitors.

Rs. 5 per mensem.
" 2 " "

Forms to be filled up for the consideration of the Board can be had on application to the Principal.

All applications from Christian candidates for admission to the free or reduced-fee lists must reach the Principal not later than May 6th so as to enable elections to be made by the Board of Visitors before the opening of the session.

The vacancies on the native lists will be filled up after the opening of the session from those apprentices who have joined the College after admission.

Further particulars will be supplied on application to the Principal.

APPENDIX XXX.

[SEE CHAPTER III, RULE 9.]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the side of the Assam-Bengal Railway, in the district of Chittagong, will be put up to sale at 11 o'clock on Monday, the 18th May 1903, corresponding with the 4th Jaistha of the Bengali year 1310.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall is daily recorded from 8 A.M. to 8 A.M.

ENGINEER DEPARTMENT.

Session 1903-1904.

CANDIDATES for admission to the Engineer Department should apply to the Principal before the 15th May 1903. Each application must be accompanied by a registration fee of Re. 1.

The session begins on Monday, the 1st June 1903.

Candidates must furnish proof that they have passed one of the following tests: —

(1) The B.A. Examination in the B Course in Physics and Chemistry of the Calcutta University. The candidate's age must be under 23 years.
(2) The F A. Examination of Calcutta and Madras Universities.
(3) The Intermediate Examination of Allahabad and Punjab Universities.
(4) The Intermediate Examination for the degree of B.A. of Bombay University.

The candidate's age in (2), (3) and (4) must be under 21 years.

In selecting candidates who have passed the F.A (all other things being equal), preference will be given to those who have passed in Sanitary Science in addition to the ordinary subjects of the F.A. Examination.

The maximum number to be admitted is limited to 40. The position in the University examination and the age of the candidate will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer class is Rs. 10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight.

Further particulars will be supplied on application to the Principal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 180B.

NOTIFICATION OF THE BOARD OF REVENUE.

No. 3559B.

THE following Rules for the payment of refunds of duty on salt bonded in Inland Bonded Warehouses, are published for general information.

Rules for the payment of refunds of Duty on Salt bonded in Inland Bonded Warehouses from the Calcutta Customs' Treasury.

1. On receipt of an application for refund of the duty on salt stored in an Inland Bonded Warehouse, the Collector of the district, through whom the returns of the warehouse are submitted, will cause to be prepared a statement of all payments of duty on account of salt stored in that warehouse, whether they have been made into the local Treasury or into the Calcutta Custom House Treasury, together with a report stating the quantity of salt on which a refund is payable, and explaining the reasons for the deficiency in the outturn of salt delivered from the warehouse. The salt receipts, in the case of payments at Calcutta, and the duplicate Treasury *chalans*, in other cases, with endorsements showing the deficiency in the outturn, will be annexed to the statement. The papers will then go before the Treasury Officer for verification by him of the payments of duty into the District Treasury. To facilitate this verification, the number of the bond securing the duty should, in future, be noted on the *chalans* at the time duty is paid in.

2 If the District Officer considers the refund admissible, under Rule 25 of the rules published at page 1329, Part I, of the *Calcutta Gazette*, of the 5th December 1900, he will cause a refund voucher to be prepared in Form No. 13, given at page 338, Volume I, of the Civil Account Code; and, after noting in his registers the amount to be refunded out of duty paid into his Treasury, and signing under the words "Passed for payment," he will forward it with all the papers to the Collector of Customs, Calcutta.

3. The daroga's statement of duty paid into the Calcutta Custom House Treasury (if any) will then be verified in the Custom House, and the papers will then be sent to the Superintendent of the Salt Golah Department, for report as to whether the short-delivery of salt on which the refund is claimed seems reasonable.

4. When it is considered that the refund should be paid, the statement of duty payments into the local Treasury (if any), verified by the local Treasury Officer, will be incorporated in the Custom House account of duty realised on account of the bond, and the refund will then be noted for payment in the Calcutta Custom House. When payment is made, it will be entered against the above account, as required by Rule 99 of the Civil Account Code.

5. An advice of all refunds paid in the Calcutta Custom House under these rules will be sent to the District Officer for note against the original credit entries.

No. 409.—Lieutenant Alfred Vere Smith resigns his commission, with effect from the 29th June 1902.

Second-Lieutenant John Sidney Adams to be Lieutenant, with effect from the 29th June 1902, *vice* Smith, resigned.

Frederic Arthur de Vere Robertson, Gentleman, to be Second-Lieutenant, with effect from the 25th February 1903, *vice* Adams, promoted.

E. G. BARROW, *Major-General.*
Secy. to the Govt. of India.

"My answer to his remarks is, that when the distribution of the sum of four lakhs set aside for the improvement of Primary Education in Bengal in 1902-1903 was made, the principle adopted was to give grants to the various districts in proportion to the population of the district, and not to the number of pupils attending schools. In accordance with this principle, the Bhagalpur Division with 643,737 males of school-going age and 90,197 pupils received Rs. 48,000, while the Burdwan Division with 617,539 males of school-going age and 243,601 boys attending schools received Rs. 40,000 only. In the circumstances the Bhagalpur Division would appear to have received its fair share of the extra grant allotted for Primary Education.

"As regards Technical Schools or Technical Education in the Bhagalpur Division, the statistics available do not show that there is much demand for Technical Education in that division. In 1891-1892 there were five industrial schools in it, attended by 168 pupils; while in 1901-1902 only one school was in existence, attended by six pupils. In 1900 there was some correspondence with a view to establishing a technical school in Bhagalpur to work in connection with the Government zilla school. The Education Department gave every assistance in the way of advice, the framing of estimates, etc., which was asked for by the Board. The scheme, however, was abandoned owing to the paucity of subscribers and to the fact that people appeared to take no interest in the matter. There is nothing to prevent a fresh application being made at any time; if made, it will receive the careful attention of Government."

The Hon'ble MR. HARE said:—"There are only one or two points upon which there is any necessity for me to make any remarks. I will first of all deal with the Hon'ble Rai Tarini Pershad, Bahadur's suggestion that a Subordinate Judge should be appointed to the Sonthal Parganas. No case has been made out, and it is not shown that any relief is necessary to the staff of that district. The Government are not satisfied that a Subordinate Judge is at all required in the Sonthal Parganas. The appointment of a Subordinate Judge to that district would open out the very large question of the system of administration of the Sonthal Parganas, which is at present, as you are aware, carried out by a number of men who possess a considerable amount of local experience and with a very simplified procedure. The present system has worked very well, and the Government sees no immediate necessity for re considering it.

"The Hon'ble Mr. Apear and the Hon'ble Mr. Elworthy have both noticed the necessity for reforms of the High Court. It is enough for me to say that this Government is doing what it can in the matter. A grant of Rs. 2,50,000 has been made for the extension of the building, which is found inadequate for its present requirements, and this want of a Court stands on the way of the appointment of an Additional Judge. I may also mention that correspondence is going on between the High Court, the Government of India, and the Secretary of State in regard to the subject of appointing an Additional Judge and carrying out several other alterations and reforms which, it is hoped, will remove the present accumulation of arrears.

"Then, in the matter of improving the working of the Presidency Magistrate's Court, the Government fully recognises that the present condition of things is unsatisfactory. The immediate control of the Presidency Magistrates' Courts is under the High Court, whom we have consulted as to the best means of improving the present condition of affairs. We have not yet received the report of the inquiry which is being made by the High Court. As at present advised, the Government is inclined to think it may be possible to remove the present defects by administrative improvements without burdening the Province with increased establishments. This declaration, however, in no way binds the Government. This is how the matter stands at present, but we hope very soon to introduce improvements which will remove the defects complained of."

The Hon'ble MR. COLLIN said:—"I must first thank the Hon'ble Members who have been so kind as to send us copies of their speeches or notice of the points which they wished to bring forward. I will next acknowledge gratefully the tone in which this Budget has been discussed and the general congratula-

tions which have fallen upon Government for the prosperous condition of the Province. The Hon'ble Babu Chaturbhooj Sahay gave a warning that we should not congratulate ourselves too much upon the increase of revenue from Excise and Stamps, as the increase from Stamps pointed to an increase of litigation, and the increase from Excise possibly to an increased consumption of liquor. With regard to the revenue derived from stamps, I would point out that the larger portion of the increase is from general and not from judicial stamps. The proportion of increase in the Court-fee stamps, though large in itself, is only 1 *per cent.* of the total amount. The proportion of the increase in general stamps is 3 *per cent.*, and it is generally looked upon as a source of satisfaction that the revenue from non-judicial stamps is going up. Such an increase shows that the country is carrying on its business vigorously and satisfactorily. It is not, therefore, the case that the chief increase of Stamp revenue is derived from an increase of litigation.

"With regard to the increase in Excise, it is true that a certain amount of it is due to the general prosperity of the country and to the consumption of more liquor, but a very large portion is due to better Excise administration. The largest share of the increase comes from Calcutta itself, amounting to over two lakhs, and this is due, not so far as we know to any general increase of consumption, but to the better settlements which the Collector of Calcutta, Rai Chunder Narain Singh, Bahadur, was able to effect last year, by which he broke up the ring of licensees and was able to settle the shops at an increase of two lakhs. In addition to that Government has increased the duty on *ganja*, and better arrangements are being made to prevent smuggling in opium. Thus it will be seen that to a large extent the increase in the Excise duty last year is due to better arrangements, and is, therefore, a source of congratulation.

"Though there was such a large balance at the end of the year, and the finances of the Province appear to be in such a prosperous condition, it is perhaps as well to speak a word of caution. This large cash balance is due partly to the inclusion in it of grants given by the Government of India. They gave six lakhs last year, of which we have nearly a lakh left, and they have also given us a further sum of two lakhs for the Medical College Hospital. Both these amounts are included in the cash balance.

"Then there has been an increase of revenue from the Sone Canals, which is not expected to recur, and may be looked upon as partly accidental and due to the chances of the season. A large part of the cash balance is, of course, due to the reduction of expenditure which is explained in the Financial Statement.

"With regard to the expenditure under the head of 'Education,' I would explain, in answer to the criticisms of the Hon'ble Dr. Asutosh Mukhopadhyaya, that the grant of ten lakhs was given at the beginning of the year, and it was not possible to make arrangements for its immediate expenditure. As an instance, I would mention that there is a grant of Rs. 6,000 for the Assistant Director of Education. This appointment could not be made at once, but the charge is entered in the accounts as Rs. 6,000 for the whole year. I believe, as the Hon'ble Mr. Earle has stated, that there has been during the past two or three months considerable expenditure under the head of 'Education,' which was not taken into account when the Budget was framed. The Budget was framed on the actual expenditure of ten months. If, when the actual figures of expenditure for the whole year are known, it is found that a considerably larger amount has been spent on Education than is now estimated, the cash balance will be proportionately reduced.

"It may be said that we should have anticipated our savings under 'Police Reforms' and other subjects and have provided for the expenditure during the current year, but there is in Bengal a special difficulty, namely, the existence of the Contract. Our Contract was made for five years in 1897. It was renewed in 1901 for one year, and then renewed for another year, which would expire at the end of this year. The uncertainty as to the terms on which the Contract will be renewed renders it very difficult to undertake any large schemes, the expenditure on which will extend over a series of years. We have no reason to anticipate that the Government of India will

behave otherwise than liberally when they renew the Contract: they have already given evidence of this by the large grants given to Bengal; but it is hoped that it will be made more permanent and cover a longer period than five years, which is a very short time in the life of a Province.

"There is another reason for not embarking on large schemes, whic will involve an expenditure extending over a long period. There are two special subjects—Police and Education—which are likely to swallow up a very large amount. The estimate for Police reforms is 20 lakhs; but whether recommendations on these lines are accepted by the Commission now sitting or not, it is certain that Government will have to incur a large increase of expenditure under the head of 'Police.' With regard to Education, it is anticipated that if full effect is given to the proposals of the recent Commission, our expenditure in twenty years will increase by more than half a crore of rupees, a great portion of which will have to be provided out of our own resources. With these two large schemes hanging over us, we must proceed very carefully.

"At the same time it cannot be said that Government has been hoarding its money, and not using its resources satisfactorily. Sir John Woodburn, the late Lieutenant-Governor, always carefully considered the interests of the Province and was anxious to spend its revenue usefully. He was at first hampered by plague and famine, and when these difficulties were overcome, he set to work to devise schemes to provide for the growing necessities of Bengal. A scheme for Police and Education was worked out. The Subordinate Judicial Service was improved, and a scheme matured for improving the Subordinate Executive Service. The improvements of Government offices were also taken in hand. There is now a provision of ten lakhs of rupees, which is being spent on such works, and the greater part of them are in actual progress. Then a scheme was undertaken for providing Munsifs with better courts and residences. I have been asked how far that scheme has progressed. Last year it was shown that eight such residences had been provided. It appears that since the beginning of the year 1901-1902, eighteen Munsifs' residences have been completed and twelve more are under construction, and will be completed in the current year. It will be seen that the scheme is well in hand.

"You have heard what is being done for the improvement of waterways, which the Hon'ble Mr. Apcar has pointed out are so necessary for the development of the trade of the country.

"With regard to District Boards, Sir John Woodburn gave them in the two preceding years a grant of 5 lakhs to be spent on communications, and this we have been able to repeat this year. A considerable amount was given for feeder roads to railways last year, and we have increased the grant this year.

"Special care has been taken with the Medical Department, and the Hon'ble Babu Chaturbhooj Sahay drew prominent attention to the department by saying that there should be a dispensary in every sub-division or, I think, he said in every thana. Government has considered this proposal, but is not convinced of its necessity. I find that during the last six years the number of dispensaries in Bengal has increased by 128; that in itself is a very fair increase. An unsatisfactory feature is that they do not serve such a large number of persons, or at any rate a large number of people do not go to them as in other provinces. This is attributed to the number of private practitioners who are to be found scattered all over the country. In any case the increase of medical help throughout the districts is going on, and is a constant subject of interest to the Government.

"The Hon'ble Babu Chaturbhooj Sahay also pleaded for the establishment of a Medical College in Bihar, as I understood him. In regard to that, I may say that Government assistance has been given for improving the Bankipore Hospital. This hospital is in connection with the Medical School at Patna, and no doubt in time, with an improved hospital, there will be an improved college, and more will be done to meet the wants of that part of the Province, if it is found necessary.

"In regard to the Medical Department, the position of Civil Hospital Assistants has been improved by raising the salary of the maximum grade from Rs. 50 to Rs. 70 and the lowest grade from Rs. 20 to Rs. 25, and certain further appointments at district head-quarters have been reserved for Assistant Surgeons. But as regards medical relief in the interior, Government is somewhat hampered by the large amount of money it has to spend in Calcutta. The amount spent by Government in the districts is something like Rs. 1,30,000 out of the nine lakhs which are spent, whereas in Calcutta the Government expenditure is 76 per cent. of the whole amount. That of course is necessary in the existing condition of Calcutta, but it has often been pointed out that the amount of subscriptions and other help that these institutions receive is not altogether adequate. It is true that very often handsome donations are given for special purposes, as, for instance, Rs. 20,000 was given the other day by Rai Amritanath Mitter Bahadur for a hospital for Incurables. But there is no system under which subscriptions may be regularly supplied. The total amount of subscriptions to the Calcutta institutions is Rs 15,000, and the subscription from Indian sources is only Rs. 1,500. If Government could get further assistance from private subscriptions it could spend more money in the districts outside Calcutta.

"You will notice that a provision is made in the Budget for two lakhs of rupees for building Nurses' quarters in connection with the Medical College and Eden Hospitals. I have noticed a criticism that this is an unjustifiable expenditure. It appears to have been thought that these Nurses were only to be employed in nursing European patients, but I would point out that in the Medical College Hospital the number of Indian patients is over 80 *per cent.* of the whole number, and the Nurses are employed upon all classes of patients indiscriminately. It was Sir John Woodburn's special wish to place the nursing of the patients in Calcutta hospitals on a broader basis, and for this purpose last year he appointed a Committee, which has worked very well under the able presidency of Sir Montagu Turner. It is composed of all classes of society, both European and Indian, and it was hoped that, with the addition of Indian members, we should be able to tap further sources of subscription for the Nurses, but so far we have not been successful. This is probably due to ignorance of the objects of the nursing institution. I feel sure that if it is known that the Nurses are to be employed for all classes, subscriptions will be received from the Indian as well as from the European community. As an instance of the interest which the Government takes on the question of nursing, I may mention that we have recently provided for an increase in the number of Nurses employed in the Campbell Hospital, where only the poorest native patients are taken in.

"The Hon'ble Babu Chaturbhooj Sahay asked a question regarding certain figures in the Budget which appeared to be doubtful. In the first place he noticed that though it is said that an increased grant is provided for the Subordinate Judicial Service, yet the total grant was not so much as the revised estimate of last year, and the explanation in the tabular statements showed that there was a small decrease of expenditure. I would explain that at the beginning of the year 1902-1903, Rs. 62,000 was provided for the re-organisation of Munsifs, but the total actual expenditure was Rs. 98,000. We have provided practically the same amount this year, Rs. 94,000. The small decrease is due to the fact that in that department there are certain graded appointments held by sharistadars who are on a progressive pay. Some of the elder members who were on a high pay have retired, and their places are taken up by others on the lowest pay. That accounts for the decrease.

"As regards the question of Sub-Deputy Collectors, it was asked how it is that in one place we showed an increase of Rs. 70,000 and in another place of Rs. 30,000 on the same account. The answer is that we have shown an increase of Rs. 70,000 in respect of this year and in addition to the Rs. 30,000 of last year, so that the increase is altogether Rs. 1,00,000. The half of this is paid under the head of 'Law and Justice,' and the other half under the head of 'Land Revenue.'

The Hon'ble Rai Tarini Pershad, Bahadur, asked a question as to the desirability of an increase of muharrirs in Munsifs' establishments, as

Advertisement of Sale

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, in the district of Rangpur, will be put up to sale at 11 o'clock on the 15th June 1903 corresponding with the 32nd Jaista 1310 at the Rangpur head-quarter station.

The purchasers of the several plots of land will be subject to the following conditions —

1st.—The purchasers will have no power to make any excavations on the lander nearer than 15 feet from the railway fencing, or plough the lands closer than 3 feet from its foundation.

2nd—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd—If the amount of purchase-money exceed Rs 100, one-fourth of the amount must be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Act of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 24th March, 1903, and, having been assented to by His Excellency the Viceroy and Governor General on the 23rd April, 1903, is hereby published for general information:—

BENGAL ACT No. IV OF 1903.

An Act to amend the Chittagong Port Commissioners Act, 1887.

WHEREAS it is expedient to amend the Chittagong Port Commissioners Act, 1887; Ben. Act IV of 1887.

It is hereby enacted as follows:—

Short title. 1. This Act may be called the Chittagong Port Commissioners (Amendment) Act, 1903.

Insertion of new section 10A. 2. After section 10 of the Chittagong Port Commissioners Act, 1887, the following shall be inserted, namely:—

Leave of absence and leave-allowances to the Vice-Chairman. "10A. (*1*) The Local Government may—

(*a*) grant such leave of absence and such leave-allowances to the Vice-Chairman as it thinks fit, and

(*b*) appoint another of the Commissioners to act for the Vice-Chairman during his absence on leave, and assign to him such acting-allowance as it thinks fit.

(*2*) Any Commissioner appointed under sub-section (*1*) to act for the Vice-Chairman shall, while so acting, have all the powers and perform all the duties of the Vice-Chairman under this Act.

(*3*) A temporary vacancy in the office of a Commissioner, occasioned by the absence on leave of the Vice-Chairman, shall, if and when necessary, be filled up by election or appointment in the manner hereinbefore provided in section 9:

Provided that the person so elected or appointed shall vacate his office upon the expiry of the leave of absence granted to the Vice-Chairman."

Insertion of new sections 33A & 33B.

3. After section 33 of the said Act the following shall be inserted, namely:—

"33A. (*1*) The Commissioners may, with the previous sanction of the Local Government, by notification, impose a river-due on all goods landed from or shipped into any sea-going vessel lying or being within the limits of the port, whether such goods shall or shall not be so landed or shipped at any wharf, quay, stage, jetty or pier belonging to the Commissioners.

Power to impose river-due and to raise rate thereof.

(*2*) The rate of the said due shall not exceed four annas nor be less than one anna for each ton of goods.

(*3*) Subject to the limits enacted by the foregoing sub-section, the Commissioners may, with the previous sanction of the Local Government, at any time or from time to time, by notification, raise or reduce the rate to be imposed, whether generally or on any particular goods or class of goods.

"33B. Every notification issued under section 33A shall be published in the Calcutta Gazette; and a copy thereof, in the English and Bengali languages and characters, shall be kept affixed in some conspicuous place to be appointed by the Commissioners."

Publication of notifications.

Insertion of new section 64A.

4. After section 64 of the said Act the following shall be inserted, namely:—

"64A. (*1*) The Commissioners may from time to time make bye-laws for determining—

Power to make bye-laws as to pensions, &c.

(*a*) the conditions under which officers and servants mentioned in the schedule sanctioned under section 62, or any of them, shall, on retirement, receive pensions, gratuities or compassionate allowances, and

(*b*) the amount of such pensions, gratuities and allowances.

(*2*) Bye-laws made under sub-section (*1*) shall not take effect unless and until they have been confirmed by the Governor General in Council."

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled under the provisions of the Indian Council's Acts, 1861 and 1892.

The Council met in the Council Chamber on Saturday, the 4th April, 1903.

Present:

The Hon'ble Mr. J. A. Bourdillon, C.S.I., Acting Lieutenant-Governor of Bengal, *presiding*.
The Hon'ble Mr. L. P. Pugh, *Offg.* Advocate-General of Bengal.
The Hon'ble Mr. C. E. Buckland, C.I.E.

The Hon'ble Dr. Asutosh Mukhopadhyaya, M.A., D.L., F.R.A.S., F.R.S.E.
The Hon'ble Babu Chaturbhooj Sahay.
The Hon'ble Babu Joy Gobind Law, C.I.E.
The Hon'ble Maharaja Manindra Chandra Nandy, of Cossimbazar.
The Hon'ble Mr. H. Elworthy.
The Hon'ble Mr. A. A. Apcar.
The Hon'ble Maulvi Seraj-ul-Islam, Khan Bahadur.
The Hon'ble Rai Tarini Pershad, Bahadur.

NEW MEMBER.

The Hon'ble Mr. L. P. Pugh took his seat in Council.

QUESTIONS AND ANSWERS.

THE PROVINCIAL EDUCATIONAL SERVICE.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, asked:—

Is the Government aware that in consequence of the present constitution of the Provincial Educational Service, many officers from the Subordinate Educational Service and some outsiders have been directly appointed to the 4th, 6th and 7th Classes of the Provincial Service, in supersession of the claims of officers in lower classes of that service? In view of the unsatisfactory constitution of the Provincial Service and the hardship done to the officers in lower classes in consequence thereof, will the Government be pleased to re-organise the Service in any way that may, in the opinion of the Government, be satisfactory and practicable?

The Hon'ble MR. EARLE replied:—

"Before the Education Department was last re-organized and the present Provincial and Subordinate Educational Services were created, the Officers of the Department, other than those of the Indian Educational Service, belonged to a single Educational Service. The division of officers into the two newly-created Services was made on the basis of the actual posts held by the various officers at the time of the re-organization, and it was never intended that officers, who were placed in the Subordinate Service, should not be eligible for promotion to the Provincial Service.

"The complaint referred to by the Hon'ble Member has arisen owing to the fact that the salaries of the first two classes of the Subordinate Educational Service exceed those attached to the seventh and eighth classes of the Provincial Educational Service. When, therefore, it becomes necessary to give promotion to an officer from the classes of the Subordinate Educational Service referred to, some officers of the Provincial Educational Service are necessarily superseded. This, however, is not a legitimate grievance, because, as explained above, such promotions were always contemplated.

"As regards the second complaint, it is true that several persons, not belonging to the Educational Service, have, within recent years, been appointed to the higher classes of the Provincial Service, and have, to this extent, retarded promotion. These persons were, however, appointed to posts for which no officers in the service of Government were eligible. Appointments of this kind are unavoidable.

"As stated by me at the last meeting of this Council, the question whether it is practicable to improve the prospects of the Provincial and Subordinate Educational Services is now under the consideration of the Lieutenant-Governor."

RAILWAY OR STEAM TRAMWAY AT BHAGALPUR.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked:—

Will the Government be pleased to state whether or not a scheme for the construction of a Railway or Steam Tramway on the roads from Bhagalpur to Deoghur *viâ* Bounsi and Dumka is still in its contemplation? If not, will the Government be pleased to state the reasons?

The Hon'ble MR. INGLIS replied:—

"No scheme for the construction of a Railway or Steam Tramway on the roads from Bhagalpur to Deogarh *viâ* Bounsi and Dumka is at present under the consideration of the Government.

"The late Lieutenant-Governor considered that a broad gauge line was not required. No proposals for a light railway have reached the Government."

INADEQUATE SUPPLY OF WATER AT BHAGALPUR.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—

Has the attention of the Government been drawn to the fact that the rate-payers in the town of Bhagalpur do not get adequate supply of water during a considerable portion of the year owing to the recess of the Ganges? If so, will the Government be pleased to take steps to remove this difficulty?

The Hon'ble MR. COLLIN replied:—

"Government is aware that difficulties have arisen from time to time in connection with the Bhagalpur water-works owing to the recession of the river. It has also been reported that there is considerable waste from the house-connections. The Commissioners of the Bhagalpur Municipality, who are primarily responsible in the matter, have taken the necessary action to maintain an adequate supply of water and to prevent waste. No application has been made to Government for assistance."

THE ZAMINDARI DAK CESS.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked:—

Will the Government be pleased to state—

(*a*) How much was realized on account of the Zamindari Dâk Cess during each of the last five years.

(*b*) How much was spent for the purposes indicated by Bengal Act VIII of 1862 in each of the said years?

The Hon'ble MR. EARLE replied:—

"The receipts and expenditure of the Zamindari Dâk Cess during each of the last five years have been as follows:—

	Receipts.	Expenditure.
	Rs.	Rs.
1897-98	3,97,825	4,12,717
1898-99	4,02,575	3,69,932
1899-1900	3,94,629	3,58,836
1900-1901	3,31,876	3,72,853
1901-1902	3,03,818	3,56,733."

GRATUITOUS MEDICAL RELIEF BY DISTRICT BOARDS OF BHAGALPUR AND PATNA DIVISIONS.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked:—

Will the Government be pleased to state—

(*a*) What amounts were spent by each District Board in affording gratuitous medical relief to localities affected with cholera and fever in the Divisions of Bhagalpur and Patna during the last three years; and

(*b*) What amounts, if any, were received as private contributions for such gratuitous medical relief during the said period?

The Hon'ble MR. COLLIN replied:—

"It has not been possible within the time given to procure full information to answer the questions.

"As to the first part of the question, it appears that in the Patna Division the expenditure for gratuitous medical relief to localities afflicted with cholera and fever was as follows:—

	Rs.
1899-1900	5,157
1900-1901	17,489
1901-1902	12,480

"No information is as yet available for the Bhagalpur Division. When obtained, it will be communicated.

"As to the second part of the question, it is reported that no private contributions were received by the District Boards of the Patna Division for medical relief of cholera and fever patients during the period specified."

SUB DEPUTY COLLECTORS AND PENSION RULES.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—

Is the Government aware that Sub-Deputy Collectors render 5 or 6 years' service before confirmation? If so, will the Government be pleased to state whether under the existing rules such service is counted for pension? If not, will the Government be pleased to state why Rule 375 of the Civil Service Regulations (4th edition) should not be extended to the Sub-Deputy Collectors also?

The Hon'ble MR. HARE replied:—

"Under the existing rules, service in the grades of Sub-Deputy Collectors before confirmation does not count for pension. The subject has been under the consideration of this Government."

APPOINTMENT OF MEMBERS OF THE PROVINCIAL SERVICE TO SECRETARIAT POSTS.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked:—

Will the Government be pleased to state whether the appointments of Under-Secretaries to the Government of Bengal and Junior Secretaries to the Board of Revenue, are open to the members of the Provincial Executive Service? If so, will the Government be pleased to consider the advisability of appointing to such posts such members of that Service, who, after having satisfactorily worked as Personal Assistants to the Divisional Commissioners, have amply qualified themselves for the same?

The Hon'ble MR. HARE replied:—

"There is no bar to the appointment of a member of the Provincial Service of proved merit and ability to the post of Junior Secretary to the Board of Revenue or an Under-Secretary to the Government of Bengal; but these posts require very special qualifications, and, in the interest of the public service, Government can give no undertaking that will in any way fetter its selection of officers to fill these appointments."

PLAGUE MORTALITY IN CALCUTTA.

The Hon'ble MAHARAJA MANINDRA CHANDRA NANDY, of Cossimbazar, said:—

Is the Government aware that the daily bulletins disclosed an abnormal increase of plague mortality in Calcutta during the month of March, the average being considerably higher than that of any similar month of the past quinquennium; and will the Government be pleased to state what precautionary, preventive or sanitary measures, other than segregation, which Government has definitely abandoned with the full approval of public opinion, have been adopted to cope with the disease in Calcutta itself and to thwart its spread to other localities, since it was officially declared that this City had been infected with plague; and further, will the Government be pleased to state the amount of money which has been expended from Provincial and Municipal Funds on plague preventive measures, and the character of the results obtained, judged by the light of statistics?

The Hon'ble MR. COLLIN replied:—

"The mortality from plague was greater in March last than in the corresponding month of 1902, but was less than in 1901. The figures are—

Deaths from plague in	March,	1903	...	... 3,529
Ditto	ditto	1902	...	... 2,201
Ditto	ditto	1901	...	... 3,810

"Segregation for plague has not been enforced in Calcutta for the last four years. The precautionary measures are disinfection and, when this is not possible owing to the structure of the building, demolition in the case of huts.

"There is no examination of persons leaving Calcutta. It was found possible to enforce this on the railways only, and the results of such partial examination showed that it was not worth the trouble and inconvenience caused by it.

"The total amount of money expended in Calcutta on plague-preventive measures from 1897 to December, 1902, was Rs. 15,23,000. The results must be considered satisfactory, since no serious outbreak of plague has yet occurred in Calcutta as in Bombay and other places."

CHANGE IN THE ORDER OF BUSINESS.

The Hon'ble the PRESIDENT said:—"With the permission of the Council, I propose to make a slight alteration in the order in which we should take up the items in the list of business to-day. It will, I think, be more convenient if we take up the discussion of the Financial Statement after the Council has dealt with the motion which stands in the Hon'ble Mr. Earle's name. I will therefore call upon the Hon'ble Mr. Earle to make his motion now, instead of at the conclusion of the discussion on the Budget."

THE CHOTA NAGPUR TENANCY (AMENDMENT) BILL, 1903.

The Hon'ble MR. EARLE moved that the Hon'ble Mr. Pugh, the Hon'ble Mr. Slacke and the Mover be added to the Select Committee on the Bill to amend the Chota Nagpur Landlord and Tenant Procedure Act and the Chota Nagpur Commutation Act, 1897.

The Motion was put and agreed to.

THE BENGAL FINANCIAL STATEMENT FOR 1903-1904.

The Hon'ble MR. COLLIN moved for the discussion of the Bengal Financial Statement for 1903-1904.

The Hon'ble BABU JOY GOBIND LAW said:—"It is satisfactory to note that in the Budget for 1903-1904 provision has been made for grants to the Calcutta Municipality of Rs. 25,000 for re-survey of the added area, Rs. 35,000 as a contribution towards the scheme for the erection of Incinerators, and Rs. 50,000 for land for extension of Christian burial-grounds, and though the grants, the first two especially, do not appear to err on the side of liberality, it should be understood that during the first year the expenses are not likely to be heavy.

"It is also a matter for congratulation that that much-abused body, the District Board, which is expected to do a great deal with slender means is to come in for a share of special grants in the shape of five lakhs, for improving the communications, and two lakhs for the construction of feeder roads, and in the matter of Education Rs. 3,71,000 are provided for expenditure by District Boards on Primary Schools.

"There is a provision of Rs. 6,000 for commercial classes in training colleges and one of Rs. 4,500 for scholarships for industrial students sent to Europe, and it would be of interest to have some further particulars about the grants—in what manner they are to be utilised. In the case of scholarships, it would perhaps be of importance to provide that the education and training of the students should be confined to matters which would be of immediate use to them when they return.

"A sum of Rs. 40,000 was provided last year for Munsifs' Courts and residences, and I am glad to see a further sum of two lakhs has been granted for a similar object this year. It is extremely gratifying to observe that what has been a crying want for, I may say, a quarter of a century is at last in a fair way of being adequately met within a reasonable period of time.

"Included in the Budget is a provision of five lakhs for a dredger for the Circular and Eastern Canals, I understand for clearing the silt in the Biddadhari, near the Dhapa lock, which obstructs the boat traffic into the Calcutta Canals I am also informed that a new canal is under construction from Bhamunghata to Dhapa for providing facilities for the boat traffic, and it is because the scheme has created a great deal of alarm amongst the neighbouring landholders that I desire to inquire whether the construction of the canal would have the effect of excluding salt water from the lakes, and making the very valuable fishery grounds useless for the purpose. It is apprehended that the destruction of the fishery would have a sensible effect on the fish supply of Calcutta and its Suburbs, and 40,000 persons would, it is said, be thrown out of employment.

"While on the subject of canals, I should mention the condition of Tolly's Nullah, which, in the absence of any measures being taken for its improvement, is gradually silting up, and it is only a question as to how soon it will completely cease to be navigable. A large rice trade is carried on through this canal, and, if the silt is not removed from time to time, it will in time form a complete barrier to the total extinction of the trade. Nor should we lose sight of the fact that a silted up and obstructed channel would be an undoubted source of insanitation, and therefore of grave danger to the health of the town and suburbs."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"Before proceeding to offer remarks and suggestions relating to the Budget presented to the Council, I must first claim the privilege of congratulating the Government upon the financial prosperity of the past year and the forecast for the year before us. The cash balance of nearly 56½ lakhs, with which the year opens, can only be matter for congratulation when associated with the proposals of the Budget laid before us, and with the terse but pregnant sketch of the needs of this Province to which Your Honour gave utterance in the Imperial Council. The programme so earnestly set forth by Your Honour leads us to feel a confidence that the increased resources of the Province will be devoted with sound statesmanship to statesmanlike ends, while the magnificent resources at Your Honour's disposal lead us to hope that solid progress will be achieved during the next twelve months.

"Passing on to specific matters arising out of the Financial Statement, I will offer just a few observations on the question of improving the status of Sub-Deputy Collectors The allotment made for this purpose in the present Budget would be even more acceptable if the figures were less perplexing It may be that my lack of professional knowledge in finance is at fault, but I confess to being unable to discover exactly what the allotment is. In a table given at page 3 of the Financial Statement, I find an item which seems to suggest that Rs 1,00,000 is the sum allotted: on page 7, the figures against the item 'Charges of District Administration' suggest that the generosity of Government reaches the sum of Rs. 1,94,000: while a remark on page 19, in Appendix B, under head 'Land Revenue,' and minor head 'Charges of District Administration,' suggests that this generosity has shrunk to a mere Rs. 50,000. I should be glad to be definitely informed on this subject.. Whatever be the allotment, it will be well spent if it succeeds in improving the status of a branch of the service whose prospects are sadly depressed. The Sub Deputy enters the service with the same qualifications as the Deputy Collector. Both classes qualify by passing the same examination, the latter class of officer being recruited from those candidates who obtain higher marks at the examination. The difference may often be infinitesimal at the examination, but becomes enormous when once service is entered. The work done by the two classes is the same, but the Deputy begins on a salary which the Sub-Deputy can only reach after many years of service, if promotions follow a normal course, while he has to be content to commence on exactly half the pay of his more fortunate co-examinee. Promotions, however, and here lies the main grievance, do not follow a normal course.

"What is now called the 'Provincial Subordinate Civil Service' was a creation of Sir George Campbell, who was also the author of the system of taking

men into what is now called the Provincial Civil Service by open competitive examinations. It was laid down in a Government Resolution, dated 20th March, 1872, that members of the former service should be regarded in course of time as fit to be appointed to Deputy Magistracies, and as a matter of fact Sub-Deputy Collectors were promoted to the grade of Deputy Collector in Sir George Campbell's time, and sometimes with no little rapidity. I may cite the case of Babu Kumud Nath Mukerji, who was appointed Sub-Deputy Collector in November, 1874, and was promoted to be Deputy Collector in July, 1878.

"The system of recruiting the Subordinate Civil Service and the Provincial Civil Service underwent an important change in Sir Charles Elliott's time. The test for selecting men for Sub Deputy Collectorships was made the same as the test for selecting men for Deputy Collectorships, and for some time, *i.e.*, down to the year 1894, Sub-Deputy Collectors were allowed to attend the examinations for admission into the Provincial Civil Service and to enter the latter service by that door. In that year four Sub-Deputy Collectors, among whom were two Biharis, viz., Babu Rama Ballabh Missir, M A., and Maulvi Habibur Rahman, B.A., were promoted to Deputy Collectorships on the results of the examination, as stated in a Government Resolution, dated 16th May, 1894, the following extract from which is pertinent:—

'The following Sub-Deputy Collectors who passed 5th, 9th, 10th and 18th, respectively, at the recent examination, will now be promoted to officiate at once as Deputy Collectors.'

"Sub Deputy Collectors came to be excluded from competitive examinations in 1895, but this caused no practical hardship on the whole down to 1896. A Government Resolution of 20th April, 1896, had the following:—

'The policy of promoting Sub-Deputy Collectors to officiate as Deputy Collectors has been adhered to During the year 1893-94, 16, during the year 1894-95, 28, and during the past year 1895-96, no less than 32, Sub-Deputy Collectors have received promotion to the grade of Officiating Deputy Magistrate and Deputy Collector.'

"But this happy state of things has not continued. There were only three promotions in 1896-97, only one in 1897-98, none in the two following years, eight in 1900-1901, ten in 1901-1902, and three in 1902-1903.

"The gravamen of the complaint shortly put is this: that the Subordinate Civil Service has virtually ceased to be the chief recruiting ground for the Provincial Service.

"It may not be out of place to suggest that some fixed principle be adopted in promoting a Sub-Deputy to a Deputy Collectorship, and that a certain proportion of vacancies in the ranks of Deputy Collectors be laid down as reserved for Sub-Deputy Collectors. As regards the promotions of Sub Deputy Collectors to the Provincial Civil Service, not only should they be definite and regular, but the choice of officers recommending the promotions should be based on considerations of seniority of service, coupled with those of merit and rapidity in passing the departmental examinations."

The Hon'ble the PRESIDENT said:—"I am sorry to interrupt the Hon'ble Member. I would ask him to consider what immediate connection there is between the governing principle in the promotion of Sub-Deputy Collectors and the grant made in the Budget of 1903-1904 for the improvement of their status."

The Hon'ble BABU CHATURBHOOJ SAHAY explained:—"I bow to Your Honour's decision. My intention was to show that while the grant in the Budget for Sub-Deputy Collectors is under consideration, the question of promotion which would naturally affect the Budget should be discussed."

The Hon'ble the PRESIDENT said:—"I think the Hon'ble Member would gain his purpose more effectively if he addressed the Government separately at a more fitting moment. This is hardly the moment to discuss abstruse questions at a time when our attention is directed to the Budget. The Government will be very glad to hear what he has to say in another manner and at another time."

The Hon'ble BABU CHATURBHOOJ SAHAY continued:—"I will pass on to another subject with Your Honour's permission, and that is in connection with the question of the re-grading of Munsifs. While desiring to express the deep gratitude of the community for the action taken by Government in the matter of the re-grading of Munsifs, I beg leave to make a suggestion, which, if adopted, will enhance the value of the measure. The work of some Munsifs includes the trial of cases involving sums reaching Rs. 2,000. The Munsif here joins hands with the Sub-Judge, and I would therefore venture to suggest that either an additional grade of Munsifs or an additional grade of Sub-Judges, on a salary of Rs. 500, be created. This would go a great way towards rendering the Sub-Judicial Service more attractive.

"But while the Munsif's interests are being considered, I would put in a plea for the humbler but no less necessary Amlah. The ministerial staff of the Munsif's Court consists of officers who are always underpaid and overworked. The matter has frequently been taken into consideration, but so far not much has been done for the Province as a whole. As matters stand, the consequences are of no trifling character. The low pay does not attract efficient men, and the heavy work results in ever accumulating arrears which press heavily upon the interests of suitors. I would beg most earnestly that Your Honour will take into consideration the advisability of strengthening this class of officers and of granting them better pay and prospects.

"Before leaving the subject of the Judiciary, I am tempted to offer a remark on the Judicial branch of the Indian Civil Service. The needs and exigencies of the country demand that officers of ripe experience, sound judgment and marked ability should be appointed as District Judges. But this branch of the service is not sufficiently attractive to draw to itself men with these high qualifications. I venture, therefore, in the interests of the administration of justice, to urge upon the Government the necessity of rendering this service more attractive.

"I do not intend to occupy the time of the Council by speaking at length on the subject of the Police. Remarks on this point would be either unnecessary or premature, in view of the inquiry at present being conducted by the Police Commission. But I wish to draw Your Honour's attention to a particular statement in the Government Resolution on the Police Administration for the year 1901. With reference to bad livelihood cases it is stated in the Resolution that in the Patna Division, which is stigmatised as the worst in this respect (and to which I have the honour to belong), 1,318 cases were instituted, out of which only 585 were tried in the villages of the accused persons, and that out of 1,042 persons, from whom security was demanded, only 44, or 4 per cent., were so fortunate as to produce security which was accepted. Both statements furnish food for reflection, and the second seems to me particularly suggestive. Why should the required security not have been furnished in so vast a proportion of cases? The public will be driven to conclude either that the sum required was prohibitive in amount, or—and this seems to be more likely—that a power was operative behind the scenes to prevent the furnishing of security, a power whose length of arm and strength of muscle effectively terrorise those who might otherwise be willing to render assistance to men who stand in need of it. I trust that Your Honour will take steps which may effectively put a stop to this deplorable state of things.

"The revenue under Stamps is expected to show an increase of 3 lakhs over the Budget Estimate for the last year, and an increase of three quarters of a lakh over the Revised Estimate. The steady rise in the revenue under this head from year to year is, in the absence of definite information as to its cause, not altogether encouraging. Among other things it may point to increasing litigation, and it may also point to a growing indebtedness of a certain section or sections of the community, if the increase is partly due to the sale of stamp-papers required for the transactions of borrowing and lending.

I beg leave, therefore, to suggest that inquiry be made into this matter with a view to ascertaining—

(*a*) the extent of the sale of stamp-papers for the purpose of securing loans;

(*b*) the class of people who buy them;

(*c*) the class of people from whom the money is borrowed.

"An inquiry of this kind may possibly throw a valuable sidelight upon the economic condition of our agricultural population.

"Turning now to the question of Excise, I notice that the net increase of revenue under this head for 1901-1902 over the figures for the previous year was 3¾ lakhs, the largest increase on record till then. That record has since been surpassed, and the results of settlements for 1902-1903 show an increase of income, amounting to no less than 4½ lakhs, over the income of the preceding year. These figures are simply phenomenal, and call for notice. The increase is explained in various places of the Government Report for 1901-1902, as due to better settlements and increased consumption of liquor. The following extract from page 10 of the Report bears out my statement:—

'The increase was largest in Patna (Rs. 14,542), due to better settlements and increased consumption of distillery liquor on account of competition among the vendors Hazaribagh comes next with an increase of Rs. 6,452, due to the settlement of distillery shops at enhanced fees and to increased consumption on account of good crops. The increase of Rs. 5,018 in Saran was due to increased consumption, owing to the reduction in the retail price of *khasia*, or weak liquor. In Darbhanga the consumption shows a further rise of 865 gallons L. P., due to competition among the vendors and the manufacture of weak liquor at 86° U. P. to meet the local demand.'

"This extract shows clearly enough that the principle declared to lie at the base of the Excise policy of Government has not been followed in Bihar, whatever may have been its fate elsewhere. That principle has always been understood to mean that a maximum income should be raised out of a minimum consumption, and that while aiming at a lucrative revenue out of Excise duties, Government would take pains to see that increased consumption of liquor did not result from its policy. An unpleasant feeling will be engendered in the mind of the public, that increased consumption of liquor is the real benefactor to Government revenues under this head. I venture, therefore, to draw Your Honour's attention to what must be regarded as a serious matter, and trust that Government will do what it can to check the evil of drunkenness which, to judge from the Government Excise Report, seems to be on the increase among the lower orders in this Province.

"At the risk of seeming somewhat quixotic, I would place before Your Honour a proposition relating to Jail Administration, which I believe to be of importance. I venture to think that the inmates of prisons should be regarded as not only entitled to healthy conditions of physical life, but also as calling for some effort to improve their moral and spiritual condition. This principle is recognised in England, and to some extent in India also, so far as relates to European prisoners. I would suggest its extension to prisoners of all classes. Persons especially chosen for the work might be engaged to instruct the prisoners by means of sermons and homilies, and places and times might be set apart where and when those prisoners who wish to do so might have the opportunity of saying their prayers each in the way of his inherited creed. I would respectfully urge that incarceration should be not merely retributive, but corrective; that the solitude and the discipline of prison life not infrequently induce a state of mind which a slight impulse may turn into genuine repentance; and that advantage should be taken of every possible opening for the reclamation of evil-doers. I am confident that Your Honour will treat my suggestion with sympathetic consideration.

"The matter on which I have just spoken naturally brings before the mind the thought of bodily health and the affording of relief to bodily disease. In this connection, I venture to say that the paucity of dispensaries in the rural districts of Bengal is a matter that calls loudly for the attention of the Government. In the interior of the districts no medical relief can, under existing conditions, reach the people in times of suffering. Surely it is not too much to say that public money could not be better spent than in devising

means whereby medical relief may be brought within the reach of the suffering poor throughout the Province. I would suggest that a dispensary be established at or near every thana in the rural districts, and I am entitled to regard my suggestion as distinctly modest in view of the fact that the Inspector-General of Civil Hospitals is in favour of a wider multiplication of dispensaries than I am praying for.

"The question of Dispensaries leads me to the question of Plague expenditure in Bihar. As the Goverment is well aware, plague is working frightful havoc in the Bihar districts, and the efforts and resources of local officers who are doing their best to combat this formidable foe stand in urgent need of assistance from Government. I would respectfully urge that this is not the time for Government to wait till formal applications are sent in by District Boards and Municipalities. Government should take the initiative, and, after ascertaining the requirements of the infected areas, should extend a helping hand to the same. The appeal for funds by Mr. Cumming, the District Magistrate of Patna, shows to what straits he is put in his efforts to cope with the ravages of plague in Bankipur. Your Honour's note to Mr. Growse, the District Magistrate of Saran, while evincing an anxious solicitude for the afflicted people of that district, leads us to feel a hope that under Your Honour's Government the hands of District Boards and Municipalities and officials will be strengthened by Provincial contributions from public funds. I make my appeal with the greater confidence in view of the fact that there has been a considerable reduction in Plague charges due to the abolition of Plague Camps.

"There are certain matters connected especially with Bihar to which I would respectfully invite Your Honour's attention:—

"(*a*) There is not a single Bihari, Hindu or Muhammadan in the higher ranks of the Opium Service. This is a Service, as Your Honour knows, is especially connected with Bihar, and the whole of the Opium Revenue in Bengal is derived from that part of the Province. It is not unnatural, therefore, that the Bihari should indulge the aspiration of serving in the graded branch of the Opium Service, and I would ask Your Honour to consider our request that when next this Government nominates an Indian candidate to a vacancy in the higher ranks of the department, it will be graciously pleased to bestow its nomination upon a Bihari, be he Hindu or Muhammadan, who may reasonably be considered fit for this appointment. I trust that Your Honour will not consider this request unreasonable or unworthy of consideration.

"(*b*) The second matter I wish to place before Your Honour also takes the form of a request. The establishment of a Medical College in the centre of Bihar is a great desideratum, and that principally for two reasons,—first, that a supply of first rate medical assistance for the growing wants of the people of Bihar may be accelerated; and, secondly, that a new and desirable outlet may be provided for the better intellect of the community. As matters stand, the educated Bihari has to choose between Government service and the legal profession. The medical profession is practically out of the question, for the distance of Calcutta from Bihar districts, the lack of a proper system of hostels for Bihari students in Calcutta, the greater expense of living in the metropolis, and other considerations of a like nature, practically prevent Bihari students from joining the Calcutta Medical College. But the province is growing in culture and importance, and with this growth there naturally comes an increasing desire to find fresh outlets for legitimate ambitions. Bihar certainly deserves the fostering care of the Government; its historical and political character, its geographical facilities, its commercial and fiscal importance, claim for it no small consideration from its Rulers. I would urge upon Your Honour the advisability of providing for the people of Bihar opportunities of entering every department of professional life. We have a first-grade Arts College and Law classes; we have an Engineering School which may soon be a College; we are likely to have an Agricultural College at Poosa, and if Your Honour will complete the work of your predecessors, Sir George Campbell and Sir Richard Temple, and give us a Medical College or the beginnings of one, we shall be well equipped for the battle of life. I am hopeful enough to believe that a new era is dawning upon my province, and I

trust that Your Honour will hasten its dawn, and enable us to be in no way behind other provinces in the requisites for a vigorous and independent life.

"(*c*) I alluded a moment ago to the Bihar School of Engineering, for the establishment of which the people of my province are sincerely grateful to Government. I would now beg leave to urge that the School be raised to the status of a College. Proposals for so raising it have been made, and I trust that they will be carried through. In answer to a question put by me at a Council meeting the other day, I was given to understand that a grant has been made by Government for the equipment of the School with the necessary requisites for an efficient laboratory and plant, and if this has been done, there seems to be no reason why the development of the School into a College should be any longer delayed. It is most desirable that in the matter of professional education Bihar should be self-contained.

"In concluding my remarks on the Financial Statement, I wish to turn for a moment to the question of Agriculture and Irrigation. The Agricultural prospects of the country depend at present entirely upon seasonable and well-distributed rainfall. The uncertainty of the rainfall has, under the benign rule of the distinguished Statesman who presides over the destinies of the Indian Empire, brought into existence the Irrigation Commission which is inquiring into the wants and requirements of the whole country, and whose labours will soon be brought to a close. The Commission has visited Bihar, and I had the honour of giving evidence before it. It has inquired into the necessity of having Irrigation works for the Bhabua Sub-division, which is the most exposed to drought, as I had the honour to point out to the Council last year. The inquiries of the Commission have been followed by an inquiry on the part of local experts into the particular nature and feasibility of the Irrigation works that can be provided for that sub-division. I may be allowed to renew my appeal and repeat my request that the present Government, which has as its head an Administrator possessing a full knowledge of the locality and of the especial need for artificial Irrigation works, will take up the matter with the earnestness that the importance of the subject demands, and will work out the salvation of the people of that sub-division.

"As regards Agricultural Reform in its various branches, the subject is receiving the best attention both of the Government of India and of the Government of Bengal, as the proceedings of the Supreme Council at its last meeting clearly shew. We may hope, therefore, that better days are in store for the people of this country.

"Before taking my seat, I beg leave to offer a suggestion to Your Honour regarding the procedure of this Council on the Financial Statement. My suggestion is that a day should be fixed before the presentation of the Budget, on which proposals relating to proper subjects and methods of expenditure might be invited. Such proposals might, if approved of, find a place in the Budget. Under the existing system we do not make the acquaintance of the Budget until it has attained finality, and any remarks or suggestions which may be submitted for consideration in connection with it, lose what force they may have by the mere fact that in most cases they cannot, from the nature of the case, produce any immediate result. The possibility of a remote result being achieved is further diluted by the lapse of time, and it may often happen that criticisms and suggestions, which under other circumstances might be useful and productive, are rendered barren and inoperative. I humbly commend the matter to Your Honour's attention."

The Hon'ble MAHARAJA MANINDRA CHANDRA NANDY, of Cossimbazar, said :—"It is impossible for a non-official Member to look over the figures in the Budget and the policy which they embody without offering to the Government his congratulations. We may not be able to felicitate the Government on the happy settlement of large and difficult financial considerations with which the Imperial Council deals, but we have before us important issues which affect the good government of the Province and the happiness of its teeming millions, and, Sir, I am bound to say they have been dealt with in this Budget in the spirit of fairness and with an earnest desire to do justice to all interests which challenge our unhesitating approval.

"The Budget which we are now considering will be the last under the Provincial Contract made in 1897 and which has been extended for special reasons for two years. The settlement of the Provincial Contract has been always a source of fruitful controversy between the Provincial and Imperial Governments. Sir, you rightly interpreted the popular sentiment on the subject when you said from your place in the Imperial Council the other day that the Province looked forward with the greatest interest to the settlement of the coming Provincial Contract. This Council endorses the hope, which you so eloquently expressed, that when the final decision of this important matter has been arrived at by the Government of India, it will be found that 'Bengal has obtained a larger share of the revenue under the divided heads and above all things a greater permanancy of allotment.' Sir, ours is a progressive Province, the centre of all those forces which contribute to the culture and enlightenment of not only this Province but of vast areas lying outside it, and the resources available to the Government ought to be in keeping with our growing wants. We thankfully note that the Government of India have in their generosity from time to time aided the Provincial Government and have placed funds at its disposal for various useful and important purposes. That the Government of India should have done so is, I venture to submit, proof positive that the allotments made under the Provincial Contract were not adequate to meet the growing wants of our progressive Province, and in this connection I feel that I must express the gratitude of my countrymen to Your Honour for your noble appeal from your place in the Imperial Council for a just and adequate recognition of the financial claims of this Province when the Contract is made next year.

"Your Honour set forth in review the various needs of the Province and how it is impossible to do justice to them with the funds at our disposal. Among these matters there was one in which I may be said to feel a personal interest and to which Your Honour referred in the course of your speech, viz., the clearance and the dredging of the Bhagirathi. I thankfully admit that a sum of five lakhs of rupees has been provided under this head in the Budget Estimate of 1903-1904. I am no expert and cannot undertake to say whether the amount provided will be sufficient for the completion of the work. But I am sure that the Government having taken the work in hand will see it through and effectively provide for the clearance of a stream which is the high road for trade and commerce to several districts of Bengal. The decline of the trade of the important district of Murshidabad, which was once the seat of the capital of the province and might be regarded as the cradle of British power in India, was largely due to the silting up of the Bhagirathi and the postponement of those operations, the need of which has now been happily recognised by the Government.

"The silting up of the Bhagirathi must also be considered from another point of view. The sanitation of the place has greatly suffered; and though the introduction of a supply of pure water has done something towards the improvement of the sanitary condition of the town of Berhampur, the district unhappily continues to be a prey to the occurrence of malarious fever which counts its victims by thousands and inflicts nameless sufferings upon many more thousands. If the preservation of the health of the people is the supreme concern of Government, as I venture to think it is, the prosecution of the dredging operations which Your Honour's Government has undertaken becomes a matter, I might almost say, of paramount importance.

"One of the happy features of the Budget is the continuity of Policy which it displays. Lieutenant-Governors come and go; Secretaries of Government are translated to higher spheres; but the beneficent policy which marks the measures of Government continues its even course. For the last few years the attention of Government has been drawn to the urgent necessity of improving the status of the Provincial Service in both its branches. Something has been done in this direction and the country gratefully acknowledges it. But much more yet remains to be done both as regards the Provincial Service and other cognate services, the status of which remains unchanged and unimproved. The Government is sensible of its obligations in this respect. You, Sir, were pleased to observe that the prospects of the Subordinate Judicial Service and of the

Educational Service in Bengal, both Provincial and Subordinate, are far from good, and it is admitted that both require reform which only awaits the allotment of funds. It is evident from the above that you are prepared to improve the status and position of these Services, if only the necessary funds were forthcoming. I can only express the hope that funds will be forthcoming and that the much-needed reforms in regard to both these Services will be brought within the range of practical politics by the allotment of larger funds under the approaching Provincial Contract.

"I rejoice to learn that before long an improvement may be announced in the prospects of the Subordinate Executive Service. I find that a sum of Rs. 70,000 has been allotted in the Budget Estimate for the improvement of the status of Sub-Deputy Collectors. This follows as a necessary corollary to the improvement of the status of the Provincial Service. The scheme, I understand, now awaits the consideration of the Government of India. I trust the necessary sanction will soon be forthcoming and the grievance of this deserving class of public servants will have become a thing of the past.

"A sum of two lakhs of rupees has been provided for Munsifs' Courts and residences. I should like to know how much of this amount is to be devoted to the construction of Munsifs' quarters. Will the Financial Secretary be good enough to let me know how many Munsifs' residences have been erected up till now and their total cost?

"I find that a sum of two lakhs of rupees has been provided for the residences of Government officials. I should like to have some details about the class of officials who are thus to be provided for. We have heard a great deal about the laws' delays, specially in reference to the High Court; and last year provision was made for the appointment of a Puisne Judge. But the Judge was not appointed. The public would like to have some explanation of the fact fuller than what has been given in the note. No less an authority than one of His Majesty's Judges, the Hon'ble Mr. Justice Rampini, speaking from his place in the Imperial Council, observed that the number of our Subordinate Judges is not equal to meet the requirements of litigation, and that unless a further temporary increase in the number of Subordinate Judges is promptly granted as need arises, arrears will increase so rapidly as to exceed the powers of the Courts to deal with them. The situation thus described by a high and competent authority is grave and should be remedied, specially regard being had to the fact that the administration of justice in these Provinces leaves a handsome balance which, I venture to submit, should in the first instance be devoted to the improvements of the efficiency of our system of justice.

"Under Education the Financial Secretary remarks: 'There has been an apparent failure to expend Rs. 12,28,000.' Will the Hon'ble Member be so good as to explain the cause of this failure? For, if there is one subject more than another in regard to which the public are anxious that the whole of the grant should be spent, it is the grant in connection with Education; for the fact remains that, having regard to the needs of so vast a population as that of Bengal, the Educational grant is deemed inadequate, and the Government felt itself under the need of devoting a good portion of the grant which it received from the Government of India to the promotion of Education. For various reasons public attention has been largely drawn to the Educational problem. It is one of those questions to which His Excellency the Viceroy pays special attention, and the public demand is for more money being spent upon Educational purposes. At such a time it must be a matter of regret that the whole of the grant under Education could not be spent in 1902-1903.

"I am glad to note that the grant to the District Boards has been renewed this year, and that the sum of Rs. 50,000 has been provided under this head in the Budget Estimates. Though this is much less than what was granted last year, viz., Rs. 1,50,000, still it indicates the acceptance of the principle that these grants will form a permanent recurring charge in the Provincial Budget. I trust that the Provincial Contract which is to be made next year will enable the Local Government to render substantial help to the District Boards from year to year.

"Once again I desire to offer my congratulations to the Government on the Budget which has been laid before us."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"It is customary on the occasion of the annual discussion of the Financial Statement in this Council to offer our congratulations to the Hon'ble Member in charge of the Financial Department, and I have no desire on the present occasion to depart from that practice. It would be idle to affirm that the allotments which have been made under the various heads will give satisfaction to everybody, but it must be admitted by the most unfriendly critic that the statement bears unmistakable evidence on the face of it of a desire on the part of Government to recognise the existence of pressing needs in various directions and to make provision for their removal as far as practicable.

"I rejoice to find that the substantial sum of two lakhs has been set apart for the accommodation of Munsifs and their Courts, and I trust that at the end of the next financial year, Government will not only tell us that the whole of this amount has been actually expended, but also make further provision in the same direction.

"I further rejoice to find that it is proposed to spend over three lakhs of rupees for the construction of a Surgical ward and of a Pathological block in the Calcutta Medical College Hospital, and I trust that this sum also will be actually spent during the year.

"These are all grants which will enable Government to carry out reforms which are urgently needed and which will be thankfully welcomed; but I must not omit to invite attention to a smaller grant of a very different character, namely, the grant of Rs 60,000 for the preservation of the *Konarak* temple and of the *Rhotas* fort and palace. This desire on the part of Government to preserve our ancient monuments is highly appreciated by every truly cultured man, and I trust that the policy which has been recently inaugurated will be persistently followed.

"With your permission, Sir, I shall now pass on from these general observations to the detailed examination of the subject in which I am specially interested, namely, the subject of Education. I regret to say that in this matter there is substantial ground for complaint. I say so with great deliberation, and I shall endeavour to prove my statement to the fullest extent. It will be in the recollection of Hon'ble Members that last year the Government of India found it possible to place at the disposal of the Government of Bengal a sum of ten lakhs of rupees to be spent for Educational purposes. I took the liberty of referring to considerations which, in my judgment, ought not to have been overlooked when the details of the distribution of this sum came to be finally determined. I pressed upon the notice of Government the necessity of improving the status of Educational officers, but I was assured that the claims of Primary Education were paramount, and that the Imperial grant must be utilised in the first instance for the strengthening and promotion of Primary Education. I would have loyally accepted this decision of Government if it had been carried into effect, but let us examine for a moment the actual facts.

"I find it stated in paragraph 5 of the Explanatory Notes on the present Financial Statement that a sum of over five lakhs of rupees have been actually saved out of this Imperial grant of ten lakhs. But this is not all. Part at least of this Imperial grant of ten lakhs has been unquestionably spent for ordinary purposes which ought to have been met out of the ordinary Provincial grant for Education. I base these observations upon the facts contained in Statements A and B laid on the table in answer to the question put by my Hon'ble friend Babu Chaturbhooj Sahay. It seems to me inconceivable how there can be any justification for utilising this special Imperial grant of ten lakhs for purchase of rice for the boys of the Alipore Reformatory School, or for gas lights in the Eden Hindu Hostel, or for the construction of book-shelves in the Library of the Patna College.

"In order to enable the Hon'ble Member in charge of Education to meet my arguments, I will formulate the principles which, I maintain, ought to be followed with reference to the special Imperial grant of ten lakhs. In the first place, I maintain that this grant of ten lakhs ought not to induce the Government of Bengal to reduce, what I may call, the normal Provincial grant for

Education. In the second place, I maintain that an effort ought to be made to spend the whole of these ten lakhs for Educational purposes during the year. In the third place, I maintain that if the whole of it is not spent during the year and is allowed to lapse, in the following year the Provincial grant ought to show a corresponding increase. I will illustrate briefly the principles I have enunciated.

"Assume that the annual Provincial grant for Education is thirty-two lakhs, and that the Government of India in a particular year makes an Imperial grant of ten lakhs for the promotion of Education. Is there any justification on the part of the Local Government to spend less than forty-two lakhs? I submit there can be no justification whatsoever. Nobody has suggested that the Provincial finances are unable to bear the burden of thirty-two lakhs a year for Education. Why should then Government, as soon as it receives the Imperial grant, proceed to effect a saving out of the Provincial grant and spend the amount so saved for purposes other than Educational?

"Then, again, I submit that it is equally incontestable that the whole of the Imperial grant ought to be spent for the purpose for which it was made. If, by reason of any unforeseen circumstances, it cannot be spent during the year, and consequently lapses, the Provincial grant for the following year should in all fairness be correspondingly increased. Look at the matter from what point of view you will, the substance of the transaction is that fully five lakhs out of the ten lakhs which was placed at the disposal of the Government of Bengal by the munificence of the Government of India has not been spent for Educational purposes, and has been allowed to lapse, with the inevitable consequence that it will be improperly appropriated for purposes other than Educational. I desire, Sir, to enter my most emphatic and unqualified protest against this action of the Government of Bengal.

"I find, Sir, that the Government of India has this year again made another grant of ten lakhs of rupees for Education, and I find from the Budget that it is proposed to spend the whole of this sum along with the normal Provincial grant of thirty-two lakhs. I trust, Sir, we shall not be told at the end of the year that Government has found it impossible to spend the whole of the forty-two lakhs for Educational purposes, and that it has effected a saving of five lakhs. For whether we say that the whole of the Provincial grant has been spent and a saving of five lakhs has been effected out of the Imperial grant, or whether we say that the whole of the Imperial grant has been spent and a saving of five lakhs has been effected out of the Provincial grant, either position seems to me to be indefensible, if the so-called saving is applied for purposes other than Educational; if such a contingency repeats itself, the Government of India will be perfectly justified in saying "we never intended that you should reduce your normal grant by reason of our Imperial grant, and if you do not know how to spend the Imperial grant, it must be reduced."

"This brings me, Sir, to the consideration of the question which I pressed upon the notice of Government last year, namely, the improvement of the status of Educational officers. I venture to think, Sir, that when it was found that the paramount claims of Primary Education would not absorb the whole of ten lakhs, a portion, at any rate of the surplus, might have been applied for the improvement of the status of the Educational Service. I pointed out, Sir, that the claims of the Education Department have been systematically ignored, and that its interests have been subordinated to those of the other departments of the public service. I pointed out further that the Government holds out better prospects to our young men in the Judicial and Executive Services than it does in the Educational Service, and that the inevitable consequence has been that our most distinguished graduates prefer the Judicial and the Executive Branches of the Service.

"The Hon'ble Member who was in charge of Education last year did not and could not controvert these statements, but he maintained that the work of a member of the Educational Service cannot be compared, as regards difficulty, anxiety and responsibility, with that of an officer of the Judicial or Magisterial Service. I confess, Sir, I was surprised to hear this view maintained by an

officer of marked ability and conscientiousness like the Hon'ble Mr. Macpherson. I entirely dissent from this view, and I have no hesitation in submitting that the status of the members of the Provincial Educational Service ought not to be lower than the status of the members of the Provincial Judicial and Executive Services.

"My own opinion upon this matter may be worth nothing, but I am fortified in my views by the opinions of men whose authority cannot be questioned. So far back as 1854, Sir Charles Wood, in the great Education Despatch of 1854, said: 'Our wish is that the profession of school masters may for the future afford inducement to the natives of India, such as are held out in other branches of the public service.' The policy so clearly enunciated was affirmed in the Education Despatch of 1859 from Lord Derby, in the Education Despatch of 1870 from the Duke of Argyll, and in the letter of the Government of India upon the Report of the Education Commission of 1882. I do not propose to trouble you with extracts from these despatches, as they have no longer to be sought out in musty Blue-books, but may be found in the valuable History of Bengal under the Lieutenant-Governors by the Hon'ble Mr. Buckland. I would only take the liberty to read to you the eloquent words of His Excellency the Viceroy in one of his Convocation addresses: 'I turn to these young men who are going to be teachers of others. I pray them to recognise the gravity and responsibility of their choice. Rightly viewed, theirs is the foremost of sciences, the noblest of professions, the most intellectual of arts. The first thing I would have you remember is, that you are not entering upon an easy or an idle profession. It is *the most* responsible of all.'

"I fervently hope, Sir, we shall hear no longer, not at any rate in this Council, that the work of a member of the Educational Service is less responsible than the work of a member of the Provincial Judicial or Executive Service, and that consequently his remuneration ought to be less.

"I earnestly invite the attention of the Government to the question of the status of the members of the Educational Service; the initial pay is much lower, the prospects of promotion more remote, and the maximum salary also is smaller than in the Executive and Judicial Services. The remedy which I would suggest would be first to raise the pay of the lowest grade to the same scale as in the Provincial Executive and Judicial Services, and, secondly, to increase the number of appointments in the higher grades.

"There are two minor points in connection with Education to which I desire to make a brief reference. On turning to heading 22, I find that the Government spends annually Rs. 9,000 for the maintenance of Law Colleges. It has been pointed out by the Universities Commission that the provision which is made for law teaching in the Government Colleges in the mufassal is extremely inadequate, and I would suggest, for the consideration of the Government, either that the provision should be made adequate, or that these nominal classes should be abolished.

"The other matter to which I wish to draw your attention is the provision made for an Assistant Director of Public Instruction. I have not been able to find any indication as to the precise duties and functions of this new officer. But I would venture to hope that it will now be found possible to carry out more satisfactorily the scheme which the Government has undertaken for prescribing text-books for our schools. The manner in which that scheme has been worked recently, has caused a great deal of complaint and dissatisfaction which, I regret to say, is unfortunately well founded. The manner in which these books have been approved has been extremely unsatisfactory, and the result has been so deplorable that I decline to believe that the Director of Public Instruction could have exercised any real personal supervision over this matter. The books which have been approved are many of them of such a character that they would not be tolerated for a moment if they were not positively forced upon the authorities of schools. They are originally submitted in English and subsequently translated into vernacular, the result being that the vernacular which is placed in the hands of students is half Anglicised, half Sanskritised. The consequence is that

the genuine vernacular text-book has been swept out of existence and has been replaced by manuals which may benefit a particular firm of publishers, but certainly do not benefit the students. I am further surprised to find that these precious manuals are to be forced upon all schools, and I have in my hands a Circular marked *Confidential* for the attainment of this laudable object. Why anything in matters Educational should be labelled *Confidential* I cannot conceive, except it be this: that it is obviously unreasonable and will not stand the test of criticism. I hope, Sir, that the new Assistant Director of Public Instruction will either look into the matter himself, or render it possible for the Director to scrutinise the matter with the care and caution it deserves."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I feel no hesitation in calling it a Prosperity Budget in the true sense of the term, and I must congratulate the Government and the Hon'ble the Financial Secretary on placing such a Budget before us. It not only shows a good administration in the past, but also promises such in future. It is sometimes said that it is idle to make any suggestion in Council about the Budget, which is a cut and dried thing carefully framed by the Hon'ble the Financial Secretary, who is thoroughly alive to his responsibility in the matter, and considered by the Local Government and passed by the Government of India. But I do not share in such feeling, as I have very often found Government giving effect to the suggestions made on such occasions by the non official Members of the Council, and I sincerely believe that if we can convince the Government that our grievances are just and reasonable and within its power to remedy them, it will do so. I therefore venture to notice some of the salient items of the Budget now placed before us.

"Perhaps I would be charged for partiality to Bhagalpur in making my appeal on behalf of the Bhagalpur Division for several remedies, but since 1892 Bhagalpur has had no opportunity of sending its representative to this Council till September last, when I had the honour of being returned by the Bhagalpur public as their representative to represent its grievances to the Council. This, I trust, will be deemed a justification of my action in this connection.

"Looking at page 19 of the Budget, I find that under the head 'Land Records and Agriculture,' the cost of superintendence has been estimated at Rs. 55,000 as against Rs. 44,000 in the Budget for 1902-1903. There was a sub-head in that Budget 'Establishment of Agricultural Banks,' for which a sum of Rs. 15,000 was allotted; but the Budget under discussion shows that the sub-head 'Superintendence' included that sum of Rs. 15,000. In the present Budget there has been no specific allotment for Agricultural Banks, but the amount under the sub-head of 'Superintendence' is higher than the actual of 1900-1901, and the estimates of 1901-1902 and 1902-1903. I shall be glad to know if this sum of Rs. 55,000 includes any provision for establishing any Agricultural Banks over and above the 48 Agricultural Banks already started. I am glad to notice that the Government of India has recently made some arrangements for the better supervision of the Agricultural Department, but I am afraid no amount of supervision by the heads of the Department can lead to any very practical good, unless the lessons of Agriculture be practically brought home to the minds of the cultivators. To further this object, I would recommend formation of Agricultural Committees in each district of the Province and establishment of more experimental farms like those which have already been started at Burdwan, Dumraon, &c. Agricultural exhibitions in different parts of the Province held under the patronage and encouragement of the Government will greatly add to the usefulness of such institutions.

"I next come to the head of 'Police Reforms.' Much has been said of late both by officials and the general public, including my humble self as a witness before the Police Commission about the inefficiency of the present Police. I convey my sincere thanks to Government for the provision of four lakhs in the Budget for general reforms in that Department. I see a provision has also been made for the revision of the establishment at the training school for Sub-

Inspectors. But it does not appear what amount has been set apart for it, or how it will be spent. The Police Training School, as at present constituted, does not efficiently teach the cadets the art of investigation of cases. Formerly the period of training was three months, which has now been raised to six months, but I think this is not sufficient, and it should be raised to one year.

"Further, the mock investigations held in the premises of the school for giving a practical training to the cadets are worthless. In fact, the cadets after leaving the school are placed entirely in the hands of the old class of head-constables in the matter of learning the investigation work and are soon corrupted by them. Now that a grant has been made for revision of the establishment, I humbly request Your Honour, if that grant be sufficient, to consider the desirability of placing the town of Bhagalpur under the charge of the Police Training School. Already there are one Assistant Superintendent and three Inspectors of approved service in that Institution, but they are overworked. With an addition of a few more Inspectors as Instructors and with certain other changes, I think the scheme will meet with success. It will give the cadets an excellent opportunity of learning the investigation work *practically*.

"If this scheme do not find favour with the Government, I beg to suggest that the town Police station may be made a model station to which the cadets may be taken for the purposes of training in the investigation work."

The Hon'ble the PRESIDENT said:—"May I ask the Hon'ble Member as I did the Hon'ble Babu Chaturbhooj Sahay to confine his remarks to the Budget on this occasion. I would ask him to consider whether he does wisely in taking up the time of the Council in dealing with these matters with regard to Police establishment when we are here to consider the Financial Statement. I think if he would devote his attention to larger matters, it might be more conducive to business."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, continued:—"I beg Your Honour's pardon. I will leave this subject and proceed to deal with other matters.

"I next turn to the subject of Education. To begin with, I, on behalf of the Division I represent, must thank the Government of India for the very handsome grant of ten lakhs of rupees for the cause of Education. I do not like to detain the Council by an elaborate discussion of the subject, as the whole system of Education in all its branches will be remodelled after the Government of India have passed its final resolutions on the report of the University Commission. On this occasion I shall chiefly deal with the subject of Primary Education. Primary Education is imparted in the lower classes of secondary schools as well as the primary schools. It is a matter of great satisfaction to find that in the present Budget fair sums have been set apart for the improvement of primary education, for training institutions, for primary school teachers, for lower primary scholarships, and for contribution to Provident Fund for teachers in primary schools. Both expansion and consolidation of Primary Education should be always kept in view. It is a matter of great regret that since 1896-97 the number of primary schools as also the number of primary scholars have steadily decreased. But I hope fresh impetus will be given to the cause of Primary Education by the grants made in the present Budget. It is very desirable that teachers, who would mould and train the minds of the young generations, should themselves be trained men, and this purpose will be well served by the training institutions. The course of study need be carefully revised, and it should be such that it may teach the boys by object-lessons and make them practically familiar, as far as possible, with their ancestral crafts.

"Now I beg to draw Your Honour's attention to the backward condition of the division I represent, and to the necessity of giving it its fair share of the

grant allotted for Primary Education. The situation of this division in comparison with the other divisions of the Province will at once appear from the table I hold in my hand:—

	Name of Division.	Male population of school-going age according to the Census of 1901.	Percentage of pupils to population of school-going age.
1.	Patna	1,120,246	14·4
2.	Dacca	820,993	24·2
3.	Rajshahi	659,007	18·5
4.	Bhagalpur	619,737	13·8
5.	24-Parganas	621,213	28 0
	Calcutta	83,804	19·5
6.	Burdwan	617,539	43·1
7.	Chota Nagpur ...	361,386	18·3
8.	Chittagong	354,659	34·3
9.	Orissa	317,359	30 7
	Orissa Tributary Mahals ...	145,496	11·2

"The figures tell their own tales. I need only say that in point of Education the Bhagalpur Division is the most backward in the whole Presidency, and it therefore deserves the best encouragement at the hands of Your Honour's Government.

"I have to lay before Your Honour another grievance of the Bhagalpur Division, and that is in respect of Technical Education. In these days of hard competition, when both service and profession are overcrowded, when even many of our graduates are at their wits' ends to find a mere subsistence, the value of Technical Education cannot be over-estimated. Government is fully alive to it, and has been trying its best to expand this system of education. Technical schools have been established in different parts of the Province. Technical sides have been added to certain zilla and high schools in pursuance of the scheme of bifurcation of studies introduced in the year 1900-1901 for training students in manufacturing industries as well as in commerce and trade. At present there is in every Division of the Province, except one, either a technical school or a technical side to the zilla school, and in some Divisions there are both. The unenviable exception is the Bhagalpur Division, which has not within its whole range either a technical school or any technical side to any zilla or high school. I deem it my duty to bring this to the notice of Your Honour's Government, so that it may be pleased to do what it may think proper in this connection.

"I next come to the subject of Water-Supply. The Council is aware that Government attaches great importance to the supply of pure water for drinking purposes. This emboldens me to approach Your Honour with this humble request that Government may be pleased to see to the extension of water-supply, not only along the District Board roads, but also in the interior, by issuing instructions to the District Officers to point out while out on tour the importance of such supply to the rich and well-to-do people of their districts.

"Now I proceed to take up the question of the Water-Works in the town of Bhagalpur. The water-works of Bhagalpur were started in the year 1888 at a cost of about Rs. 3,12,000 raised mostly by public subscriptions, and also partly by debenture loans, which were Rs. 50,000 at an interest of Rs. 6 *per centum per annum*. In the year 1895-1896 an extension was made of the works when a loan of three lakhs was obtained from Government at an interest of four *per centum per annum* on condition of repayment within 30 years by half-yearly instalments of Rs. 8,630-5-5, including interest. The amount outstanding on that account was Rs. 2,67,992-2-9 at the end of March, 1902. Out of the amount so lent by Government, such of the debenture-holders as agreed to be repaid were paid off. There remained only one debenture-holder who did not accept repayment. The bond of this gentleman is for Rs. 22,000 at an interest of six *per centum per annum*, and on this account Rs. 2,000 is paid annually to the Sinking Fund, and Rs. 1,320 is paid

annually for interest. Thus, on this account, a sum of Rs. 10,241-12-11 has accumulated in the Sinking Fund. The following table will give an idea as to the capability of the Municipality to maintain the Water-Works in an efficient condition:—

"Income under the head of Water-Works for the year 1901-1902:—

	Rs.	A.	P.
Water-rates	22,291	1	10
Proportionate share of fines and penalties ...	130	9	1
Other sources	3,269	4	0
Total ...	25,690	14	11

"Expenditure under the same head and for the same period:—

	Rs.	A.	P.
Direct charges	24,682	3	11
Proportionate charges for collection ...	1,106	4	7
Payment of Government loan	6,349	13	11
„ of interest on Government loan ...	10,910	12	11
Deposited in the Sinking Fund for the debenture loan	2,000	0	0
Payment of interest on the debenture loan ...	1,320	0	0
Total ...	46,369	3	4

"It will thus appear that in the year 1901-1902 the total charge under the head of 'Water-Works' was Rs. 46,369-3-4, and the total income was Rs. 25,690-14-11, leaving a deficit of Rs. 20,678-4-5 which was met from the General Fund. If only the direct charges and the proportionate charges for collection, which amounted to Rs. 25,788-8-6, be taken into consideration as against the total income, even then it will be found that there was a deficit of Rs. 97-9-7. The total income of the Municipality from all sources during the year 1901-1902 was Rs. 1,32,789-3-5, while the total expenditure was Rs. 1,33,235-10-2.

"Having thus placed before Your Honour the financial position of the Municipality, I desire to say a few words about the supply of water by the Water-Works. Since the year 1899, when the river receded from the pumping station, the supply of water has been not only insufficient but irregular. For some time water was brought to the pumping station from stagnant pools in the bed of a streamlet called Jamunia through channels cut for the purpose. The water supplied was of a very inferior quality, but even this supply was sometimes altogether stopped for want of supply through the channels. An experiment was made with a percolation well, but to no purpose; the well silting up during the rains. Borings were also being made in the sand, but the water-bearing strata could not be found even at a depth of fifty feet. There is a great scarcity of water all over the town during a greater portion of the year, and the sufferings of the rate-payers are intense. The rate-payers who have house-connection pay a water rate of 7½ *per centum*, and in return get this intermittent supply of water, and even that is not of good quality. There is a strain on the resources of the Municipality and the purses of the rate-payers. Having regard to these circumstances and depending much upon what the Council knows so well that Your Honour rightly attaches great importance to water-supply for drink, I beg to approach Your Honour to devise any ways and means to remove this keenly-felt grievance of the rate-payers of the Bhagalpur town, which has an area of about 9 square miles, and give them a supply of good filtered water.

"According to the rules and regulations in force in the Sonthal Parganas, suits valued at Rs. 1,000 and upwards are triable according to the law and procedure in force in the Regulation districts. Appeals from original decrees in suits valued between Rs 1,000 and Rs. 5,000 lie to the Deputy Commissioner of the Sonthal Parganas and second appeals to the High Court of Calcutta, and appeals from original decrees in suits valued over Rs. 5,000 lie direct to the

High Court, and in suits valued at Rs. 10,000 or upwards appeals from the decrees of the High Court lie to the Privy Council. In very many cases such suits, to my personal knowledge, involve many difficult and complicated questions of law and fact which require to be dealt with by such Judicial officers as handle such cases in the Regulation districts where such officers, having served in the several grades of Munsifs and Subordinate Judges, are well grounded in the Civil Law. But in the Sonthal Parganas such important suits are placed in the hands of officers who cannot be expected, from the very nature of the stages of the service they have to go and have gone through, to be sufficiently able to handle such suits as the Subordinate Judges and the first grade Munsifs are able to do in the Regulation districts. The people of the Sonthal Parganas are no longer in the same backward state in which they had originally been. Facilities of communication with the Regulation districts and people thereof and various other considerations have contributed greatly to the advancement of the people of the Sonthal Parganas, and the civil cases in which they are now involved are no longer of the same simple nature as they were before. In the Chota Nagpur Division there is a Subordinate Judge located at Ranchi, whose duty it is to try all Subordinate Judge cases of the several districts of the Division. Following the lines of the Chota Nagpur civil administration, I take the liberty of making a suggestion that the Government may be pleased to consider the advisability of providing a Subordinate Judge for the six sub-divisions of the Sonthal Parganas.

"While I make this suggestion, I do not lose sight of the financial position of the Government. In my humble opinion the additional expenditure to be incurred in giving effect to my humble request, may not be considerable: for, if the Government be pleased to provide a permanent Subordinate Judge for the Sonthal Parganas, the Sub-divisional Officers will be relieved of their duties as Subordinate Judges, and will be able to devote their time to the trial of more criminal cases and civil cases below Rs. 1,000 than they can at present do, and the services of the second officer or the third officer in some of the sub-divisions may be dispensed with from those places and made available elsewhere in the Regulation districts.

"At page 28 of the Budget, I find that a grant has been allowed to the Veterinary Dispensary at Dumka, for which I heartily thank the Government. Cattle diseases are very common in the Sonthal Parganas, South Bhagalpur and South Monghyr, and make terrible havoc from time to time. The increased grant under the head of 'Veterinary Charges' commends itself to me, and I hope that, as funds permit, Government will be pleased to establish in the Province more veterinary dispensaries and employ more stationary and itinerant assistants.

"Looking at page 23 of the Budget, I find that provision has been made for additional establishments in the Munsifs' Courts and also for increase in the establishment of Criminal Courts. I do not know what sums have been set apart for these reforms and how the same are to be utilized.

"The grievances of the ministerial servants of Government have been the subject of frequent discussion both in Press and in this Chamber, and they evoked expressions of sympathy both from this Government and the Government of India.

"It is a stern fact that the Munsif Court Amlas are overworked and underpaid, and the sanctioned establishments are largely assisted by an unpaid and even unauthorized agency. It is, therefore, a satisfaction to find that after all some relief has been provided for them."

The Hon'ble MR. APCAR said:—"I am glad to be able to again congratulate Your Honour's Government on the financial results of the year.

"I will refer briefly to a few points which I venture to think are worth the consideration of the Government.

"First with reference to the High Court. On the last occasion, while appreciating the proposal for the appointment of an Additional Judge and increase of establishment, I ventured to suggest to the late Sir John Woodburn for his

consideration the necessity of appointing a Second Additional Judge with the necessary extra establishment when the present Budget Statement was being prepared. Your Honour was present at the Budget Debate in the Council of His Excellency the Viceroy, and I have no doubt gave your careful attention to the remarks made by Mr. Justice Rampini suggesting that a small part of the surplus of receipts over expenditure might be devoted with the view of improving the administration of justice in the Empire, more especially in the province of Bengal, where the net profits under the head of 'Courts of Law' amounted to Rs. 50,70,480.

"I will not take up the time of the Council by repeating the details of the arrears which were brought to the notice of His Excellency the Viceroy. Your Honour has, no doubt, given them your attention, and I would again ask your most careful consideration of the matter.

"With reference to the heading of 'Marine.' I note there has been a falling off in pilotage receipts in the Port of Calcutta of Rs. 1,33,000. As a Commission has been appointed to report on Pilots and Pilotage, I think it advisable to defer reference to this subject pending issue of the report.

"With reference to the Boiler Fund accummulation of Rs. 65,000. The Government was urged to make a reduction of the fees, but it was represented that as certain increase of establishment was contemplated, it was not opportune to entertain the application. Now that a year has transpired, I trust the Government will again communicate with the Chamber of Commerce.

"A subject of some discussion and correspondence with the Government during the past year has been the conduct of proceedings in the Police Courts. I understand the matter was referred to the High Court some months back, but so far we have heard nothing of what is proposed to be done to remedy the causes for complaint which have been so universal; and beyond a paragraph in the paper of yesterday that Mr. Justice Brett had been deputed to visit the Police Court, I believe nothing has been done.

"There is only one other matter to which I will refer briefly. A very able and carefully considered Note has been submitted to the Government by Mr. O. C. Lees upon the projected improvements of Waterways in Bengal. This Note deals at considerable length with the measures which in Mr. Lees' opinion are necessary and advisable. The Government submitted this Note to the Chamber of Commerce, and after careful consideration of the subject by a special Sub-Committee the Committee of the Chamber have expressed their opinion in favour of the proposals.

"To quote Mr. Lees:

'The enormous sums of money which have recently been laid out in Germany, Russia, France and America on the construction of Canals and the improvement of Waterways afford convincing evidence of the great value attached by the Governments of those countries to the possession of good water communication between important trade centres. They have recognised the fact that the resources of a country are largely developed by facilitating the transport of raw material and the heavier kinds of cheap merchandise, and that good waterways offer special facilities for such traffic, and are in fact as essential for the economical development of trade as railways.'

"These remarks I think apply specially to Bengal which possesses so many fine navigable rivers. I have no doubt Your Honour has given the matter careful consideration, and when a reference is necessary to the Government of India, that such reference will be made. The scheme is a big one, involving considerable expenditure, but the interests of the Province in my opinion justify it."

The Hon'ble MR. ELWORTHY said:—"We have again an opportunity of offering you our congratulations on the financial prosperity of Bengal. There is money in abundance, increased revenue, and money which has passed down from the previous year unspent. I believe that there is unqualified approval of the manner in which it is intended now to spend it.

"I see, Sir, that there are large grants for Education and for the Subordinate Services. During my time as a Member of this Council, I have frequently

heard, in this Chamber, appeals in the cause of Education and the improvement in the Subordinate Services: my hon'ble friend Dr. Asutosh Mukhopadhyaya and my colleagues on the non-official side will be pleased with the grants that have been and are being made in response to their appeals.

"I am not qualified to traverse the Budget now before us, and the various heads of its revenue and expenditure; there are experts in this Council who have adequately dealt with them. There are, Sir, two or three subjects on which I will make a few remarks with regard to the City of Calcutta.

"Much satisfaction will be felt with regard to the grants that have been made in aid of the Medical College. I find that five lakhs have been given to the Surgical Ward, Pathological Block, and for the accommodation for the Nurses. These are generous grants for the benefit of a Medical College, which does the two-fold duty of treating the sick and teaching Medical and Surgical science. I see, Sir, further grants for the Presidency General Hospital. It is for this Hospital I make my appeal to-day, for the new paying Ward which has so long been under discussion. It will be remembered that at the opening of this Hospital, the late Lieutenant-Governor stated his case to the public, and gave us to understand that it was solely from want of funds that this much desired addition could not be made. It was then that Sir Montague Turner expressed his belief that if Government would grant money, the public of Calcutta would respond with a generous donation. I am sorry, Sir, that no further progress has been made, either with a Government grant or a public subscription. The necessity for such a Ward has been so often expounded that I need not say anything to-day except to remind you, Sir, that it is not only for the City that the need is felt, but for all Europeans in the Province of Bengal. It is needed for all those who are engaged in the commerce, the trade, and in the industries of the country, in Bengal and in Assam, for officials and non-officials alike, to whom treatment and proper nursing are difficult to obtain, except at great expense in their own quarters and in outlying districts. That such a Ward would repay its expenditure to some extent, is possible, for in the Budget itself, in paragraph 23, it is stated the estimate under the head of 'Medical' mentions an improvement due to anticipated increase in the receipts from paying patients in hospitals.

"Now, as to subscriptions from the Calcutta public in aid of this Ward, we have been taught by past events that we must not be too hopeful. Calcutta has for some years been remarkable for its generosity; the calls have been numerous, calls that are still fresh in our memory. We need a little rest, the time has not come when we can again tax the generosity of this City. Further, there is a deeply-rooted antipathy to a subscription in aid of bricks and mortar that become the property of Government. I believe, Sir, that after a little rest Calcutta will respond to a call for funds, but rather for equipment than for building. There are certain funds from which assistance may be obtained, and there are promised donations from certain quarters regarding which the Hon'ble the Financial Secretary may perhaps be able to speak with authority; we shall be glad if this may be a convenient moment when we may be taken into his confidence.

"I now venture to ask if the Ward may be built without further delay, and that you, Sir, will not wait for help from the public, of which no immediate assurance is available. I trust that Government may forget its desire for public assistance, and on its own initiative take in hand and complete the Ward for which Calcutta and Bengal will be deeply grateful.

"I note with satisfaction the grant under the head of 'Law and Justice'; the further expenditure on the High Court. Public attention has lately been directed to the Law's delays in another tribunal, the Police Court. This matter is, I understand, under consideration, and it is not my wish to speak at any length. The complaints arise mainly from postponements by the Honorary Bench. Such postponements are often unavoidable. The Honorary Bench does very good work and there are many Magistrates who sit singly and get through a large number of cases. But the Bench of two or three Magistrates cannot, by reason of its constitution, work with such celerity. Honorary Magistrates are not all men of leisure; many of them are leading business men

and cannot afford to devote more than a certain portion of their time to the Police Court. Continued adjournment of cases are as much a source of annoyance and inconvenience to them as they are to the suitors and the public generally. But the fault does not lie entirely with them that cases are allowed to drag themselves along to such unreasonable length, as it is complained that they do.

"In many instances when a Magistrate has expressed his desire to take up a case *de die in diem*, until it is finished, he is met with the insuperable objection that no Court and no staff are available, and hence a case, which might be finished in two or three days, takes from three to six weeks to finish. Another source of delay is the mutual convenience of Members of a Bench It often happens that a day which will suit one of the two or three Magistrates will not suit the other. A day mutually convenient has to be arranged, and that day must also fit in with the arrangements of the Court. I am of opinion that the staff of the Magistrate's Court should be increased and provision made for hearing cases from day to day when occasion arises. Another Stipendiary Magistrate would help materially to keep cases up to date, and it is for a third Stipendiary that we now ask.

"Under the head of 'Marine' we are told of the falling off of the Pilotage receipts. This, I fear, Sir, we have to accept as to some extent permanent, because changes have taken place in the nature of Calcutta trade. Regular Liners from England now take in as places of call some of the Coast ports; Rangoon, Vizagapatam and Chittagong have their lines of steamers running direct to Europe. The East Coast Railway naturally alters the course of traffic and tends to lessen the trade that formerly came and went through Calcutta. Shipping firms have had to consider the means of working profitably, and there seems to be no doubt that vessels with larger carrying capacity work with better profit than smaller ones. Vessels are fewer in number, but they carry larger cargoes. The remedy appears to me to lie in re-classing pilotage rates, if any change be really necessary or desirable.

"The scheme for the improvement of the City of Calcutta has, during the last three years, been a subject of discussion in this Council Chamber. It is a scheme in which the late Lieutenant-Governor took great interest; Sir John Woodburn would have been pleased, had he been alive, to find that it is now before the public. We have not yet received more than a summary of that which is proposed, but it is sufficient to show us its possibilities. The Government of India gives 50 lakhs. We do not see any contribution from Bengal. I ask, Sir, to-day whether Bengal will not also contribute.

"In reviewing the note from the Bengal Government to the Chairman of the Corporation, we conclude that the scheme will put Calcutta in a tight corner for 20 years, and that the City will be seriously crippled to find means to carry on its current work under conditions of expansion, for expansion seems certain where prosperity and congestion exist. The surplus income will be hypothecated to the new scheme, and there will be no margin for meeting the demands of an evergrowing City. Where is the money to be found? The note from Government states, in paragraph 3, that in case there is any default made in any payment of interest due on the loans, the amount should at once be paid from the Municipal Funds, and the Corporation should then have the power to levy any special tax, to be approved by Government, to make up the deficit. That there will be a deficit and that funds will be necessary seems certain. The means for meeting it must come up for discussion sooner or later.

"It may seem somewhat premature to discuss the question at this stage, but, Sir, I do not think I am premature in asking now whether the Government of Bengal will, like the Government of India, contribute a considerable sum. If not, may we look further afield for taxation, on such commodities as jute and coal? A tax on jute has frequently been suggested as a means of raising funds for various purposes. It is a tax that may give a very large sum which would help the Municipality in this scheme, and I venture to suggest, Sir, that this tax, which appears to me to be only a matter of time, may be car-marked for the benefit of the improvement of the City of Calcutta. I do not think I am wrong in stating that a very modest sum per bale would bring in a revenue of

15 lakhs a year. Then, Sir, there is a tax on coal. This, if only at the rate of two annas per ton, should bring in a revenue of two lakhs a year. These two imposts would pay the interest and sinking fund on the money required to be raised without burdening the Municipal finances. These imposts would help to bring Calcutta up to date as a City, and they could be properly employed hereafter in keeping the city up to date. These taxes on jute and coal would make the improvement scheme a matter of small anxiety to the Corporation.

"I again, Sir, congratulate you on the Budget which has been placed before us, and on the continued prosperity of the Province under your rule."

The Hon'ble MR. GREER said:—"I desire to endorse all that has been said by the Hon'ble Mr. Elworthy as regards the need for the re-organisation of the subordinate Criminal Courts in this City. The subject must have a special interest to all who are engaged in administrative work in Calcutta.

"I observe with satisfaction a provision in the Budget for increasing the strength and efficiency of the City Police, and presume that, as a result of the labours of the Police Commission, an improvement will take place in the Provincial Police in the suburbs of Calcutta. It seems to me, however, that no change in the Police can be effective to check the growth of crime so long as the law-abiding public and the Police find their energies frustrated by incompetency and delay in the disposal of criminal cases.

"The Bench of Stipendiary Magistrates in this City is lamentably deficient in strength; it obtains no adequate assistance from Honorary Magistrates, and it compares most unfavourably with similar institutions in any city approaching it in size or importance in any civilised country. It seems to me that four Stipendiary Magistrates are necessary for the proper disposal of work, corresponding more or less to the four divisions of the town under Municipal Government. The subject, I know, is under the consideration of Government, and the result may, I feel sure, be awaited with confidence by this Council.

"As regards the so-called improvement scheme of Calcutta, personally I am unable to view it with the approval which it has received in various quarters. The scheme contemplates an increase of 1½ *per cent.* to the rates and taxes, thereby raising the Consolidated Rate to 21 *per centum*. The Corporation are now committed to the completion of the Suburban Main Drainage Scheme and the extension of the continuous water-supply system to the City, and it may be argued that a margin of at least 2 *per centum* should be reserved for the completion of these measures. Accordingly there would remain no balance from rates and taxes to meet unforeseen demands. At present the Corporation receives on an average over Rs. 80,000 a year as a yearly increment from the growth of the City. To meet the needs of this growth, the Corporation are obliged to provide additional roads, drainage, conservancy, lighting and other municipal conveniences. The scheme contemplates the entire withdrawal of this increment of Rs. 80,000 a year and practically closes the door against further improvements from this source or the proper discharge by the Corporation of their duties to the rate-payers who provide the increased income from rates. In my opinion the case of the growing suburbs is at least equal in importance to the treatment of the existing city, and the work of the Corporation will be condemned, and deservedly so, by future generations if they neglect this duty.

"The imposition of an additional 1½ *per centum* on the rate-payers will form the subject for future discussion; personally I am in favour of finding other ways and means, and trust that the interests of the landowners and occupiers in Calcutta will receive more consideration in the finally-adopted scheme. The withdrawal of the annual increment from the funds of the Corporation, however, will, I fear, prove injurious to Municipal Administration, unless there be an increase to the rates and taxes, which the inhabitants cannot easily bear. A cardinal point in the scheme is the sale of surplus land at a high price, based on the experience of similar operations on Harrison Road. I fear

the anticipations will not be realized, that men and capital do not exist for operations on the scale contemplated over 15 miles, and that recoveries from sales will prove less satisfactory.

"According to the views of many the improvement of Calcutta on the scale proposed is an Imperial rather than a Provincial question, and though a Provincial grant would be gratefully accepted, there is a general opinion that the Budget of the Imperial Government in future years might fairly show a substantial allotment for the purpose, exceeding the amount which the present scheme sets forth as the gift of Government.

"The interests of the trade of Calcutta have been referred to as one of the main causes for the movement for the general improvement of the thoroughfares of the town. It appears to be reasonable to look beyond the means of the rate-payers for the necessary funds, especially as they are not solely responsible for the present state of affairs, and are now required to meet rapidly-increasing demands on account of the city as it stands and its growing suburbs.

"I join with the Hon'ble Mr. Elworthy in the hope that the imposition of a tax on jute may be carried out. For some years to come there is little danger of a cessation of the monopoly in jute which Bengal now enjoys: the tax would fall on the consumers of jute and produce little or no effect on the people of this country. I shall not refer to the proposed taxes on petroleum and coal. The various suggestions on the subject, no doubt, will receive careful consideration. I am only anxious that the interests of the Corporation and of the rate-payers should be kept in view whenever the scheme comes under the notice of those responsible for the government of the country, and that is my excuse for occupying the time of the Council to-day."

The Hon'ble MR. INGLIS said:—"With your permission, Sir, I will offer brief explanations on some points which have been noticed by Hon'ble Members with respect to Departments, with the control of which I am associated.

"The Hon'ble Mr. Elworthy has drawn attention to the lessened receipts from Pilotage and has suggested a re-classification of the rates of the charge. I may say that, as observed by the Hon'ble Mr. Apcar, the whole question of the pilotage rates in the Calcutta Port, of the share of these rates which the Pilots draw as their earnings, as also the Act and Rules under which the discipline of the Pilot Service is maintained, has, at the request of the Government of India, been referred to a Committee on which the Chamber of Commerce and the Port Commissioners are represented.

"The Hon'ble Maharaja Manindra Chandra Nandy has expressed his pleasure at the prospect of the clearance of the channel of the Bhagirathi by means of dredging. I should perhaps explain that the sum of Rs. 5,00,000 which has been provided in the Budget, is to be expended not directly in such dredging, but as a part payment for a large dredger of the most recent design, for the construction of which we are in correspondence with the India Office. The total cost of the dredger by the time it is erected and ready for use is not likely to be less than nine lakhs, and it will necessarily take some time to build. When we have got this dredger we hope to be able to improve the channel of the Bhagirathi as a means of communication with the upper Ganges, while it is also much wanted for various schemes of improvement of the channels which connect Calcutta with Eastern Bengal and Assam.

"The Hon'ble Babu Joy Gobind Law has mentioned the proposed Canal from Dhapa to Bamunghatta, and has asked whether the effect of this will be to exclude salt water from the lakes. I may reply that such was the intention as it was hoped that the exclusion of the salt-water would have allowed of the low land being cultivated with rice, while the drainage of the country near Dum-Dum would have been facilitated. It appears, however, that the interests of the fisheries in the Salt Lakes which would be affected, are so valuable that it is necessary to reconsider the position, and it is not now probable that there will be any interference with the flow of the tides.

"The Hon'ble Member has also alluded to the silted state of Tolly's Nullah. In connection with this and with the remarks made by the Hon'ble Mr. Apcar, I should like to mention that we have under consideration a project for a large

Canal to connect the Hooghly with the Mutla, utilising as far as possible Tolly's Nullah, and thence by channels partly natural and partly artificial *vid* Khulna, and across the Madaripore Bhil to the Pudda, and so to give a shorter and safer route for the large trade which now comes and goes by means of the channels in the Sunderbans. If this scheme should be carried out, locks would be built and the silting of Tolly's Nullah which is caused by the meeting of the tides, would cease. The project is one which will involve a large expenditure much beyond the resources of this Government, and it is too early yet to say if it is likely to receive the approval of the Government of India. I wish, however, to say that the importance of developing the navigable channels of Bengal is fully recognised."

The Hon'ble MR. EARLE said:—"I rise to reply to certain observations which have been made in regard to the working of Departments under my control. The first is with reference to the remarks of the Hon'ble Babu Joy Gobind Law. The Hon'ble Member has noticed that there is a provision of Rs. 6,000 for commercial classes in training colleges, and one of Rs. 4,500 for scholarships for Industrial students sent to Europe, and he says that it would be of interest to learn some further particulars about the grants and in what manner they are to be utilised. In the case of the scholarships, he says that it would perhaps be of importance to provide that the education and training of the students should be confined to matters which would be of immediate use to them when they return.

"Regarding the first point, I may say that the sum of Rs. 6,000 has been set apart for providing extra staff, etc., at the Victoria Training College, Kurseong, for the purpose of teaching commercial subjects; the training occupying two years after the passing of the Middle School examination. Before, however, the scheme is further considered, Government has deemed it desirable to inquire what demand there will be among parents for this class of instruction. This inquiry is now being made by the Principal of the Victoria Training College.

"As to the second point, Rs. 4,500 have been provided for scholarships for students who will be sent to Europe with the object of studying industrial subjects, and a scheme has been prepared for the purpose. Pending, however, the publication of the report of the Committee on Industrial Education and the orders of the Government of India on it, the scheme has been kept in abeyance. The question will be further considered when the views of the Government of India are received.

"The Hon'ble Babu Chaturbhooj Sahay has asked for an explanation of the estimated decrease in Land Revenue for the years 1903-1904, as shown in the Budget, page 13, Appendix A, under head 'Land Revenue.' The estimated decrease under this head for 1903-1904 is explained by the figures shown in Appendix A, page 13, of the Financial Statement referred to by the Hon'ble Member, and in paragraph 7, pages 3 and 4, of the same Statement. It will be seen that during the current year Rs. 1,80,000 only will, it is intended, be recovered on account of Survey and Settlement charges in Bihar, against Rs. 3,30,000 provided for in the revised estimate for 1902-1903 and Rs. 4,24,060, the actuals of 1901-02.

"The Hon'ble Babu Chaturbhooj Sahay also asked for an explanation of an item of Rs. 1,50,000 for recoveries on account of the Bihar survey and settlement charges, and he wishes to know if the arrears are recoverable from the proprietors or raiyats, or from both, and if from both, in what proportion from each. My answer to that is that, under the orders of the Secretary of State, one-fourth of the total cost of the survey and record-of-rights in North Bihar is borne by Government. The remaining three-fourths are recovered from landlords and occupiers in the proportions of seven-sixteenths and five-sixteenths, respectively. The sum of Rs. 1,80,000 is the Settlement Officer's estimate of the recoveries to be made from landlords and occupiers taken together during the current year in the districts of Darbhanga and North Monghyr. Of this sum, Rs. 20,000 will be recovered in the district of Darbhanga, and Rs. 1,60,000 in North Monghyr. The recoveries will be in the proportions referred to.

"The Hon'ble Maharaja Manindra Chandra Nandy, of Cossimbazar, has noticed that under 'Education' the Financial Secretary has estimated for an apparent failure to expend Rs. 12,28,000. If the Hon'ble Member had read a little further, he would have noticed that under 'Education' the anticipated savings were only Rs. 5,20,000.

"The Hon'ble Dr. Asutosh Mukhopadhyaya also referred to the same subject, and I very much regret that he was not able to send me notice of the various points which he has raised in his speech. The chief one will be covered by the explanation I am about to give in regard to the Hon'ble Babu Joy Gobind Law's remarks, while the other matters the Government will take into consideration later on.

"In regard to this sum of Rs. 5,20,000, which is supposed to have lapsed, it will be observed that the Financial Secretary says that the total actual savings will amount to Rs. 5,20,000. This means that, according to the revised estimates, such savings may be expected. In fact, however, we do not expect a saving of more than Rs. 96,000. That saving is inevitable owing to various administrative reasons.

"The remaining questions were raised by the Hon'ble Rai Tarini Pershad, Bahadur. His first question was concerning 'Agricultural Banks.' He says that in the Budget for 1902-1903 under the head 'Land Records and Agriculture,' there was an allotment of Rs. 15,000 for the establishment of Agricultural Banks, and that in the present Budget there is no specific allotment for this purpose. He inquires whether any Agricultural Banks were established, as provided in the Budget for 1902-1903, and whether the estimate under the head of 'Land Records and Agriculture' in the present Budget includes any provision for Agricultural Banks. He also suggests the desirability of establishing more experimental farms and also of holding Agricultural Exhibitions. In answer to a question put by the Hon'ble Babu Chaturbhooj Sahay, the Council were informed, on the 21st March last, that the provision of Rs. 15,000 in the Budget for 1902-1903 was intended to meet the pay and allowances, and costs of establishment, of an officer, whom it was thought that it might be desirable to depute during the year for the purpose of inspecting and reporting on Agricultural Banks, and that it had no reference to the cost of establishing such Banks. The grant for the management and improvement of Government Estates in the Land Revenue Budget for 1903-1904 includes Rs. 15,000 for expenditure in connection with the opening of Agricultural Banks and grain golas in Government Estates.

"In answer to the question referred to above, it was stated that 48 Agricultural Banks had been opened up to date, of which 20 are in Government Estates, 16 in Wards' Estates and 12 in private Estates.

"As regards the establishment of Experimental Farms, there are at present two research farms, viz., those at Burdwan and Dumraon, and one demonstration farm, viz., that at Chittagong. It is not at present proposed to add to the number of the former because the work done on them requires expert supervision, which it is difficult to obtain, and the question of providing more demonstration farms is one of more immediate consequence. That question is now under the consideration of the Government.

"With regard to Agricultural Exhibitions and Fairs, the annual grant has been raised from Rs. 2,000 in 1901-1902 to Rs. 3,000 in 1902-1903, while a provision of Rs. 8,000 has been made under this head in the current year's Budget. In addition to this the Government of India has sanctioned an annual grant for three years, from 1st October, 1901, of Rs. 2,600 for the award of prizes, with a view to the improvement of cattle-breeding. This subject is, therefore, it will be seen, receiving attention.

"The second point upon which the Hon'ble Member required information was in connection with Education in Bhagalpur. He said that the Bhagalpur Division should get its fair share of the grant allotted for Primary Education. He also furnished a statement showing the percentage of pupils to population of school-going age in the different divisions, and added that there is no technical schools, or any technical side of the zilla school in the Bhagalpur Division.

I understood him. I may say that we provide for an increase in certain places not a general increase. There is also included a lump sum of Rs. 10,000 for temporary establishments in cases where they are required. If conditions exist such as the Hon'ble Member has referred to, and there are places where muharrirs are working till late at night and are taking assistance from the outside public, it will be the duty of the Munsif in such a case to ask for assistance, and the Government will always be willing to give it if a case is made out.

"The Hon'ble Rai Tarini Pershad, Bahadur, also referred to the question of the Bhagalpur Water-Works, but I am inclined to think that what he has told us, although it was very interesting, would perhaps have been more properly uttered in the Council Chamber of the Bhagalpur Municipality. The position of District Boards and Municipalities is of course well known: they are independent institutions: they have definite functions and a definite law. It is the object of the Government to interfere as little as possible with the management of their affairs, and the Hon'ble Member would possibly be one of the first to resent such interference. In regard to the Bhagalpur Water-Works, at present we have had no notice from the constituted authorities of the Bhagalpur Municipality that they are in need of any assistance from Government. The Hon'ble Member described how these Water-Works were constructed, but I think he omitted to state that a sum of Rs. 80,000 was contributed by the Government as a part of the expenses. It is true that the scheme, so far as I can gather from the papers that I have read, was not a very good one. There were defects, and since the scheme was completed, the river has receded, and there has been still further trouble. The Government was always willing to assist the Municipality, and a few years ago they gave a sum of Rs. 10,000 to improve the intake of the waters This Rs. 10,000 was not required, and was eventually refunded. I can only repeat that if there is any necessity for assistance from the Government, Government will be ready to consider the matter. I may mention in connection with this that we have recently had an application of a somewhat similar nature from Berhampore. In that case it appeared that the Water-Works had got out of order from causes that were accidental, and in order to help the people, Government gave a grant of Rs. 5,000.

"The Hon'ble Mr. Elworthy has raised the question of the Paying Patients' Block in the Presidency General Hospital. The Government can only join with him in regretting that the subject has so far made little progress. Government recognises that the present building is not suitable; the rooms are dark and badly ventilated, and not well arranged, and there is no doubt that if a better block were provided, it would be a great benefit. But it has always been held by this Government that the provision of this block should not be made solely from Government funds. The question was raised at the time of Sir Alexander Mackenzie, and it is not necessary for me to repeat all that he said on the subject; but he concluded by saying that unless the European community were prepared to accept a scale of charges bearing a reasonable relation to the working expenses, and also to raise by subscription a substantial proportion of the cost of providing the separate block which is proposed, it would not be possible for the Government to assign Provincial funds for this work. The question was again considered in Sir John Woodburn's time, and the same opinion was again expressed, so that it is difficult for the present Government to recede from the position hitherto taken up and to adopt the Hon'ble Mr. Elworthy's proposals. But I can assure him that we are in full sympathy with the wish that has been expressed that there should be a better Paying Patients' Block provided. We are prepared to provide at least two-thirds of the cost from the balance of the Hospital Port Dues Fund, which may be credited to the Provincial Revenues. It only remains for the European community to raise or give a promise of the balance which will be about Rs. 1,00,000. We have already received a promise of Rs. 37,000, but for the rest we hope that the Hon'ble Mr. Elworthy and his friends will be able to

give some definite assurance so that the work may be put in hand as soon as possible.

"The Hon'ble Mr. Elworthy has also referred to the question of the Calcutta Improvement Scheme, and the Hon'ble Mr. Greer has given us his views on this subject. I cannot, unfortunately, follow the Hon'ble Mr. Greer in his criticism of the scheme, because the question has now been put in a form in which it will issue to the Corporation, the Chamber of Commerce and the Trades' Association, who are to be consulted on the subject, and it is not possible for Government to give any opinion on the scheme until these bodies have given their views. The Hon'ble Mr. Elworthy has asked whether it is intended that there should be any contribution from the Local Government. I would say that this appears to show a wrong impression of the functions of Government. The Rs. 50,00,000 which is to be given by the Imperial Government is not given by the Government, but by the tax-payers; but if there is a sum to be given by the tax-payers, it matters little whether it is given by the Imperial or Provincial Government. The Provincial Government, moreover, is bound by its contract. It has a certain amount assigned to it at the commencement of the contract to provide for its estimated expenditure: it cannot undertake the responsibility of any fixed or definite charges above that. If it occasionally gets surplus balances it may be in a position to assist local bodies, but no definite undertaking can be given to do so. I would mention that the Calcutta Corporation has been very fortunate in the matter of the contributions it has received. It has received four and a half lakhs to help in the Plague expenditure, and other sums in recent years amounting to a lakh of rupees. Government has also supplied practically all the Hospital expenditure. It is not, however, possible under the present system of Provincial Finances, that in regard to such a large scheme as the Calcutta Improvement Scheme, projected over a number of years, the Provincial Government, as apart from the Imperial Government, could accept any definite responsibility. With regard to the proposal to impose a tax on jute and coal, I have no doubt that the Hon'ble Mr. Elworthy will have a proper opportunity of representing his views in proper quarters. If they are favourably considered, due consideration will be given to the suggestion by Government.

"With regard to what the Hon'ble Mr. Greer said, it is hoped that this scheme will not put an end to, or restrict the expenditure on, the improvement of the Suburbs and the works which are to be carried out there. The amount to be contributed by the Corporation ought not, if their funds go on increasing, as they are increasing, place such a burden upon the Corporation that it will be unable to go on with its ordinary expenditure.

"I think I have answered all the points which have been referred to in the course of the debate, and I will conclude by congratulating Your Honour upon the favourable state of the Finances of the Province and upon the reception which this Budget has received."

The Hon'ble the PRESIDENT said:—"The debate which we have heard to day, and which it is now my duty to close, will not, I think, yield in interest or importance to any of the ten which have preceded it since this Council first undertook the discussion of the Provincial Budget. It has been marked by two distinct features. The first is the universal spirit of good-will which has pervaded the criticisms which have been levelled at the Budget itself. There was a time when this was not so, when the proposals of Government and their intentions were fiercely attacked, and when motives, not always the best, were ascribed to the Government and its officers. It may be that the reason for the change is that in those days we were hard-pressed for money, and when we were not able to carry out all that we wished to do, many hungry suitors were turned away disappointed. Now this is all changed, and during the last three years we have had Prosperity Budgets, and we have been able to do a great deal for the Province. When

a ship is sailing over summer-seas, with a favourable breeze and flowing sails, the crew are comfortable, and are not disposed to doubt the capacity or question the intentions of the captain and officers. Another reason, I think, is that owing largely to the consistent policy of the late Lieutenant-Governor to take the public into his confidence and to let them see the single-eyed desire of the Government to do all that was best for the Province, a good deal of doubt and suspicion have passed away, and the public and the Members of this Council are more ready to receive our measures and proposals with a larger share of sympathy and attention than they did before. Another matter which has distinguished this debate is the extreme importance of many of the questions brought before us. Not only have we discussed three matters of great moment to Calcutta, which have arisen not exactly as matters of finance, but there have been such large questions as reform of the Police, reform of the Educational Department, development of Agriculture, development of the great waterways of the Province, and improvement of the status of various departments of the State. All these have been dealt with by the Hon'ble Members in charge of the several departments concerned, and very little remains to be said by me in regard to them. They have also dealt with the three important matters which chiefly concern Calcutta, but upon those I should like to say a few words myself in addition to what has already been said.

"As regards the Presidency Magistrates, this matter is one that has had my personal attention for some time. But it is far easier to point out the disease than to devise a remedy, and in a matter of this sort the first thing to be done is to get at the real facts. The Government has for some time been collecting facts, and it is hoped that before long the information before us will be complete. As soon as that is done, I can assure the Council the alterations and reforms which seem to be urgently needed will be taken up and carried through, I hope, to a successful termination.

"As to the Improvement Scheme which has occupied the attention of the public during the last five years, it is impossible for me to make any pronouncement at the present moment: as you have been told, a letter is now under issue addressed to the Corporation of Calcutta, the Chamber of Commerce, and the Trades' Association, and some other public bodies, in which the past history and present state of the question are fully set forth Their opinion is being asked on the whole scheme as it now stands, and when that information is received, the Government of Bengal will forward it, with their own remarks and suggestions, to the Government of India. Till that has been done and till our views have been forwarded, I am not able to make any announcement as to what will be the policy of Government in this matter.

"Lastly, there is the question of the block for paying patients at the General Hospital which the Hon'ble Mr. Elworthy and other Members have referred to. With the Financial Secretary, I regret that I cannot accept the recommendation to let bygones be bygones and go back on the policy of my predecessors. It has long ago been held that the provision of a block for paying patients seems rather a matter for the contributions of the public than for a grant from Government, and that Government should not be called upon to provide all the funds for that purpose. At the same time it has always been admitted that the Government is always ready to come forward and supplement the subscriptions which may be made by the public. I hope that even if funds are not available now they will be available towards the end of the year, when Calcutta and the public will find that Government will gladly come forward and subscribe their quota to this much-needed reform.

"The Financial Secretary has given us a short sketch of the many schemes for the improvement of the Province that were inaugurated during the Government of Sir John Woodburn, and which were made possible by the growth of prosperity during the last three years. Some of these have already been carried out, others still remain; but the Council may rest assured that the Government

is keenly alive to the wants of this great Province, and that it will do its best to expend to the best advantage the funds which will be at its disposal during the year we have just entered upon.

"I have now only to declare the business of this assembly closed for this session, and to adjourn the Council *sine die*."

The Council was adjourned *sine die*.

LIBERALITY OF BABU HARENDRA LAL RAI, OF BHAGYAKUL.

No. 283T.M., dated Darjeeling, the 30th April 1903.

From—L. P. SHIRRES, Esq., Offg. Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Dacca Division.

I AM directed to acknowledge the receipt of your endorsement No. 16G., dated the 4th April 1903, forwarding a copy of a letter from the Magistrate of Dacca, in which he reports that Babu Harendra Lal Rai, of Bhagyakul, has given a donation of Rs. 24,000 for an outdoor dispensary in connection with the Mitford Hospital at Dacca, and also mentions the fact that in July 1898 the same gentleman gave a donation of Rs. 4,000 in aid of the same hospital, and has displayed a liberal spirit on many other occasions.

2. In reply, I am to say that the Lieutenant-Governor has much pleasure in acknowledging the munificent gift now made by Babu Harendra Lal Rai to the Mitford Hospital, and desires that an expression of his thanks may be conveyed to the donor for this and the other instances of liberality displayed by him. I am to request that the plans and estimates for the new outdoor dispensary may be submitted for the approval of Government.

3. This letter will be published in the *Calcutta Gazette*.

Ranchi.—Rainfall at Sadar nil. Weather hot. Lands are being ploughed and manured for the ensuing crops. *Tewa dhan* doing well. Cattle-disease reported from Ranchi, Silli and Lohardaga thanas. Fodder and water sufficient. Common rice sells at 13½ seers per rupee at Sadar.

Palamau.—Rainfall nil. Weather seasonable. Sugarcane and *tewa dhan* still doing well. Cattle-disease continues. Fodder and water sufficient. Prices at Sadar—rice 13½ seers and maize 25 seers 5 chitaks per rupee.

Manbhum.—Rainfall nil. Weather seasonable. Prospects of crops good Fodder and water sufficient. Cattle-disease not reported. Average price of common rice at Sadar 13 seers 8 chitaks and Gobindpur 12 seers per rupee.

Singhbhum.—Rainfall nil. Lands being prepared for cultivation. Common rice sells at 13 seers per rupee at Chaibassa.

General Summary.—Rain is reported from Midnapore, Hooghly, Mymensingh and Faridpur, the rainfall in the first two districts being scanty. Threshing of *rabi* and planting of sugarcane continue. Ploughing and sowing going on, but several districts are in need of rain for carrying on agricultural operations. Prospects not favourable for want of rain. Cattle-disease reported from 14 districts. Fodder sufficient except in parts of Midnapore. Scarcity of water reported from Burdwan, Midnapore, Murshidabad, Rajshahi, Noakhali and the Santhal Parganas. The price of common rice has risen in ten districts, fallen in four, and is stationary in the rest.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall is daily recorded from 8 A.M. to 8 A.M.

(a) Ajodhya *mela* traffic fell in this week in 1902. It occurred this year in week ending 11th April.
(b) The corresponding half-year's traffic was overstated by some Rs. 3,000 per week owing to the new link agreement not being fully worked to and the link proportion having been finally adjusted at end of half-year instead of weekly as in current period.
(c) Sundries reduced owing to abolition of Turtipar Ferry, reduction at Ajodhya owing to *mela* falling in different week.
(d) Includes 2,908 miles of ballast trains run on open line.
(e) ,, audited figures up to week ending 7th March 1903.

Offg. Secy. to the Govt. of Bengal.

Circular No. 5-F.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

FORESTS.

Dated Simla, the 20th April 1903.

REGULATIONS FOR THE FOREST SERVICE BRANCH OF THE ROYAL INDIAN ENGINEERING COLLEGE, COOPER'S HILL, FOR 1903.

(Postal and Telegraph address, Englefield Green. Railway Station, Egham, L. and S. W. Railway.)

[*The arrangements hereinafter described are subject to revision under the orders of the Secretary of State for India.*]

1. The examination for admission to the Indian Forest Service through the Royal Indian Engineering College, which will be conducted by the Civil Service Commissioners, will be simultaneous with, and in the same subjects and papers as, the examination for the Indian Police Department* (which is usually held in June), except that for the Forest Department "German" is obligatory, and Botany is added to the Class I subjects and "Chemistry and Heat" are included in Class I instead of Class II.

Candidates may undergo the written part of their examination in London, Edinburgh or Dublin, or at any of the provincial centres at which the simultaneous examination of candidates for admission to the Royal Military College, Sandhurst, is to be held. A list of the probable centres may be obtained from the Civil Service Commissioners at any time after January 1903. The oral and practical parts of the examination will be held in London only.

A fee of £2 is required from candidates examined in London, but when the written examination is conducted elsewhere than in London the fee is £3. Candidates examined at a college or school will probably be required to pay a local fee in addition to the fee of £3 (in order to defray the expenses of superintendence), as to which they should obtain early information from the College or School authorities. The fee payable to the Civil Service Commissioners must be paid by means of stamps of the specified amount. Instructions on this point will be issued to candidates about ten days before the examination.

2. The number of candidates to be selected annually varies according to the requirements of the Forest Service in India; the figures as regards each particular year will be advertised from time to time. *In 1903 there will be seven appointments offered for competition.*

3. Candidates for the Indian Forest Department are selected under the following arrangements:—

(1) An applicant must be a natural-born British subject, and must be above 17 and under 20 years of age† on the 1st June of the year in which he competes for an appointment. He must be unmarried, and if he marries before reaching India, he will forfeit his appointment.

(2) An applicant must send‡ to the Judicial and Public Department of the India Office, on or before the 1st day of May of the year in which he proposes to compete—

(*a*) His name, parentage and home address, a certificate or other satisfactory evidence of the date of his birth, and the written consent of parent or guardian that his name should be recorded as a candidate.

(*b*) If his parent or guardian resides abroad, he must furnish an undertaking, signed by a representative of such parent or guardian in this country, who, in the event of the candidate's admission to the Royal Indian

* Candidates may, if qualified, enter for both the Police and the Forest Departments. Only one fee in such case need be paid.

† The limit of age prescribed for candidates for admission to the Indian Police and Forest Services, by competitive examination in this country is extended in the case of those who have performed military service in South Africa by the period of such service not exceeding eighteen months. Candidates who become eligible under this concession must furnish an official certificate of the length and nature of their service.

‡ There is no form of application; the documents specified in paragraph 3 (*2*), clauses (*a*) and (*b*), should be enclosed in a covering letter addressed to the Secretary, Judicial and Public Department, India Office, London.

Engineering College, will be responsible that the College bills and fees are punctually paid, will receive and act on all reports sent from the College, and will see that the health certificates are duly forwarded to the College at the end of each vacation.

(c) A statement of the places of education at which he may have been, accompanied by testimonials of good conduct, during the last four years.

(3) Applicants will have to appear before a Medical Board* at the India Office, particular stress being laid upon good vision† and hearing. A physical test will also be imposed, so as to ensure the selection of persons of active habits and powers of endurance.

(4) Applicants who have passed the medical examination and the physical test will be permitted to undergo an examination before the Civil Service Commissioners in the following subjects‡ (Classes I and II), marks being assigned as follows:—

CLASS I.§

	Marks
Mathematics, I (including Arithmetic)	3,000
German‖ (300 for colloquial)	2,000
Botany	2,000
Chemistry and Heat	2,000
English Composition	1,000
Geometrical Drawing	500
Freehand Drawing	500
Geography	500

CLASS II.

Mathematics, II	2,000
Latin	2,000
French	2,000
Greek	2,000
English History	2,000
Physics	2,000
Physiography and Geology	2,000

Candidates must obtain such an aggregate of marks in the examination as a whole as may indicate in the judgment of the Civil Service Commissioners a competent amount of general proficiency.

(5) The Secretary of State will nominate as probationers such competitors as attain the highest aggregate of marks (provided they obtain the aggregate referred to above and satisfy the requisite conditions in other respects). These probationers will then enter the College, where they will be further trained for the Forest Service in India.

(6) If the full number of competent probationers required in any year cannot be obtained from the persons so examined, the Secretary of State reserves a discretion to fill up the deficiency by selecting any other person or persons whom, after consulting the authorities of the College, he may consider properly qualified to become probationers for the Forest Service.

4. The course of study for candidates for the Indian Forest Service extends over about three years. For six terms the candidates will prosecute their studies at the College, and during the period of foreign study, which will occupy the remainder of the course, they will visit under suitable supervision such Continental forests as may be selected for the purpose. Excursions may also be made for purposes of instruction, both during term time and during part of the vacations.

* It is suggested that a candidate before commencing any special course of study should undergo a thorough medical examination. By such an examination any *serious* physical disqualification would probably be revealed, and the candidate might thus be spared the expense and waste of time involved in a course of preparation for a service for which he is physically unfit.

Candidates for the Forest Service may, if they wish it, undergo a preliminary examination by the Medical Board at the India Office, not more than two years before they are qualified to compete, under the following conditions:—

(a) Applications must be addressed to the Under-Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas and by a statement of the candidate's age.

(b) Candidates must pay their travelling expenses.

(c) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves, for a final medical examination by the Medical Board, shortly before the literary examination at which they wish to compete.

(d) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

† On the subject of the standard of eyesight required for the Indian services, a pamphlet can be obtained on application to the Secretary, Judicial and Public Department, India Office.

‡ Reprints of the papers set at previous examinations, together with tables of the marks assigned to the candidates, are published by the Civil Service Commissioners, and can be obtained through any bookseller from the following Agents:—EYRE & SPOTTISWOODE, East Harding Street, Fleet Street, London, E. C.; OLIVER & BOYD, Edinburgh; and E. PONSONBY, 116, Grafton Street, Dublin. The price is one shilling.

§ All the subjects of Class I may be taken up. Only two of the subjects of Class II may be taken up.

‖ Candidates must qualify in German.

5. Each annual session begins in September, and is divided into three terms, with vacations of about four weeks at Christmas, two weeks at Easter,* and eight weeks in the summer.

6. A charge of £61 is made for each of the six terms spent at the College; for the period of foreign study the charge is £70 for each of the three terms. The amounts must be paid terminally in advance to the Bank of England. Receivable orders, with full directions as to the mode of payment, will be forwarded from the India Office to the parents or guardians shortly before the fees fall due. A student will not be allowed to come into residence or to start for or continue his study of foreign forests until his fee for the term has been paid.

7. A deposit of £5 is required to be paid by each student on admission to the College as caution money, to cover charges incurred by him for damage to books, instruments, etc., or any College bills outstanding on leaving the College. Any balance over and above such charges will be repaid. This deposit is to be paid with the fee for the first term, making the total payment on that occasion £66.

8. The foregoing payments cover all charges for tuition, board according to the College tariff, lodging with washing up to a cost of 2*s.* a week, and ordinary medical attendance while in residence at the College. When students are on tour, and during the course of practical instruction, whether in Great Britain or on the Continent, the Secretary of State will defray the expenses of (1) board, lodging, and washing (the aggregate maximum expenditure under these heads being 10*s.* per diem); (2) travelling expenses; and (3) fees to local Forest officers, etc.

Students are required to provide their own class-books and drawing instruments. Drawing paper, drawing boards, and surveying instruments are provided by the College.

9. The prescribed course of study comprises the following subjects:—

I.—Auxiliary Subjects.

1. Geometrical Drawing.
2. Freehand Drawing.
3. Surveying.
4. Forest Engineering.
5. Accounts.
6. German.
7. Physics.
8. Chemistry.
9. Geology and Mineralogy.
10. Entomology.
11. Botany.
12. Drill and Gymnastics.

II.—Forestry, Theoretical and Practical, in all its branches.

10. Every student is required to conform to the College rules, to exhibit due diligence in his studies throughout the course, and to give evidence of satisfactory progress in such manner as may be required, failing which or in the event of serious misconduct, he will be liable to be removed from the College, or to be sent back from the foreign study, which may entail the loss of his appointment.

11. During the course of study the proficiency of the students is tested by periodical examinations, and on the termination of their studies there is a final examination. Each student may also, at the discretion of the Secretary of State for India, be required from time to time to appear before the Medical Board, and should the result be unsatisfactory, he cannot claim to be allowed to complete the course.

12. The subjects enumerated in paragraph 9 are grouped in certain main branches of study,† and a fixed minimum of qualification is required—(1) in each separate subject taught at the College and during forest tours; (2) in each separate branch; and (3) in all branches taken together. Students who obtain these minima will receive the College diploma in Forestry.

13. Candidates who have obtained this diploma and are found to be of sound constitution and free from physical defects which would render them unsuitable for employment in the Forest Department (the final decision on which points will rest with the Secretary of State for India) will be appointed Assistant Conservators in the Forest Department of India in the order of their standing at the end of the final examination. They will be allowed before leaving the College to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India after consulting the President of the College. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

14. Within a month of his nomination as Assistant Conservator, each nominee must sign articles of agreement describing the terms and conditions of his appointment. He must embark for India when required to do so by the Secretary of State, and will be provided with a free passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

15. The pay of an Assistant Conservator of Forests will begin from the date of reporting arrival in India. Probationers who acquit themselves creditably during their course at Cooper's Hill College will begin on a salary of Rs. 350 a month. It will, however, rest with

* While in actual residence at the College. During the third year, spent in study on the Continent, only one week is allowed at Easter.

† For details see *Royal Indian Engineering College Calendar.*

the President of the College to decide whether any of the probationers, though they have obtained the College diploma in Forestry, have failed to deserve that rate of initial salary. Such probationers, if any, will begin on a salary of Rs. 250 a month; and this difference of salary will continue until the first departmental examination is passed in India. Officers entering the Forest Service will be required to contribute a subscription ranging from a compulsory minimum of 5 per cent. up to a voluntary maximum of 10 per cent. of their salary to the Forest Officers' Provident Fund. Such contributions, with compound interest, will accumulate till the date of retirement, when the total sum will be paid to the contributor, or, in the event of death before retirement, to his legal representative.

16. Promotion, leave, and pension will be governed by the regulations laid down by the Government of India and made applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. The pension rules applicable to Public Works and Telegraph officers appointed from Cooper's Hill College have been extended to Forest officers appointed from England; and the Inspector-General of Forests and Conservators of the 1st grade are now eligible for the extra pension of Rs. 1,000 per annum admissible to an officer after at least three years of approved service as a head of a department in any province, if considered deserving of the special concession. A copy of the regulations relative to these matters can be seen on application either at the Library or the Record Department of the India Office. The principal rules are contained in the Abstract of the Civil Service Regulations, as given in the "India List and India Office List," published by Messrs. Harrison and Sons, 59, Pall Mall, London, which can be procured through any bookseller.

17. Every candidate, before proceeding to India, is required to furnish to the President of the College satisfactory evidence of his competency in riding. It is desirable that this evidence should be forthcoming before the candidate proceeds to the Continent for his final year of study.

GENERAL RULES.

18. Chemical, physical, and botanical laboratories, a forestry museum, a forest nursery, a library, and gymnasium are attached to the College. Means are also provided for the practice of photography. Students making use of the laboratories are supplied with the needful apparatus.

19. Each student residing in the College is provided with a separate room, and with fuel and light, also with the necessary attendance. Furniture and bedding are supplied by the College, but students are required to provide their own towels and bed linen. Meals are taken in Hall. Wine and beer are not included in the ordinary fare, but can be obtained from the College cellar at fixed prices.

STUDENTS NOT NOMINATED FOR THE INDIAN FOREST SERVICE.

20. Students not nominated for the Indian Forest Service may be received into the College, as far as the available accommodation permits. Such students may pass through the course of instruction prescribed for the nominees of the Indian Forest Service, as detailed above, or they may be permitted to participate in the instruction given in certain subjects only. On attaining the prescribed minima of marks in the several subjects of study and in totals as laid down above, they will receive, as the case may require, either the College diploma in Forestry or special certificates showing in what subjects they have followed the instruction, and with what result. No student who was not under the age of 20 on the 1st June in the year in which he entered the College will be permitted to compete for any scholarship or prize.

21. Candidates who desire to be admitted under paragraph 20 may submit the necessary application at any time, but not later than the 15th day of June of the year named for admission, except with the special permission of the President. The application must be made on the prescribed form, which can be obtained from the Secretary of the College.

22. Candidates whose applications are found satisfactory as to character and in other respects will be required to give satisfactory proof that they are qualified to follow the course of instruction with advantage (or certain parts of it, as the case may be). Candidates who fail in this will not be admitted to the College.

23. Candidates admitted to the College under paragraph 20, who propose to pass through the full prescribed course of study, will be required to pay the same fees in every respect as those paid by the nominees for the Indian Forest Service. Candidates who do not become resident, and are admitted only to certain subjects of study, will be required to pay the fees which may be fixed in each special case in consideration of the extent of their studies. The candidates of both classes will be required to abide by the general rules of the College.

FOREST ENTRANCE EXAMINATION.

SYLLABUS.

Mathematics—I.—Arithmetic; Algebra, up to and including the Binomial Theorem; the theory and use of logarithms; Euclid, Books I to IV and VI; Plane Trigonometry, up to and including solution of triangles; Mensuration.

Mathematics—II.—Further questions on the Syllabus of Mathematics (I); Elementary Solid Geometry, including Euclid, Book XI, propositions 1 to 21; Euclid, Book XII, propositions 1 and 2; Geometrical Conic Sections, the elementary properties common to the ellipse, parabola and hyperbola; Dynamics and Statics, uniform and uniformly accelerated rectilinear motion, uniform circular motion, motion of projectiles (not requiring a knowledge of the parabola), equilibrium of forces in one plane and of parallel forces, the centre of mass, and the construction and use of the simpler machines.

Latin.—Passages selected from the authors usually read in schools will be set for translation into English. Passages from English authors will be given for translation into Latin prose and verse, but candidates will be allowed, in the place of verse composition, to answer questions of a simple character, which will test whether they possess a fundamental knowledge of the grammar of the language, and such an elementary acquaintance with Roman History as is required for the intelligent study of the books they have read.

Greek.—Passages will be set for translation into English from the authors usually read in schools, and in other respects the examination will proceed on the same lines as in Latin.

French.—Translation of unseen passages from French into English, and from English into French. The passages for translation will be taken mainly from standard authors, and a few simple questions may be asked on the passages set as to the structure and character of the language, and allusions of obvious and general interest. The *viva-voce* examination will include Dictation. Three hundred marks will be allotted to colloquial knowledge of the language.

German.—The passages for translation will be taken mainly from standard authors, and in other respects the examination will proceed on the same lines as in French.

English Composition.—Candidates will be tested by *précis*-writing as well as by an Essay. The standard of positive merit will be looked for in logical arrangement of thought, and in accuracy and propriety of expression, but large deductions of marks will be made for faults of writing and spelling.

(Candidates are also warned that for similar faults in the use of the English language, similar deductions will be made from the marks obtained in other subjects.)

Geometrical Drawing.—Practical plane geometry; the construction of scales, and the elements of solid geometry and of simple orthographic projection. Great importance will be attached to neatness and exactness of drawing.

Geography.—Simple questions in descriptive and general geography.

English History.—The General Paper in this subject will be confined to events subsequent to the Norman Conquest. It will test whether the candidates are accurately acquainted with the facts of English History, and also possess an intelligent knowledge of the meaning of the facts.

The paper on the Special Period will be confined to distinctly modern history. It will require from the candidates more minute knowledge than the General Paper.

The Special Period will be for 1903—From 1783 to 1837.

Natural Science Subjects.—The standard of examination in these subjects will be such as may be reasonably expected from the education given at schools possessing appliances for practical instruction, such as a laboratory, etc. A considerable portion of the marks will be given for proficiency shown in the practical part of the examination. A knowledge of the metric system will be expected.

Chemistry.—The laws of chemical combination and decomposition, and the preparation, classification, and properties of the principal metallic and non-metallic elements, and of such of their compounds as are treated of in inorganic chemistry. In the practical part of the examination only the more ordinary apparatus and the less dangerous reagents will be supplied, and no candidate will be allowed to bring his own apparatus or reagents.

Heat.—The elementary portion of the subject.

Physics.—The elementary properties of electricity, magnetism, light and sound.

Physiography, i.e., Physical geography.

Geology.—Chiefly economic, including the recognition of the more familiar minerals and rocks, and their properties and uses.

Botany.—The elementary parts of vegetable morphology, histology, and physiology, and the principles of a natural system of classification as illustrated by the more important British natural orders. Candidates will be required to describe plants in technical language.

(Questions will not be set on vegetable palæontology or on the geographical distribution of plants.)

Ordered that a copy of the foregoing Regulations be forwarded for information, to the Governments of Madras and Bombay, the Local Governments and Administrations noted in the margin, the Inspector-General of Forests, and the Comptroller and Auditor General. Also that the Regulations be published in the *Supplement to the Gazette of India.*

THE SECOND SCHEDULE ABOVE REFERRED TO.

1. That the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal shall stand possessed of the Government Promissory Notes and Calcutta Municipal Debenture, of which the particulars are contained in the first Schedule above written, upon trust to receive the interest, income, and profits thereof, when and as the same respectively shall become payable and from time to time to apply the same in accordance with the conditions hereinafter contained to the maintenance of the Rajkumari Leper Asylum established at Deoghur in the year 1895 by Dr. Mahendra Lal Sarkar, C.I.E., and other philanthropists.

2. That the administration of the interest, income, and profits of the said Government Promissory Notes shall be entrusted to the following persons as Trustees, namely:—

(1) The Deputy Commissioner of the Sonthal Parganas for the time being.
(2) The Subdivisional Officer of Deoghur for the time being.
(3) The next Senior Magistrate of the Deoghur subdivision for the time being.
(4) The third officer of the Deoghur subdivision for the time being, or such other Judicial officer as may be appointed in the subdivision with head-quarters at Deoghur.
(5) Dr. Mahendra Lal Sarkar, C.I.E.
(6) Babu Jogendra Nath Bose, B.A., inhabitant, Nathra, Diamond Harbour subdivision, 24-Parganas.
(7) The Subdivisional Inspector of Police for the time being.
(8) The Subdivisional Medical Officer for the time being.
(9) The General Manager under the Court of Wards with head-quarters at Deoghur for the time being.
(10) The Chairman of the Deoghur Municipality for the time being.
(11) The Vice-Chairman of the Deoghur Municipality for the time being.
(12) The Head Master of the Local English School for the time being.
(13) The High Priest of the Baidyanath Temple for the time being.
(14) Babu Bidhu Bhusun Sen, now residing at Deoghur.
(15) ,, Nabin Chandra Mullik, Rural Sub-Registrar, Deoghur.
(16) ,, Barada Prosad Basu, retired Executive Engineer.
(17) ,, Sukha Nath Bosu.
(18) Rai Tarini Prosad Bahadur, inhabitant, Rohini, and such other persons as shall hereafter, from time to time, be appointed to the office of Trustee under the provisions of the next succeeding clause hereof.

3. Whenever any Trustee, other than one of the *ex-officio* Trustees above named, shall die or desire to be discharged from, or refuse to act in, or become incapacitated through illness or otherwise from acting in the trusts hereby created, or shall be guilty of any gross misconduct, the surviving or continuing Trustees shall thereupon in writing appoint another person to be a Trustee in the place of the Trustee so dying, or desiring to be discharged, or refusing to act, or becoming incapacitated from acting, or becoming guilty of gross misconduct as aforesaid.

4. The duties of the said Trustees shall be as follows:—They shall apply the annual interest, income, and profits of the property vested by the above notification to the upkeep and maintenance and improvement of the said Rajkumari Leper Asylum, and shall thereout, in the first place, defray all such expenses of management of the said Asylum, of feeding, clothing, and medical treatment of the lepers, who shall for the time being be inmates thereof, and of repairs, improvements, and additions to the buildings and out-houses situate on the said land described in the second Schedule above written and pay all such rents and dues payable on account of the said land, as shall not be covered by the public subscriptions and donations, from time to time received in respect of the said Asylum. The expenses of management shall include the cost of providing a proper and efficient staff of servants for feeding and nursing the lepers, and of a further staff for the performance of clerical and other work in connection with the said asylum under the direction of the Honorary Secretary to be appointed by the Trustees as next hereinafter provided.

5. The Trustees shall annually in general meeting elect one of their number to be their Honorary Secretary. The duties of the said Secretary shall be to collect and receive subscriptions and donations from the public, to draw money from the Treasurer of Charitable Endowments for the purposes mentioned in the last preceding clause hereof, and also to keep accounts of all moneys received and expended by him, and to submit such accounts to the Trustees at their general meetings. The duties of the said Secretary shall include the appointment and dismissal of the staff as hereinbefore mentioned, the payment of their salaries and other disbursements necessary for the purposes mentioned in the last preceding clause and the general supervision of the said asylum.

6. Any surplus which may remain of the annual interest, income, and profits of the said trust property, and of the subscriptions and donations received from the public, after application of the same in manner provided in clause 4 hereof shall be deposited by the Trustees either in the Savings Bank or in the Bank of Bengal, and may be applied by them for such purposes in connection with the said asylum as they shall think fit, or may be invested, from time to time, in Government Promissory Notes or Municipal Debentures, and in the event of any investment being so made the same shall be transferred so as to vest in the Treasurer of Charitable Endowments upon the trusts declared in the above notification.

7. The Trustees may make such rules for, and in relation to, the conduct and management of the said asylum as they think fit, but such rules shall be in conformity in all respects with the rules which may, from time to time, be made by the Government of India relative to charitable institutions, and with the provisions of the Lepers Act, 1898, and the rules from time to time framed thereunder.

8. The Trustees shall hold an ordinary meeting at least once in every three months for the transaction of general business and passing accounts, and such meetings shall be held on some convenient day and at the subdivisional office or some other convenient place to be appointed by the Secretary in consultation with the Subdivisional Officer of Deoghur.

9. Any Trustee may call a special meeting by delivering or sending by post to the other Trustees at least a week's previous notice in writing, stating the time and the place of such meeting and the purposes or objects for which it is to be held.

10. The Deputy Commissioner of the Sonthal Parganas for the time being shall be the President, and the Subdivisional Officer for the time being shall be the Vice-President of the Trustees. The President or, in his absence, the Vice-President, shall be Chairman of every meeting of the Trustees. In the event of the absence both of the President and Vice-President, the next senior officer of the Deoghur subdivision (being a Trustee) may be appointed with the consent of the said Subdivisional Officer to be Chairman for any particular meeting which it may be necessary to hold in the absence of the President and Vice-President.

11. No business shall be transacted at any meeting unless at least five of the Trustees are present at the time when the meeting proceeds to business, and all business brought before any meeting shall be decided by majority of votes of the Trustees present, and in case of equality of votes, the Chairman of the meeting shall have a casting vote.

12. The minutes of the proceedings of every meeting shall be entered in a book to be kept for that purpose and signed by the Chairman of such meeting, and shall, when so entered and signed, be conclusive evidence of the business and other matters transacted at such meeting.

13. The Trustees may at any time, if they think fit, remove the said asylum from the said premises described in the second Schedule above written, to and thereafter maintain the same at any other place, and the trusts and provisions declared and contained in the above notification and this scheme shall remain in force and be applicable to and in respect of the said asylum after its removal as aforesaid in the same manner as if it had been originally established on such new place or site.

This supersedes the Notification No. 565 Medl., dated the 9th February 1903, published at pages 177 to 179, Part I, of the *Calcutta Gazette* of the 11th idem.

CERTIFICATE OF SURVEY

Issued under Act VII of 1884 of the Governor-General in Council by the Government of Bengal,

For a Sea-going Steam-Ship.

TO REMAIN IN FORCE ONLY UNTIL THE DAY OF 190 .

STEAM-SHIP_____

Owner, Managing Owner, or Agent _____

Port of Registry and Official Number.	Registered Tonnage.	Name of Master and Number of his Certificate.

TRADE

for which this Certificate is issued.

NUMBER OF PASSENGERS AND CREW

This Ship is, according to the declaration of the Surveyor, fit to carry when there is no encumbrance of Passenger accommodation :—

Third-cabin Passengers.	Second-cabin Passengers.	Saloon Passengers.	Crew.	Total Passengers and Crew.

N. B.—These Saloon and Cabin Passengers are to have the use of sufficient space on the Upper Deck of the Vessel.

Two children under 12 years of age to be reckoned as One Passenger.

If the space measured for Passenger accommodation is occupied by cattle, or by cargo or other articles,

Then for every twelve superficial feet so occupied, One Passenger is to be deducted from the numbers above stated.

NOTE.—*If on any voyage a Passenger Certificate for this Vessel is issued under any other Act, then the Number of Passengers on that Certificate, and not the number stated on this Certificate, is the Number of Passengers this Vessel is authorised to carry on such voyage.*

Boats and Life-saving Appliances.	Equipments, Distress Signals, &c.
No. Life-boats {of the aggregate capacity of} feet Cubic {and capable of accommodating.} Persons.	A Fire-hose capable of being connected with the engine and of sufficient length to be used in any part of the Vessel.

Life-belts or other similar approved articles.	One Cannon and twenty-four Cartridges or other approved means of making signals of distress.
Life-buoys.	Twelve Rockets or other approved signals of distress.

If on any occasion this Steam ship is employed in carrying Passengers under any other Act, then the boats and life-saving appliances required by that Act are to be carried, should they be more than the above.

THIS IS TO CERTIFY that the provisions of the Law with respect to the survey of the above-mentioned Steam-ship and the transmission of Declarations in respect thereof have been complied with.

Signed by order of the Government of Bengal,
this day of 190 .

Examined and registered, *Port Officer of Calcutta.*

This Certificate, unless previously cancelled or revoked, to be in force until the day of 190 .

If the Ship is then out of a port of survey, she must be surveyed and have a new Certificate before she first begins to ply with Passengers after her next subsequent return to a port of survey.

Either this Certificate or the duplicate thereof, furnished by the Port Office, is to be put up in a conspicuous part of the Ship, where it will be visible to all persons on board the same: otherwise the Owner and Master shall each be liable to a fine which may extend to one hundred rupees.

If the number of Passengers carried exceeds the number stated on this Certificate, the Master or Owner will be liable to the PENALTY prescribed in the Acts of the India Council.

In case of any ACCIDENT occasioning loss of life, or any material damage affecting the seaworthiness or efficiency of the Vessel, either in the hull or in any part of the machinery, a report BY LETTER SIGNED BY THE OWNER OR MASTER, is to be forwarded to the Port Officer, Calcutta, within 24 hours after arriving in Port, or as soon thereafter as possible.

N.B. Any communication addressed to the Port Officer, Calcutta, relative to this Vessel should state the Name, Port of Registry, and Official Number of the Vessel, and the Number of this Certificate.

The 9th May 1903.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 180B.

NOTIFICATION OF THE BOARD OF REVENUE.

No. 3559B.

THE following Rules for the payment of refunds of duty on salt bonded in Inland Bonded Warehouses, are published for general information.

Rules for the payment of refunds of Duty on Salt bonded in Inland Bonded Warehouses from the Calcutta Customs' Treasury.

1. On receipt of an application for refund of the duty on salt stored in an Inland Bonded Warehouse, the Collector of the district, through whom the returns of the warehouse are submitted, will cause to be prepared a statement of all payments of duty on account of salt stored in that warehouse, whether they have been made into the local Treasury or into the Calcutta Custom House Treasury, together with a report stating the quantity of salt on which a refund is payable, and explaining the reasons for the deficiency in the outturn of salt delivered from the warehouse. The salt receipts, in the case of payments at Calcutta, and the duplicate Treasury *chalans*, in other cases, with endorsements showing the deficiency in the outturn, will be annexed to the statement. The papers will then go before the Treasury Officer for verification by him of the payments of duty into the District Treasury. To facilitate this verification, the number of the bond securing the duty should, in future, be noted on the *chalans* at the time duty is paid in.

2 If the District Officer considers the refund admissible, under Rule 25 of the rules published at page 1329, Part I, of the *Calcutta Gazette*, of the 5th December 1900, he will cause a refund voucher to be prepared in Form No. 13, given at page 338, Volume I, of the Civil Account Code; and, after noting in his registers the amount to be refunded out of duty paid into his Treasury, and signing under the words "Passed for payment," he will forward it with all the papers to the Collector of Customs, Calcutta.

3. The daroga's statement of duty paid into the Calcutta Custom House Treasury (if any) will then be verified in the Custom House, and the papers will then be sent to the Superintendent of the Salt Golah Department, for report as to whether the short-delivery of salt on which the refund is claimed seems reasonable.

4. When it is considered that the refund should be paid, the statement of duty payments into the local Treasury (if any), verified by the local Treasury Officer, will be incorporated in the Custom House account of duty realised on account of the bond, and the

refund will then be noted for payment in the Calcutta Custom House. When payment is made, it will be entered against the above account, as required by Rule 99 of the Civil Account Code.

5. An advice of all refunds paid in the Calcutta Custom House under these rules will be sent to the District Officer for note against the original credit entries.

Rangpur Collectorate, the 24th April 1903. P. C. MITTER, Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, in the district of Rangpur, will be put up to sale at 11 o'clock on the 15th June 1903, corresponding with the 32nd Jaista 1310 at the Rangpur head-quarter station.

The purchasers of the several plots of land will be subject to the following conditions —

1st.—The purchasers will have no power to make any excavations on the lander nearer than 15 feet from the railway fencing, or plough the lands closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once

3rd.—If the amount of purchase-money exceed Rs 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

The 7th May 1903.

J. G. CUMMING, Collector of Patna.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Hooghly, will be put up to sale at the office of the Collector of Hooghly on the 26th day of June 1903, corresponding with 11th Ashar 1310 (B.S.).

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by the noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8.

THE British Admiralty has given notice (No. 283 of 1903) of the following dangers in the vicinity of the undermentioned places off the east coast of Samar island, and the north-east coast of Negros island:—

SAMAR ISLAND—

Pasig island. Shoals extend for a distance of 1½ miles S. 68° E. and half a mile West from this island. Breakers were also seen extending across the channel from Pasig island to Fulin island.

Approximate position, lat. 12° 3′ N., long. 125° 28½′ E.

Makati island. About 2 miles N.E. from this island, during a heavy swell, breakers were observed.

Approximate position, lat. 11° 59½′ N., long. 125° 28′ E.

Point Sungi. Heavy breakers have been observed extending for a distance of 2½ miles S.S.E. from Sungi point.

Approximate position, lat. 10° 52′ N., long. 125° 52′ E.

Depths of 7 to 10 fathoms were obtained between the coasts of Guiuan and Malhon islands, but apparently patches of shoaler water exist.

NEGROS ISLAND—

Don islands. A shoal, with a depth of 2½ fathoms over it, exists 3 miles south of the southernmost of the Don islands, or about 4 miles N. 56° E. from Bokabok island.

Approximate position, lat. 11° 0′ N., long. 123° 37′ E.

The two islands, situated 5 miles N 20° E. from Bokabok island, are 50 feet high, and covered with vegetation.

CAUTION.—The channel between the Don islands and Bokabok island should be navigated with great caution.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

≏, dew; o, overcast; d, drizzling rain; ⁄ strong wind.

* The anemograph is under repair.

(a) In the corresponding period of 1902 there was a bathing festival on account of the Lunar Eclipse.
(b) The decrease in weight and increase in amount is due to Railway materials and Ballast Trains In the corresponding week, maunds 323,084 and Rs 14,120 were included against maunds 140,413 and Rs. 3,194 in the current week. Public traffic, however, increased by maunds 39,893 and Rs. 13,841 resulting from better local bookings mainly from Chapra, Sevan, Burhaj, Gonda and Bhaptiahi and from increased foreign outward bookings chiefly from Gonda, Bahraich, Sairaghia and Sakri.
(c) Decrease mainly due to abolition of Turtipar Ferry and to smaller receipts on account of Hire and Demurrage.
(d) The corresponding half year's traffic was overstated by some Rs. 3,000 per week owing to the new link agreement not being fully worked to and the Link proportion having been finally adjusted at end of half year instead of weekly as in current period.
(e) Includes 3,214 miles of ballast trains run on open line.
(f) „ audited figures up to week ending 14th March 1903.
(g) „ 3,430 miles of ballast trains run on open line.

Offg. Secy. to the Govt. of Bengal.

RESOLUTION No. 73T.—P.

The 8th May 1903.

READ a letter from the Inspector-General of Police, Lower Provinces, No. 5003, dated the 2nd April 1903, reporting on the working of the Pilgrim Camp at Chittagong during the season 1902-1903.

The Report shows that the arrangements for the despatch of pilgrims to the Hedjaz continue to work satisfactorily. There was no epidemic disease; the health of the camp continued to be good, and it was not affected by the removal of restrictions against pilgrimage from plague-infected areas. The only point in the report calling for special remark is the decrease in the number of pilgrims from 3,609 to 1,835, which is apparently due to Bombay and Karachi having again been thrown open to this traffic. The thanks of the Lieutenant-Governor are due to Mr. R. W. Carlyle, C.I.E., Inspector-General of Police, who was in general charge of the arrangements, and to Captain J. C. H. Leicester, I.M.S., the officer in charge of the Chittagong Pilgrim Camp, for the excellent manner in which they carried out the duties entrusted to them.

ORDER.—Ordered that this Resolution, together with the report of the Inspector-General of Police, be published in the *Calcutta Gazette*, and that a copy of the Resolution and of the report be submitted to the Government of India for information.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,
Offg. Secy. to the Govt. of Bengal.

No. 5003, dated Calcutta, the 2nd April 1903.

From—R. W. CARLYLE, Esq., C.I.E., I.C.S., Inspector-General of Police, L. P.,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit the report on the working of the Chittagong Pilgrim Camp during the season 1902-1903.

2. Under the terms of the Government of India, Home Department, Notification No. 227, dated the 25th October 1902, the restrictions heretofore imposed on the departure of pilgrims from plague-infected areas were withdrawn, and the *Haj* was accordingly open during last season to any resident of India, subject to the regulations laid down in the above Notification.

3. The arrangements for the despatch of pilgrims from Chittagong were, as in previous seasons, placed in my charge by the Government of Bengal, Municipal Department, letter No. 1663Medl.—P, dated the 6th November 1902, and it was decided that Chittagong should be the port of embarkation for pilgrims from Bengal, Assam, and Burma.

4. *Holding of the charge of the camp.*—A commissioned Medical Officer was deputed by Government to have charge of the camp with an Assistant Superintendent of Police to look after the police arrangements. Captain S. A. Anderson, I.M.S., held charge of the camp from 10th November 1902 to 6th December P.M., when he was relieved by Captain J. C. H. Leicester, I.M.S., who held charge till the Camp was closed. Mr. R. J. Hirst, Assistant Superintendent of Police, held charge of the police force in the camp throughout the season. A deputation allowance equivalent to one-fifth of their salary, under article 98 of the Civil Service Regulations, was sanctioned for these officers while at the camp (*vide* Government Order No. 135Medl.—P., dated the 30th January 1903).

5. *Site, additions and alterations, &c.*—The camp opened on the 7th of November 1902. The site accommodation and general arrangements were in most respects practically the same as last year. Certain additions and alterations were, however, carried out during the past season, the more important of which were:—

(A) *Hospital.*—A plague hospital was erected on a site adjacent to and north of the cholera hospital, accommodation for twelve male and six female patients and attendants being provided. It was properly fenced in.

(B) *Latrines.*—The *kutcha* latrines in the hospitals and receiving yard were replaced by *pucca* ones.

(C) *Bathing platform in married quarters.*—A small *pucca* bathing platform was placed in the south-west corner of the married quarters and surrounded by high bamboo screens for the use of the females in these quarters.

(D) *Tank for kitchen, refuse water.*—A new receiving tank was constructed outside the kitchens in the "keep" for the reception of the waste water.

(E) *Trenching ground.*—A fresh piece of land was acquired as a trenching ground.

(F) *Superintendent's quarters.*—The Superintendent's quarters were enlarged by the addition of a bed-room, bath-room and two servants' quarters.

(G) *Treasure chest.*—A new safe was purchased and has been set in the floor of the Superintendent's room.

(H) *Precaution against fire.*—Hydrants were laid on throughout the camp at an estimated cost of Rs. 2,664 and a supply of canvas hose provided; but, owing to some miscalculation on the part of the officer in charge of the work, it has been found that the hoses do not throw water sufficiently high to reach the top of the buildings. I am in communication with the Executive Engineer and Superintending Engineer, and trust the defects will be remedied without great expense.

6. *Drinking water.*—Owing to the big well having given way, a tank close to the pumping engine was taken over and cleaned and fenced. The Chemical Examiner having declared the water good, it was pumped up into the camp. Before the camp re-opens, it will be necessary to have this tank again thoroughly cleaned, and the Medical Officer strongly advises a good supply of fish being put in.

7. *Lighting.*—The camp was lit with street lamps outside, and hurricane lanterns were allowed inside the barracks.

There were 53 street lamps and 142 hurricane lanterns in use this season.

8. *Preliminary arrangements for shipping, &c.*—The arrangements were the same as last year, and owing to there being no competition, the passage money remained the same, viz. Rs. 75.

A further charge of Rs. 3 per head on account of fixed dues payable at Camaran and Jeddah was also levied on pilgrims: this money was handed over to the Agents of the Steamer Companies, who arranged for its payment to the Turkish authorities, through the masters of the pilgrim vessels, as was done last year.

Hajee Issup Mahomed Sulliman, representing Hajee Kasim, of Bombay, and Messrs. Turner, Morrison & Co., on behalf of the Bombay and Persia Steam Navigation Company, supplied the steamers as in previous years.

9. *Realisation of return railway fares.*—This practice was discontinued under Government Order No. 1882Medl.—P., dated 12th December 1902.

10. *Supply of sovereigns to pilgrims.*—In compliance with the orders of Government, it was explained to pilgrims that by taking sovereigns to the Hedjaz instead of rupees they would save considerable expense, and arrangements were made for a supply of sovereigns to the Chittagong Camp to meet the demand. This attention on the part of Government was much appreciated by the pilgrims.

11. *Sale of tickets, &c.*—The collection of passage money and of the fixed dues payable to the Turkish authorities was made personally by the Superintendent of the camp and by the Assistant Superintendent of Police.

12. *Guard for the camp.*—The usual guard of 10 head constables and 50 constables (in addition to the permanent guard of 2 head constables and 12 constables) deputed from surrounding districts having been found insufficient, 10 extra men had to be drawn from the Chittagong district, thus making a total of 12 head constables and 72 constables on duty.

No extra force was entertained in place of the men so deputed. The providing of the police guard did not therefore involve any extra cost to Government on account of pay. The guard were, however, provided with free rations.

13. *Diet.*—The food, as in previous years, was supplied by a contractor at a fixed scale. Under the orders of Government, each pilgrim was required to deposit Rs. 4-8 as the cost of rations during detention. The charge was not objected to.

The food was personally inspected by the Medical Officer each day. The scale fixed for each adult was as follows.—

For Bengalis.

	Chittaks.	
Rice	10½	daily.
Dál	2	„
Vegetables	4	„
Oil	½	„
Salt	¼	„
Condiments	½	„
Onions	½	„
Meat	3	twice a week.
Do.	1	the other five days.
Ghee	1½	daily.

For up-country men.

	Chitaka.	
Table rice ...	6	daily.
Flour ...	6	„
Ghee ...	1	„
Meat ...	6	five days a week.
Vegetables	4	daily.
Onions ...	½	„
Salt ...	¼	„
Condiments	1/16	„
Dál ...	2½	two days a week when no meat given.

Extras, such as milk, fowls, eggs, &c., were supplied to the sick in hospital when ordered by the Medical Officer. They could also be obtained by other pilgrims from the contractor at fixed rates.

14. *Establishment.*—The following ministerial and menial establishments were employed in the camp during the past season :—

	Per mensem.	
	Rs.	
One Head Clerk on Rs. 60	60	+ 8 house allowance.
„ Second „ „ 30	30	
„ Third „ „ 20	20	
„ Fourth „ „ 15	15	
„ Godown Muharrir on Rs. 40	40	
„ Hospital Compounder on Rs. 11	11	
Two head sweepers on Rs. 12 each	24	
Twenty-four male sweepers on Rs 10 each ...	240	
Two female sweepers on Rs. 8 each	16	
Eight cooks on Rs. 10 each	80	
One tindal „ 15	15	
Two firemen „ 10 each	20	
Total monthly cost ...	579	

This works out Rs. 70 less than last season, as the number of male sweepers was reduced to 24.

15. *Medical staff.*—The medical staff this year consisted of one Indian Medical Service gazetted officer, one Assistant Surgeon and two Hospital Assistants.

16. *Labour staff.*—The labour staff employed varied from day to day according to requirements, the average number of coolies employed being 30 a day, including 174 employed for cutting grass and jungle before the camp opened.

17. *Disinfection and detention.*—The arrangements for the reception of pilgrims were practically the same as last season and worked satisfactorily, and as in previous years the down passenger trains stopped at the camp and two railway officials were attached to and housed in the camp. The pilgrims, as a rule, alighted at the camp station, though in some instances they went through to Chittagong, and after staying there a few days came into the camp by road.

The Medical Officer personally attended to the disinfection to make sure that all articles were thoroughly and efficiently disinfected and also to prevent unfounded complaints of any articles being lost or spoilt in sterilisation.

The Medical Officer, Captain Leicester, I.M.S., makes the following suggestions :—

"The arrangements for sterilisation I consider on the whole to be very good, but I think it would be a very great improvement if the disinfection chambers were to be enclosed in a small iron shed with a partition in the centre and all the articles put in at one end from one side of the chamber and taken out at the other after disinfection, as by this means there could be no chance of re-infection directly after sterilisation as there is by the present arrangement, when all the clothes are taken out and put in the same place as they were before being sterilised.

"The plan I have suggested is that carried out in almost all hospitals and other institutions in which clothes are disinfected as in this camp by steam under pressure."

The precautions will be adopted next season.

18. *Embarkation.*—Pilgrims were conveyed by special train from the camp to the jetty at double moorings (about six miles), and in the case of the first two steamers which sailed, were here put aboard steam launches and taken out to the steamers which lay beyond the bar, as the tides were not high enough to enable them to enter the river. The embarkation was carried out in each instance under the superintendence of the Port Officer. In the case of the last two steamers the pilgrims walked straight on board from the jetty.

The following is the list of steamers which sailed this season with dates of sailing and the number of pilgrims carried:—

	Steamer	Date of sailing.	Carried.					
			Males.	Females	Boys.	Girls.	Infants	Total.
1.	S.S. *Afghan* ...	22nd Dec. 1902	372	41	2	1	4	420
2.	S.S. *Monsoori* ...	23rd „ „	501	101	2	6	9	619

			1,534	258	12	10	18	1,832

							Total ...	1,835

There was a decrease of 1,774 pilgrims this year, the number shipped during the season of 1901-1902 being 3,609.

There were no accidents of any kind during embarkation.

The following are the details of the 1,835 pilgrims:—

In addition to the above, there were 44 pilgrims admitted into the camp, including--

Males ...	...	33
Females ...	...	8
Male children	...	2
Infant ...	...	1
Total	...	44

Of these, 4 died in camp, and the remaining 40 left for various reasons, chiefly ill-health and want of money for the return journey.

19. *Health of pilgrims.*—The general health of the pilgrims is reported by the Medical Officer to have been "very good." The four deaths were from the following causes:—

Peritonitis ...	...	1
Dysentery and old age	...	1
Debility ditto	...	1
Malarial fever ...	...	1

The total number of cases treated during the whole season among pilgrims, police and establishment was 724, of whom 665 were treated as out-patients and 59 were admitted to hospital.

All the pilgrims were visited by either the Assistant Surgeon or one of the Hospital Assistants daily in their barracks, and any one who was found ill was at once placed under treatment.

The Medical Officer in charge visited the hospital daily and attended all the more serious cases, and in all cases directed whether the patients should be treated as out-patients or in hospital.

A good number of vaccinations were carried out among the un vaccinated (and those with no marks of vaccination or small-pox) pilgrims of the camp by the town vaccinator of Chittagong.

There was no outbreak of epidemic disease of any kind.

20. *Closing of the camp.*—The camp was closed to pilgrims on 16th January 1903.

The police guards from the neighbouring districts were sent back, and most of the ministerial and menial establishments were discharged on the 8th February 1903. The property of the camp was, as usual, made over to the Collector of Chittagong, and the camp buildings were made over to the Public Works Department.

21. *Establishment sanctioned during the recess season of the camp.*—A menial establishment of four coolies at Rs 7 each a month and one sweeper at Rs. 9 a month, with a monthly oil allowance for four lamps at Rs. 4-8, has been sanctioned (*vide* Government Order No. 267T.—P., dated 23rd May 1902) at a monthly cost of Rs. 41-8, for the proper maintenance of the camp during the recess season. A tindal on Rs. 30 and a fireman on Rs. 10 a month have also been sanctioned (*vide* Government Order No. 236Medl.—P., dated 20th February 1903) to look after the engines, and the Executive Engineer, Dacca Division, has been requested to appoint and pay these men.

22. *Inspection of the camp.*—The camp was twice inspected by my Personal Assistant, Mr. K. B. Thomas, for me.

23. I have much pleasure in acknowledging the satisfactory manner in which Captain Leicester, I M.S., performed his duties as Superintendent of the camp.

24. *Accounts of expenditure.*—The usual statement of expenditure during the season will be submitted to Government later on after verification by the Accountant-General, Bengal.

BARASET-BASIRHAT TRAMWAY.

No. 86R.—Notification.—It is hereby notified that an application has been duly made to the Local Government of Bengal by Messrs. Martin and Company, of Calcutta, for and on behalf of a Company about to be formed and to be called the Baraset-Basirhat Light Railway Company, Limited, for sanction to the construction of a line of tramway between Baraset on the Bengal Central Railway line and the town of Basirhat, within the district of the 24-Parganas; and whereas it appears to the Local Government expedient and proper that the said application should be granted, the Local Government, in pursuance of section 5 of the Bengal Tramways Act, 1883, makes the following order.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

PRELIMINARY.

Short title.

1. This order may be cited as the Barasat-Basirhat Tramway Company Order.

Interpretation clause.

2. The several words and expressions to which meanings are assigned by the Bengal Tramways Act, 1883, have in this Order the same respective meanings:

Provided that in this Order the expression "the tramway" or "the undertaking" shall mean the tramway and works and undertaking by this Order authorised, except where the context may require a different meaning, and the words "the Act" shall mean the said Bengal Tramways Act, 1883.

Law applicable to the tramway.

3. (1) The tramway authorised by this Order shall be constructed, maintained, and worked, subject to the provisions of the Act, of the rules from time to time in force under the Act, and of this Order.

(2) No powers or rights shall be deemed to have been conferred on the Promoters or to have been relinquished by Government, except as in this Order expressly provided.

Promoters and Company.

4. Messrs. Martin and Company, Calcutta, shall be the Promoters for the purposes of this Order, and are in this Order referred to as "the Promoters," and this expression shall, except where the context may require a different construction, include the Company to be formed and called the Baraset-Basirhat Light Railway Company, Limited, hereafter in this Order referred to as "the Company."

CONSTRUCTION OF TRAMWAY.

Authority to Promoters to construct tramway.

5. The Promoters shall construct and maintain, subject to the provisions specified in this Order, and to the agreements made between the Promoters and the Local Authorities, which are set forth in the First Schedule attached to this Order and in accordance, also, with plans and sections deposited by the Promoters with the Local Government, the tramway hereinafter described with all proper establishments, rails, bearings, stations, offices, works, rolling-stock, and conveniences connected with the tramway or required for the purpose thereof.

Dates for commencing and completing the tramway.

6. (1) Subject to any extension of time that the Local Government may see fit to grant, the Promoters shall substantially commence the construction of the said tramway within one year from the date of this order and shall complete and equip the same in every respect for opening and working for traffic to the satisfaction of the Local Government within three years from the date of this Order.

(2) In the event of the said Promoters failing to commence the construction, and to complete and equip the tramway as provided in the first paragraph of this clause, then in any such case the Local Government shall be at liberty to revoke this Order, and the Local Government shall thereafter be at liberty to enter into any arrangements with any other person or persons for the construction of a tramway from Baraset to Basirhat; and in the event of this Order being revoked by reason of the said Promoters failing to complete and equip, and open for traffic, the said tramway within the period of three years from the date of this Order, the Local Government shall have the option of taking over all the permanent-way and rolling-stock of the tramway at a reasonable valuation to be determined by the Local Government, and in the event of the Local Government exercising this option, all the other works and the buildings of the tramway may be dealt with under the provisions of the Act relating to the discontinuance of tramways as a tramway whereof the discontinuance has been proved to the satisfaction of the Local Government.

If, however, the Local Government do not desire to exercise the option of taking over the permanent-way and rolling-stock of the tramway as herein provided, then and in such case the tramway, including the permanent-way, the rolling-stock, and all the buildings and works of every kind connected therewith may be dealt with under the provisions of the Act relating to the discontinuance of tramways as the tramway whereof the discontinuance has been proved to the satisfaction of the Local Government.

Description of the tramway authorised.

7. The Tramway authorised by this Order is a single line with necessary passing places within the district of the 24-Parganas, starting from Baraset, a station on the Bengal Central Railway, 14 miles distant from Calcutta, and running along the district road to Basirhat, being a distance of about 26 miles, and entirely within the district of the 24-Parganas.

From Baraset the line is taken along the district road to Bamanmura, and thence through Kadamgachi, Golabari, Degunga, Dealia, Sarupganj, Metia and Mathurapur to Basirhat. There will be three diversions from the road. The first one of 1,400 feet, between Golabari and Degunga, to take the line across the Balliaghatta creek; the second and third diversions, of 1,700 feet and 1,600 feet, respectively, between Metia and Basirhat.

8. The Promoters may use for the construction of the tramway, but not for the purposes of any building or erection connected therewith, one side of the road over which the tramway is to run 8 feet in width.

Promoters authorised to use the road subject to limitation

In cases where there are no buildings on that side of the road on which the tramway is laid, the said width of 8 feet shall be measured from the gutter on that side of the road, or where the road is in embankment, from the edge of such embankment; and in cases where there are buildings on that side of the road, the said width shall be measured from such point on that side as in the opinion of the Government Engineer in charge of the road is safe and proper; but for the purpose of crossing bridges where desired, the tramway may approach the centre of the road as far as shall, in each case, be deemed unavoidable by the said Engineer:

Provided always that—

(1) there shall nowhere be a less width of road clear of the inner rail of the tramway than 14 feet;

(2) if any addition to the existing width of the metalled surface of the road is rendered necessary in order to comply with the terms of this Order, or if any addition to or alteration of any bridge is, in the opinion of the Government Engineer in charge of the road, rendered necessary by the tramway, the same shall be carried out by, and at the cost of, the Promoters to the satisfaction of the said Engineer;

(3) at no point on the metalled road shall there be more than one line of rails; any loop-lines turn-outs, or sidings that may be required must therefore be placed elsewhere than on the metalled portion of the road;

(4) the metalling of the roadway shall not be interfered with more than is absolutely necessary for the proper construction of the tramway; and in all cases where such metalling has been so interfered with, it shall be repaired and made good with all reasonable promptitude by, and at the cost of, the Promoters to the satisfaction of the Government Engineer in charge of the road.

9. In all cases where, in the opinion of the Government Engineer in charge of the road, the existing road bridges are not sufficiently strong to carry the tramway, the Promoters shall make at their own cost such additions to or alterations of any such bridges as may be required by the said Engineer, and the work shall be carried out and completed to his satisfaction:

Bridges.

Provided that the Promoters may, at their option, construct at their own cost, for the purposes of the tramway, separate bridges of such design and in such manner as shall first be approved by an Engineer or other officer duly appointed in this behalf by the Local Government, and shall complete the same to the satisfaction of the said officer.

10. (1) Such additional land (over and above that which the Local Authorities have agreed to grant free to the Promoters, in terms of clause 1, First Schedule, hereunto annexed) as may be required by the Promoters and sanctioned by the Local Government as necessary for the purposes of the tramway shall be acquired by the Local Government on behalf of the Promoters under the Land Acquisition Act, I of 1894, and the cost of acquiring such land shall be met by the Promoters.

Acquisition of additional land required by Promoters. Disposal of land not required by the Promoters.

(2) The Promoters may, from time to time, with the approval of the Local Government, but not otherwise, sell or otherwise dispose of any land acquired by the Local Government on their behalf which may no longer be required for the purposes of the undertaking.

11. The tramway shall be constructed on a gauge of 2 feet 6 inches. In villages and at all level-crossings of district or village roads, and wherever the width of metalled road left clear of the inner rail of the tramway is less than 14 feet and the tramway is not fenced, either grooved or double rails shall be used, and at all such places the metal of the road shall be maintained flush with the level of the top of the rails. At all places where double rails are used, such rails shall be kept properly secured to each other by distance pieces placed at regular intervals to the satisfaction of the Government Engineer in charge of the road.

Gauge of tramway and provisions regarding grooved or double rails.

12. Without prejudice to the powers conferred on the Local Authorities by section 14 of the Act, as regards the type of cars and carriages to be used on the tramway and the brakes and other appliances with which they are to be furnished, the standard weights and dimensions of rails, sleepers, rolling-stock, and other equipment of the tramway are to be as set forth and described in the Second Schedule attached to this Order. The Local Government, however, reserves to itself the right to revise the said standard weights and dimensions, and the special sanction of the Local Government must be obtained before the materials, &c., required for the tramway are ordered.

Standard dimensions to be observed.

13. The Local Government shall have the power of determining, from time to time, the situation and dimension of all stations, station-yards, offices, warehouses, houses for employés, conveniences and works to be constructed in connection with or as part of the tramway.

Stations and buildings.

14. The Promoters shall, within three calendar months of being called upon by the Local Government to do so, be bound to provide at their own expense fencing on both sides of the tramway, either along the whole or any part of its length, and shall carry out and complete the work in such manner and in such time as the Local Government may direct.

Fencing.

15. (1) The Promoters bind themselves to provide, at their own cost and to the satisfaction of the Local Government, suitable level-crossings wherever the

Provision of level-crossings, gates, and gatemen

tramway crosses district and village roads, and at such other places as the Local Government or any officer appointed by the Local Government in this behalf may, from time to time, direct.

(2) The Promoters shall, at their own cost, provide gates with gate-keepers' lodges, and shall maintain, at their own cost, gate-keepers at such level-crossings or bridges crossed by the tramway as the Local Government may, from time to time, direct.

Provision of additional crossing places, etc., required by Promoters.

16. Subject to the previous sanction of the Local Government, in each case, the Promoters may hereafter from time to time make, at their own cost, such crossings, passing-places, junctions, and other works as may be required, in addition to those specified in their application for this Order or authorised by this Order, and all such works shall, when sanctioned by the Local Government, be completed to the satisfaction of the Local Government.

Additional works required by Local Government.

17. The Promoters shall, at their own cost, construct and maintain all such stations, passing-places, sidings, junctions, and all other works, in addition to those specified in or authorised by this Order, and shall also employ and maintain all such establishments, in addition to those specified in or authorised by this Order, as the Local Government may, from time to time, consider to be expedient for the safe and efficient working of the tramway, or for the convenience and safety of the public and of the traffic of the roadway. All such additional works shall be completed to the satisfaction of the Local Government.

MOTIVE POWER, SPEED AND SIGNALS.

Power to be used by the tramway.

18. The vehicles used on the tramway may be moved by steam-power. The outside cylinder type of locomotive may be used, but the Local Government reserves to itself the right to order noiseless and smokeless locomotives to be used on any portion of the tramway.

Speed of trains.

19. The speed of trains on the tramway shall not exceed 12 miles, or such other speed as may, from time to time, be authorised by the Local Government: Provided always that until the whole line is fenced on both sides, the maximum speed shall not exceed 10 miles an hour and the engines shall be fitted with cow-catchers.

Signals.

20. All the permanent and crossing stations of the tramway shall be provided with home signals, which shall be at least 20 feet in height, and shall be located on the platforms. The Local Government, however, reserves to itself the right to order distant signals to be provided at the permanent and crossing stations, as well as both home and distant signals at such other stations, in addition to those referred to herein, and at such other places as may be considered necessary by the Local Government

In thick, foggy, or tempestuous weather detonator signals shall be used in addition to the ordinary day and night signals, and all signals in use on the tramway shall be constructed, worked and used in accordance with such orders as may be prescribed, from time to time, by the Local Government.

MAINTENANCE AND WORKING OF TRAMWAY.

Maintenance of way, works, and stock.

21. The Promoters shall at all times maintain and keep in good condition and repair to the satisfaction of the Local Government, or of any officer duly appointed in this behalf by the Local Government, all way, works, rolling-stock, and appliances appertaining to the tramway; and shall maintain the tramway, way, works, rolling-stock, and appliances, and shall work the same in such manner as will, to the satisfaction of the Government Engineer in charge of the road, avoid all risks of danger or annoyance to the ordinary road traffic.

Maintenance of portion of road over which tramway runs.

22. (1) The Promoters shall maintain and keep in repair, to the satisfaction of the Government Engineer in charge of the road, so as not to interfere in any way with the efficient drainage of the road, the portion of the road on the side on which the tramway is laid; such portion shall include the width of the side of the road on which the tramway is laid from a point 4 feet from the centre line of the tramway on the side nearest to the centre of the road and on the other side to the bottom of the slope of the embankment when the road is in embankment, or to the top of slope of the cutting when it is in cutting, or where there are buildings to the point to be determined by the Government Engineer in charge of the road, under the provisions of clause 8 of this Order.

The said portion of the road shall be ballasted by, and at the cost of, the Promoters, who shall also, at their own cost, alter the position or level of the tramway and of the said portion of the road to suit future alterations in the road or such future alterations in the tramway as may be approved by the Local Government, and shall forthwith repair, make good, and reinstate, to the satisfaction of the Government Engineer aforesaid, any other portion of the road which shall at any time be in any way damaged by reason of any fault of the Promoters or of any accident to or upon the tramway. The gutter or drain on the side of the road on which the tramway is laid, as the same at present exists or shall hereafter be constructed at the cost of the Local Government or of the Local Authorities, shall likewise be maintained in efficient order by and at the cost of the Promoters.

(2) The portions of the road from 4 feet from the centre line of the tramway to the opposite side of the road from the tramway will be maintained and kept in repair by, and at the expense of, the Local Authorities.

Inspection of works, accounts, &c.

23. The undertaking and all works, stock, appliances and accounts appertaining thereto shall at all times be open to the inspection and examination of any person or persons whom the Local Government may appoint for that purpose, and the Promoters shall afford all reasonable facilities for the inspection or examination to the officer making it.

Closing of tramway and disuse of rolling-stock by order of Local Government.

24. When after inspection of the tramway or portion of the tramway or any rolling-stock used thereon, the officer making the inspection under clause 23

of this Order reports to the Local Government that, in his opinion, the use of the tramway or any portion thereof, or of any specified rolling-stock, will be attended with danger to the public using it, the Local Government may direct that the tramway or portion thereof be closed for the public conveyance of passengers, or that the rolling-stock so specified shall no longer be used, as the case may be.

Tramway not to be re-opened without sanction.

25. When the tramway or any portion of the tramway has been closed under clause 24 of this Order, it shall not be reopened for the public conveyance of passengers, unless and until it has been inspected by the officer referred to in clause 23 of this Order and its opening sanctioned by the Local Government.

Rolling-stock not to be used again without sanction.

26. When the Local Government has, under clause 24 of this Order, prohibited the use of any rolling-stock, the said rolling-stock shall not be used unless and until the Local Government sanctions its use.

Powers of Local Government to authorise interference with tramway in carrying out necessary works, &c.

27. (1) In the event of any necessity arising for carrying out, in or on land occupied by the tramway, any works of any kind whatsoever, for which interference with the tramway may be considered necessary by the Local Government, the said Government may, by notice in writing and without prejudice to the powers conferred on the Local Authorities by section 38 of the Act, call upon the Promoters to show cause why such portion of the tramway should not be closed for traffic as may enable the said works to be carried out in safety.

After considering the necessity for closing such portion of the tramway, as well as any objections or suggestions that may be made by the Promoters, the Local Government may direct that the Promoters shall close the said portion of the tramway for such a period of time and under such conditions as in the circumstances of the case may appear necessary.

(2) The Promoters shall be bound to comply with such directions and allow the work referred to therein to be carried out: Provided that, unless otherwise directed, any portion of the tramway which it may be necessary to remove in order to carry out such work shall be removed and reinstated by, or at the expense of, the Local Government, or the person or persons at whose instance the work is carried out: And provided also that the Promoters shall, if they are, at the time the Local Government either interferes with or stops the working of the tramway under the first paragraph of this clause, paying any rent to the Local Authorities for the use of road, receive an abatement of such rent proportionate to the length of road over which and to the time during which the working of the tramway is stopped.

Conditions on which Promoters allowed to interfere with structures in or on the road.

28. In the event of the Promoters desiring that any bridge, drain, culvert, water-course, telegraph line or other thing whatsoever on or adjacent to the land to be used for the tramway should be removed or the position thereof altered, the Promoters shall give notice in writing to the Local Authorities, who shall thereupon deal with the matter themselves, if within their powers, and, if not, shall refer the matter to the Local Government or other authority competent to deal with it, who shall pass such orders thereon as in the circumstances of the case may appear fit.

Power of Promoters to make temporary tramway.

29. When from accident or flood, or by reason of the execution of any works under the provision contained in clause 27 of this Order, or when, from any other reason, it is in the opinion of the Local Government necessary or expedient to remove or discontinue the use of the tramway or any part thereof, the Promoters may, subject to such conditions and in accordance, in all respects, with such regulations as the Local Government may, from time to time, make, construct, and maintain, so long as occasion may require, a temporary tramway in lieu of the tramway or part of the tramway removed or discontinued.

Lopping trees.

30. The Promoters shall not, without the consent in writing of the Government Engineer in charge of the road or of the Local Authorities, as the case may be, cut down or lop any tree growing along or by the side of the road, provided that in case of emergency, the Promoters may remove or lop the branches or any portion of a tree which projects or hangs in such a manner as to be a source of danger or impediment to the tramway traffic.

Use of excavated material.

31. Any road metal or material excavated by the Promoters from the road, in the construction or maintenance of the tramway, may be applied by them in or towards reinstating the said road, or in or towards completing any work thereon required by this Order.

Stacking of materials.

32. The Promoters may stack road metal and other materials for the construction or maintenance of the tramway within the limits of the road boundaries, but the same shall be stacked in such a manner as, in the opinion of the Government Engineer in charge of the road, will not impede or endanger the traffic on the said road.

Unused portion of road to be left free.

33. The portion of the road which the Promoters are not authorised by or under this Order to use for the purpose of the tramway shall be left free and unencumbered for ordinary traffic, and no obstruction whatever shall be placed thereon or caused thereto without the previous written consent, which may be revoked at will, of the Government Engineer in charge of the road.

TRAFFIC AND TRAFFIC WORKING.

Traffic to be carried

34. The tramway may be used for the purpose of conveying passengers, passengers' luggage, animals, goods, minerals, and parcels. But the Promoters shall have the liberty to refuse to carry any person or any animals suffering from any infectious or contagious disorder, and articles that may be declared dangerous or offensive by bye-laws to be framed under section 27 of the Act. Provided that nothing in this clause shall be taken to restrict the right of the Local Authorities by bye-laws made under section 26 of the Act to prohibit the carriage or conveyance of persons or

animals suffering from any contagious disease or of goods declared to be dangerous or offensive.

Maximum fares and rates.

35. At the outset the following shall be the maximum rates of fares for passengers and tariff of charges for goods :—

(*a*) *Passengers*—

		Per mile.
Third	class ...	4½ pies.
Intermediate	„ ...	6 pies
First	„ ...	1½ annas.

Any fraction of a mile will be reckoned as a mile, and no fare shall be less than one anna.

(*b*) *Goods*—The Bengal Central Railway's classification of goods shall be adopted, and the following rates shall be observed as the maxima. for the different classes of goods :—

	Per 100 maunds per mile. As.
First class ...	8

Not exceeding 10 seers, or 2 cubic feet ...	2

and one rupee for each additional 10 seers, or 2 cubic feet or part thereof.

(*d*) *Passengers' luggage*—A free allowance of luggage will be made to each passenger as follows :—

	Seers.
First class ...	60
Intermediate ...	20
Third class ...	15

Luggage in excess of the foregoing weights may be charged for at a rate not exceeding two annas per maund per mile.

Full control over charges of all kinds for the use of the tramway is reserved to the Local Government.

Running of trains.

36. No train shall be run between sunset and sunrise, except with the previous consent of the Local Government, and upon such conditions as may be approved by them.

Passenger classes.

37. Provision shall be made in all trains for two or more classes of passengers.

Train lights.

38. (1) During foggy weather every train shall exhibit a red tail-light and two red sidelights in rear of the train, and every engine running alone, during foggy weather, shall exhibit at least one red tail-light.

(2) The same train and engine lights shall also be used when any train runs between sunset and sunrise.

39. The train shall be worked on "the one-engine or train-staff and ticket system," according to Government General Rules and Regulations for Railways.

Working of trains. Brakes and brakevans.

40. All engines shall be provided with an efficient brake worked by hand or steam, and acting on at least four wheels of the engine or its tender. All wagons shall be provided with an efficient brake acting on at least half of the wheels of the wagon. There shall be at least one fully-braked vehicle with a person in charge of it at the rear of each train.

Prohibiting undue preference.

41. The Promoters shall not, as between members of the public, make or give any undue or unreasonable preference or advantage to or in favour of any particular person or company or any particular description of traffic, or subject any particular person or company, to any undue or unreasonable prejudice or disadvantage. The Local Government shall have absolute power, for the purposes of this clause, to decide whether any preference, advantage, prejudice or disadvantage is undue or unreasonable.

MISCELLANEOUS.

Crossing of tramway by any railway or other tramway.

42. In the event of its being necessary, under the authority of the Local Government, for any railway or tramway line other than that referred to in this Order to cross the tramway on the level or otherwise, the Promoters shall not be competent to raise any objection, provided that such reasonable expenses as may be shown to the satisfaction of the Local Government to have been incurred by the Promoters, on account of any interference with the tramway that may be necessary for such crossing, shall be borne by the administration of the railway or tramway authorised to cross :

Provided that the Local Government shall have absolute power, for the purpose of this clause, to decide the question as to the reasonableness of the expenses incurred by the Promoters on account of the interference with the tramway.

When the tramway interferes with the location or extension of any railway.

43. In case it hereafter be found that any portion of the alignment adopted by the Promoters for the tramway interferes with the location of any new line of railway, or the extension of any existing line of railway, the alignment occupied by the tramway shall be forthwith, at the request of the Local Government, abandoned in favour of the railway, and the tramway shall be diverted in such way and in such manner as shall appear to an Engineer or other officer duly appointed in this behalf by the Local Government to be fair and proper, provided that the actual cost of constructing such diversion shall be borne by the authorities of the said railway.

Penalty for breach of section 15 of the Act

44. If the Promoters fail in any respect to comply with any of the provisions of clause 6 of section 15 of the Act, and the Local Authorities shall find it necessary or desirable to do anything or incur any expense to remedy any such failure on the part of the Promoters, all expenses so incurred shall be, on demand, repaid to the Local Authorities by the Promoters, and the certificate of the Chairman for the time being of the Local Authorities shall be conclusive evidence that all expenses referred to in such certificate were so incurred, and the said Promoters shall not be at liberty to dispute the same.

On Promoters' default works may be executed by Local Government.

45. In the event of any work required by the Act or by this Order to be done by the Promoters not being done by them, the Local Government may cause a notice to be served on the Promoters requiring them, within a period to be prescribed in the said notice, to execute the said work, and if within the period so prescribed such requisition is not complied with, the Local Government may cause such work to be done, and the cost thereof shall be recoverable from the Promoters. The certificate of the Government Engineer or other officer in charge of such work shall be conclusive evidence that all expenses referred to in such certificate have been incurred in carrying out such work, and the Promoters shall not be at liberty to dispute the same.

Improvements may be directed by the Local Government.

46. The Promoters shall adopt and apply all such improvements in the tramway and in the rolling-stock and appliances thereon as the Local Government may from time to time consider necessary or desirable for the safety or convenience of the public.

Transfer of tramway.

47. The Promoters shall not have power to transfer the undertaking without the previous sanction of the Local Government otherwise than as provided in clause 5 of Part I of the First Schedule hereto attached, and as shall be provided in the supplementary agreement to be entered into between the Promoters and the District Board, 24-Parganas.

Statistics.

48. The Promoters shall provide, without unreasonable delay, such statistics relating to the tramway or to the traffic thereon as may from time to time be required by the Local Government.

Concession in this Order gives Promoters no exclusive right as carriers on the road traversed by the tramway.

49. It is to be distinctly understood that no concession granted under this Order confers on the Promoters any exclusive right as carriers over any part of the tract traversed by the tramway. In the event of Government deciding to construct or granting a concession to construct a broad gauge line between Baraset and Basirhat, the tramway shall be purchased outright either by Government or the concessionaire under the terms specified in clause 5 of the agreement between the District Board and the Promoters referred to in the First Schedule.

Penalty for failure of Promoters to comply with Orders.

50. (1) If the Promoters fail to observe any condition or direction contained in or made under this Order, they shall, for each such failure to observe the same, be liable to a penalty which may extend to two hundred rupees and, in the case of a continuing failure, to a further penalty which may extend to fifty rupees for each day after the first during which such failure continues.

(2) When the Promoters have through any act or omission become liable for any penalty under this clause, the penalty shall become recoverable by suit in the District Court having jurisdiction in the place where the act of omission or any part thereof occurred.

(3) The Local Government may remit the whole or any part of any penalty to which the Promoters become liable under this clause.

(4) Every penalty recovered under this clause shall be applied as the Local Government from time to time may direct.

51. The terms of this Order are without prejudice to the power of the Governor-General in Council, under section 146 of the Indian Railways Act, 1890, to extend the provisions of that Act to the tramway of which the construction is authorised by this Order.

ARBITRATION.

52. If any dispute, question or controversy shall at any time arise either between the Local Government and the Promoters, or the Local Authorities and the Promoters, touching this Order, or any clause or thing herein contained, or the construction hereof, or any matter connected with this Order, or the operation of the same, or the rights, duties or liabilities of any of the parties in relation to the premises, then and in every such case the matter in difference, unless special provision shall have been made in this Order for the settlement of the matter so in difference, shall be referred to two arbitrators or their umpire, pursuant to and so as with regard to the mode and consequence of the reference, and in all other respects to conform to the provisions in that behalf contained in the Code of Civil Procedure, 1882, or any subsisting statutory modification thereof, and upon every such reference the arbitrators and umpire shall respectively have power to examine witnesses upon oath or affirmation, and either to fix, settle, and determine the amount of cost of the reference and award respectively or incidental thereto to be paid by both parties making the reference, or by either party, or to direct the same to be taxed either as between Solicitor and client or otherwise, and to direct and award where and by and to whom such costs shall be paid and every or any such reference may be made a rule of His Majesty's High Court of Justice or of the High Court of Judicature at Calcutta on the application of either the Local Government, the Local Authorities or the Promoters, and either the Local Government, the Local Authorities or the Promoters may instruct Counsel to consent thereto for the other party.

FIRST SCHEDULE.

AN AGREEMENT made the fourteenth day of December one thousand eight hundred and ninety-seven BETWEEN THE DISTRICT BOARD OF THE 24-PARGANAS incorporated under the Bengal Local Self-Government Act of 1885 and hereinafter called "the Board" of the one part and SIR THOMAS ACQUIN MARTIN, KNIGHT, RAJENDRA NATH MOOKERJI, CHARLES WOOLARD WALSH and HAROLD PATRICK MARTIN the members for the time being of Martin & Co., Calcutta, Engineers and Contractors, hereinafter called "the Promoters" for and on behalf of a Company about to be formed and called THE BARASET-BASIRHAT TRAMWAY COMPANY, LIMITED, hereinafter called "the Company" of the other part. WHEREAS the Promoters are desirous to promote the construction of a tramway to be worked by steam-

power from Baraset to Basirhat and have applied to the Board for a concession to the Company of the right to construct and erect such a tramway through over or along that portion of the road between Baraset and Basirhat which passes through the area under the jurisdiction of the Board and the Board have granted such a concession (provisionally on the same being sanctioned by the Government of Bengal) upon the terms and conditions hereinafter set forth: NOW THESE PRESENTS WITNESS that it is hereby mutually agreed as follows:—

1. The Board will grant to the Company in perpetuity subject to clause 6 the free use of so much of the said portion of the said road as is necessary but not exceeding a width of eight feet on one side for the purpose of laying thereon and using a Steam Tramway of two feet six inches gauge to be worked by the Company. The Board will also grant to the Company in perpetuity subject as aforesaid full right and liberty to lay the said tramway across the said road wherever necessary and to use the same wherever laid across the said road.

2. The Board will promote the acquisition by the Company under the provisions of Act I of 1894 of such additional land outside the boundary of the said road as may be necessary for the purposes of the said tramway.

3. The Board will recommend and apply to the Local Government to exempt the Company from the tax on account of road cess or to exact only a nominal tax for a period of twenty-one years from the date when the said tramway is opened for traffic with power of renewal.

4. As soon as five miles of the said tramway shall have been constructed and declared open for traffic the Board subject to the consent of the Government guarantee to supplement the net earnings of the Company by such annual subsidy as may be necessary to make the net profits of the Company equivalent to Rs. 1,500 per annum per mile of tramway constructed and declared open provided that the total liability incurred by the Board under this clause in any one year shall not exceed the sum of Rs. 38,000 being 4 per cent. on the amount of the Company's share capital. Any surplus profits in excess of 4 per cent. on its capital aforesaid earned by the Company shall be equally divided between the Board and the Company.

No debentures shall be raised except with the sanction of the District Board and the debenture interest to be deducted from gross receipts for the purpose of ascertaining the divisible surplus profits shall be taken at not more than 4 per cent. on the amount of debentures.

5. In the event of the Board exercising the right of purchase conferred upon them by section 41 of Act III of 1883 (B.C.) the value to be placed upon the tramway as a going concern shall be calculated at twenty years' purchase of the average net annual profits to the Company during the four years preceding the transaction together with a bonus of 20 per cent on the amount so arrived at over and above that amount. In case of dispute the matter will be determined by arbitration under the clause in that behalf hereinafter contained.

6. The Company to be formed shall be one of limited liability registered under Act VI of 1882 and all matters connected with the said tramway shall be dealt with by Directors of whom one in six shall be nominated by the Board.

7. The greater part of any remuneration which the Company may agree to pay to any Agents whom it may appoint over and above a fair allowance for office expenses shall not be in the form of any fixed payment, but in the form of a commission on net profits

8. The Company shall widen and raise the level of the road wherever necessary it being understood that a clear roadway of fourteen feet exclusive of the eight feet required for the Tramway and with the necessary crossing places shall be left intact for ordinary wheeled traffic.

9. The necessary levels sections plans and designs required by the Government shall be prepared by and at the expense of the Promoters.

10. The Company shall construct new bridges and culverts and widen and fortify existing bridges and culverts wherever necessary

11. The Company shall construct, maintain and repair all works connected with the said tramway with suitable materials to be approved by Government.

12. If any doubt or difference shall arise between the Board and the Promoters or the Board and the Company concerning anything herein contained or any matter in any way connected therewith or with these presents or the construction thereof or the rights duties and liabilities of any person or persons in connection with these presents or as to the incidence of expense as between the Board and the Company under any of the clauses of this agreement then and in every such case the matter in doubt or difference shall be referred to two arbitrators one to be appointed by each party or to the umpire of such arbitrators in case they differ in opinion, but if either of the parties shall refuse or neglect to appoint for one month after notice in writing from the other of an arbitrator being or having been appointed then the arbitrator so appointed may make a final decision alone which shall have the same force and effect as the award of two arbitrators or their umpire duly appointed

13. Upon the adoption of this agreement by the Company in such manner as to render the same binding on the Company the Promoters shall be discharged from all liability in respect thereof.

14. Unless within six months of the date of this agreement the Promoters shall have applied to the Local Government for its sanction of this agreement either of the parties hereto may by notice in writing to the other rescind the same. Subject to the sanction of the Local Government being granted to such application and subject to any extension of time which the Local Government may see fit to grant the Promoters shall complete and equip the said tramway in every respect ready for opening and for the working of traffic throughout the whole line and with the full complement of cars and engines as provided in section 21 of Act III of 1883 (B.C.) within three years from the date of the Government

order. After adopting this agreement the Company shall stand in place of the Promoters for the purposes of this clause.

15. The rescission of this agreement under clause 14 shall not give rise to any claim for compensation express or otherwise.

As WITNESS the hand of the Chairman for the time being of the Board and the hands of the Promoters the day and year first above written.

SCHEDULE 2.

I.—GENERAL.

Formation—Single line—

(1) Minimum width in embankment ...	10	ft.
(2) Minimum width in cuttings (excluding side drains)	10	„

Formation—Double line—

(3) Minimum width in embankment ...	23	„
(4) Minimum width in cuttings (excluding side drains) ...	23	„
(5) Minimum distance, centre to centre of tracks (out of station) ...	12	„

Curves—

(6) Maximum angle of curvature on main line ...	24° (r = 238 feet).	

NOTE.—In open country 1,432 feet is recommended.

Ballast—

(7) Minimum width of ballast at level of foot of rails	6	ft.
(8) Minimum depth of ballast below sleepers ...	6	in.

N.B.—These minimum dimensions may be relaxed in the case of a line being opened to traffic before the banks have settled, when suitable restrictions are placed on the speed of trains.

Sleepers—

Timber cross-sleepers—

(9) Minimum length ...	9	ft.
(10) Minimum breadth ...	6	in.
(11) Minimum depth ...	4	„
Minimum number of sleepers per mile ...	2,000	

N.B.—On bridges where the cross-sleepers rest directly on longitudinal girders, the sleepers are to be spaced not more than 1 foot 1 inches centre to centre.

Rails—

(12) Minimum weight per yard	30	lbs.
(13) Minimum clearance of guard rail for curves and level-crossings ...	1⅞	„
(14) Minimum clearance of guard rails for points and crossings ...	1½	„
(15) Maximum clearance of guard rails for points and crossings ...	1⅝	„

N.B.—The maximum clearance for curves and level-crossings will vary according to the radius of the curve.

(16) Minimum depth of space for wheel flange for rail level	1¼	in.

Buildings, &c.—

(17) Minimum horizontal distance from centre of track to any structure (out of station) from 1 foot above rail level to a height of 9 feet 6 inches above rail level	6	ft.

N.B.—(a) Under (17) any material stacked by the side of the line is to be considered a structure in the sense in which the word is here used.

(b) Where the line is on a curve the horizontal distance of a fixed structure from the centre of an adjacent track is to be increased as follows:—

For a curve of—

2° r = 2,865	feet allow	1¼″	extra.
4° r = 1,432	„ „	2½″	„
6° r = 955	„ „	4″	„
8° r = 716	„ „	5½″	„
12° r = 477½	„ „	8″	„
16° r = 358	„ „	10½″	„
20° r = 286½	„ „	12½″	„
24° r = 238¾	„ „	15″	„
28° r = 204	„ „	18″	„

(18) Minimum height above rail level at centre of track for overbridges of overhead bracing out of station	12 ft. 6 in.	
(19) Minimum height above rail level for telegraph wires crossing the line or above surface of road where carried over roads at level-crossings	20	ft.

N.B.—The minimum horizontal distance from the centre of the nearest track at which a telegraph post may be erected is the total height of the post *plus 7 feet*; also where the line is in cutting a telegraph post erected on the berm must be at a distance from the edge of the cutting of not less than the total height of the post.

II.—STATION YARDS.

Spacing of tracks—

(1) Distance between centre of track nearest the station building and centre of track next to it	14	ft.
(2) Minimum distance, centre to centre of tracks ...	12	„
(3) Minimum clear available length of one siding for crossing trains ...	600	„

N.B.—The "available length" of siding whether the line be curved or straight) terminates where the distance between the centre line of the siding and the centre line of the adjacent track begins to be less than 12 feet.

The length of siding may, with the sanction of the Government of India, be reduced to such extent as may appear advisable. But for each such case sanction is to be obtained *before* work is commenced.

Buildings, &c.—

(4) Minimum horizontal distance of any building from centre of track at passenger platform ...	20 ft.
(5) Minimum horizontal distance from centre of track to any structure in the vicinity of a passenger platform (but not *on* a platform) ...	8 „

N.B.—This rule does not apply to point-levers between racks, water-cranes or loading gauge.

(6) Minimum horizontal distance from centre of track to any structure not in the vicinity of a passenger platform, from platform level, if any, or from 1 foot above rail level, if there be no platform, to a height of 9′-6″ above rail level ...	7 ft.

N.B.—Under this rule coal or any material stacked by the side of the track is to be considered a structure in the sense in which the word is here used.

A projecting overhanging roof is permissible in the case of a goods shed on a siding if such roof extends over the centre of the track at a height of not less than 12 feet above rail level.

(7) Minimum height above rail level for 5 feet from centre of track for tie-rods or underside of any continuous roof or covering in passenger stations ...	16 ft. 6 in.
(8) Minimum height above rail level for 5 feet from centre of track for passenger foot-bridges crossing the line in stations	16 „ 6 „
(9) Minimum height above rail level for telegraph wires crossing the line or above surface of road where carried over road within the boundary of station ...	20 ft.

Points and crossings—

(10) Minimum horizontal distance from centre of track to point handle indicator or any part of point apparatus above rail level ...	6 „

N.B.—A point handle may not in any position be within 6 feet of the centre line of the nearest track. A clear distance of 6 feet is also to be preserved from centre of nearest track to any part of the point apparatus fixed or movable above rail level—an arrangement involving the placing of a point handle between tracks should be avoided as far as practicable, but where this arrangement is adopted, the point handle must work parallel with the rails, not at right angles thereto.

(11) Minimum radius of curve	175 ft.
(12) Standard crossings ...	1 in 6 1 in 8½
(13) Standard length for tongue rails ...	7 ft.

III.—STATION MACHINERY.

Water-tanks—

Minimum height for bottom of tank above rail level *at water column*—

(1) For watering engines ...	14 ft.
(2) „ washing out engines	20 „
(3) Minimum distance from centre of track to face of tank house ...	9 „
(4) Minimum capacity of tank at any station ...	500 c. ft.

Water-cranes—

(5) Minimum distance in the clear from centre of track to nearest part of water column from 1 foot above rail level ...	6 ft.
(6) Standard height above rail level for discharge of orifice of water-crane jib	10 ft. 6 in.
(7) Standard internal diameter for piping from tank to water-crane ...	4 in.

Ash-pits, &c.—

(8) Minimum clear length at bottom for ash-pits in station yards ...	15 ft.
(9) Standard average depth for ash-pits in station yards	3 „
(10) Standard depth for examining pits for carriages and wagons ...	3 „

Engine running sheds—

Minimum width for running sheds inside in the clear—

(11) For two lines of rail ...	30 ft.
(12) „ one line of rail ...	18 „
(13) Minimum distance centre to centre, of tracks in running sheds ...	12 „

Running shed doorways—

(14) Minimum width ...	9 „
(15) Minimum height, if flat at top	11 „
(16) Minimum height to crown of arch, if with semi-circular arch	13 „
(17) Standard average depth for wash-out pits in running sheds ...	3 „
(18) Standard average depth for repairing pits in running sheds ...	3 „

Turn-tables—

(19) Minimum diameter for engine turn-tables ...	15 „
(20) Minimum diameter for carriage or wagon turn-tables	12 „

Traversers—

(21) Minimum length for carriage or wagon traversers ... 12 ft.

Weigh-bridges—

(22) Minimum length for weigh-bridges for ordinary stock ... 12 ft.

(23) Minimum weighing power for weigh bridges for ordinary stock ... 10 tons.

IV.—LOCOMOTIVES AND ROLLING-STOCK.

Maximum moving dimensions—

(1) Maximum width of stock from rail level to floor level ... ... 7 ft. 6 in.
Ditto floor level to 6 ft. above rail level ... 7 „ 0 „
Ditto 6 feet above rail level to top ... ... 7 „ 6 „

(2) Maximum height above rail level... ... 10 „ 0 „

Weight on a pair of wheels—

(3) Maximum for locomotives under any circumstances ... ... 6 tons.

(4) Maximum per foot of diameter ... ... 2·25 „

(5) Maximum for carriages and wagons ... 4 „

N B.—The weight given above is the maximum permissible under any circumstances with vehicle fully loaded. The weight on a pair of wheels includes the weight of wheels, axles, axle-boxes, and springs.

Weight per foot run of wheel base—

(6) Maximum for either engine or tender separately in the case of tender engines ... 1·5 tons.

(7) Maximum for tank engines 2 „

Weight per foot run over buffers—

(8) Maximum for engine and tender together in the case of tender engines 0·875 ton.

(9) Maximum for tank engines 1 „

(10) Maximum for carriages and wagons ... 0·6 „

Total gross weight—

(11) Maximum for engine and tender together in the case of tender engines 30 tons

(12) Maximum for tank engines 18 „

The weights given are the maximum permissible under any circumstances with engine in working order, and full load of fuel and water.

Wheel bases—

(13) Maximum rigid wheel base for passenger and goods vehicles ... 12 ft.

Buffers and couplings—

(14) Buffers ... ... Central.

The leave of absence for nine months under article 339 of the Civil Service Regulations granted to Babu Mohendra Nath Datta, B.A., an Assistant Master in the Balasore Zilla School (class VIII), under the orders of the 25th April 1903, will take effect from the 15th June 1903, the date on which the school re-opens after the summer vacation, instead of the 1st April 1903.

Babu Upendra Nath Banerji, M.A., an Assistant Master in the Comilla Zilla School (class VIII), was absent on leave for three days, under article 339 of the Civil Service Regulations, in continuation of that already granted to him under the orders of the 23rd March 1903.

The 11th May 1903.—Babu Ramee Chandra Gupta, M.A., is appointed, on probation for six months, to be an Assistant Master in the Arrah Zilla School, and substantively *pro tempore* to class VII of the Subordinate Educational Service, *vice* Babu Sankar Lal, retired, with effect from the date on which the school re-opens after the summer vacation.

A. PEDLER,
Director of Public Instruction, Bengal.

CHITTAGONG DIVISION.

Rules for the admission of Private Students to the University examination of 1904.

I.—ENTRANCE EXAMINATION.

1. A student who does not appear from any school, or who has been transferred since the 1st of September next preceding the examination, without the consent of an Inspector of Schools, to the school from which he appears, will be treated as a private student.

2. The term "private student" includes school-masters.

3. Private students are requried to attend the test-examination of one of the undermentioned high schools, on dates to be fixed by the head-masters:—

(1) Comilla Zilla School.
(2) Brahmanbaria Annada High School.
(3) Chandpur High School.
(4) Noakhali Zilla School.
(5) Feni High School.
(6) Chittagong Collegiate School (with the Principal's permission).
(7) Chittagong Madrasa.
(8) Chittagong Municipal High School.
(9) Rangamati Government High School.

4. Applications for permission to appear at the test-examination should be made to the Inspector of Schools, and they must reach his office on or before the 15th November 1903.

5. Every private candidate shall state in his application whether he is an ordinary private candidate or a school-master, his age, residence and father's name, the school at which he desires to appear for the test-examination and his postal address, which should be written legibly and distinctly, so that no mistake may be likely to occur.

6. A private candidate who is not a school-master should file with his application the Transfer Certificate (in original) granted him from the school in which he last studied; or, if he failed at a previous Entrance examination and did not join a school afterwards, the Registrar's receipt (in original) for the fee paid; or he will furnish satisfactory proof that he has not failed at the test-examination of any Entrance school in the current session, and that he is of good moral character.

7. A school-master will have to file with his application a certificate from the Secretary or Proprietor of the school in which he is serving to the effect that he has been a *bonâ-fide* paid teacher of the school not later than since the 7th June 1903. In case he has served in more than one school, he must produce certificates from the several schools of his having been a *bonâ-fide* paid teacher all along since the 7th June 1903.

8. If this office is satisfied that the necessary conditions have been fulfilled, the permission asked for will be granted and sent to the applicant, who must produce it before the head-master of the school at which he desires to appear for the test-examination.

9. A private candidate should be identified to the satisfaction of the officer conducting the test-examination.

10. Each private student will pay a fee of Rs. 2 to the head-master of the school at which he appears for the test-examination. The fee is intended to meet the cost of the examination and charges for postage, &c.

11. The head-master of each of the abovenamed schools is requested to direct the private candidates who may pass at the test-examination from his school to appear before him on a fixed date, which should not be later than the 2nd January, and cause them to fill in the forms of application for admission to the Entrance examination in his presence. He will then sign the certificates appended to the applications, and forward them to this office (in a registered cover, if sent by post) for countersignature. Under no circumstances should the entrance fee be sent to this office.

12. After countersignature the applications will be sent by the Inspector direct to the candidates, who must make their own arrangements for the transmission of their applications and fees to the Registrar of the Calcutta University, so as to be received at his office on or before the 25th January 1904.

13. The Entrance examination will be held on the 7th March 1904 and following days.

II.—F.A. AND B.A. EXAMINATIONS.

1 Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ-fide* masters of English schools, who have served as such for the full period of two academical years after passing the Entrance, will be admitted to the F.A. examination; and those who have served for the same period after passing the F.A. will be admitted to the B.A. examination. Candidates who have failed in the F.A. or B.A. examination may be admitted to the same examination if they have served for a term of six months since the date of the last examination

2 By *bonâ-fide* masters of English schools are to be understood teachers who hold regularly-paid appointments in recognised English schools teaching at least the Middle English course

3 All applications from school-masters to the Inspector for permission to appear at the F.A. or B.A. examination should be accompanied by certificates of length of service (with dates) from the Secretaries of the schools in which they are employed, and should reach this office not later than the 9th January 1904.

4. The application of a school-master for admission to the F.A. or B.A. examination should be signed by him in the presence of the Secretary or a member of the Managing Committee of the school in which he is employed It should then be forwarded to the Inspector for his signature, accompanied by (1) a certificate from the Secretary or a member of the Managing Committee to the effect that it has been signed by the candidate in his presence; (2) the University certificate of the candidate in proof of his having passed the Entrance or F.A. examination, as the case may be; and (3) the Registrar's receipt to prove, if this be the case, that the candidate has appeared at the examination of any previous year. The B A. candidates should also send in their Entrance pass certificates.

5. After signature by the Inspector, the application, together with the documents that accompanied it, will be returned to the candidate, who will have to send the application and the examination fee to the Registrar of the Calcutta University, so as to reach his office on or before the 5th February 1904.

6. The F A. and B.A. examinations will be held on the 21st March 1904 and following days.

KUMUD BANDHU BOSE,
Offg. Inspector of Schools, Chittagong Division.

CHITTAGONG,
The 4th May 1903.

Yearly Examination of Candidates for fourth grade of Accountants.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 6th and 7th July 1903, at 10-30 A.M., both days.

SUBJECTS.

	Full marks.	Minimum pass marks.
Writing (neatness, clearness, and rapidity) ...	100	50
Dictation (spelling, punctuation, etc.) ...	100	50
Arithmetic (the whole)	240	160
Mensuration (*a*) the whole	60	30
Book-keeping (*b*) mercantile	100	50
Total ...	600	...

Minimum required in all papers collectively, 400.

(a) Todhunter's Mensuration for Beginners.
(b) "Book keeping," by Ball and Hamilton.
"Book keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

2 The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth, not required, if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's handwriting.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College not later than 30 days previous to the examination; the application to be accompanied by the fee of Rupees Ten.

SIBPUR,
The 12th May 1903.

B. HEATON,
Offg. Principal, Civil Engineering College.

NOTIFICATION

Opening of a Special Commercial Class in the Presidency College, Calcutta.

SPECIAL COMMERCIAL CLASSES will be opened in the Presidency College, Calcutta, in June next for those students who have passed the Final School Examination in the "C" Course. Applications for admission should be sent to the Principal on or before the 20th May 1903. The subjects to be taught in these classes will be—

(1) English (modern), and especially English correspondence, including Commercial correspondence, and letter-drafting and précis-writing.
(2) Mathematics.
(3) Elementary Science (Chemistry and Physics).
(4) Physiography.
(5) Commercial History and Geography
(6) Drawing.
(7) Penmanship.
(8) Book-keeping.
(9) Type-writing.
(10) Short-hand.

The text-books for these subjects will be prescribed by the lecturers in the respective subjects.

The admission and tuition fees in these classes will be the same as for students of the Presidency College reading for the F.A. Examination. The course of instruction will last for two years, and the examination at the end of this course will be held by Government to be equivalent to the F.A. Examination of the Calcutta University.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 180B.

NOTIFICATION OF THE BOARD OF REVENUE.

No. 3559B.

THE following Rules for the payment of refunds of duty on salt bonded in Inland Bonded Warehouses, are published for general information.

Rules for the payment of refunds of Duty on Salt bonded in Inland Bonded Warehouses from the Calcutta Customs' Treasury.

1. On receipt of an application for refund of the duty on salt stored in an Inland Bonded Warehouse, the Collector of the district, through whom the returns of the warehouse are submitted, will cause to be prepared a statement of all payments of duty on account of salt stored in that warehouse, whether they have been made into the local Treasury or into the Calcutta Custom House Treasury, together with a report stating the quantity of salt on which a refund is payable, and explaining the reasons for the deficiency in the outturn of salt delivered from the warehouse. The salt receipts, in the case of payments at Calcutta, and the duplicate Treasury *chalans*, in other cases, with endorsements showing the deficiency in the outturn, will be annexed to the statement. The papers will then go before the Treasury Officer for verification, by him of the payments of duty into the District Treasury. To facilitate this verification, the number of the bond securing the duty should, in future, be noted on the *chalans* at the time duty is paid in.

2. If the District Officer considers the refund admissible, under Rule 25 of the rules published at page 1329, Part I, of the *Calcutta Gazette*, of the 5th December 1900, he will cause a refund voucher to be prepared in Form No. 13, given at page 338, Volume I, of the Civil Account Code; and, after noting in his registers the amount to be refunded out of duty paid into his Treasury, and signing under the words "Passed for payment," he will forward it with all the papers to the Collector of Customs, Calcutta.

3. The daroga's statement of duty paid into the Calcutta Custom House Treasury (if any) will then be verified in the Custom House, and the papers will then be sent to the Superintendent of the Salt Golah Department, for report as to whether the short-delivery of salt on which the refund is claimed seems reasonable.

4. When it is considered that the refund should be paid, the statement of duty payments into the local Treasury (if any), verified by the local Treasury Officer, will be incorporated in the Custom House account of duty realised on account of the bond, and the refund will then be noted for payment in the Calcutta Custom House. When payment is made, it will be entered against the above account, as required by Rule 99 of the Civil Account Code.

5. An advice of all refunds paid in the Calcutta Custom House under these rules will be sent to the District Officer for note against the original credit entries.

By order of the Board of Revenue, L. P.

H. WHEELER,
Secretary.

APPENDIX XXX.

[See Chapter III, Rule 9]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the side of the Assam-Bengal Railway, in the district of Chittagong, will be put up to sale at 11 o'clock on Monday, the 25th May 1903, corresponding with the 11th Jaistha of the Bengali year 1310.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale

4th.—The plots of the land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

14. *Landed and Transhipped.*—Goods for transhipment landed on the Docks or Jetties and afterwards reshipped will be charged one-and-a-third landing rates.

Wharf rent when incurred.

15 No charge for wharf rent will be made until the fourth day, after landing, *e.g.*, goods landed on Monday will not be liable to wharf rent if removed before Thursday evening; and no charge for wharf rent will be made for holidays, when, owing to the Custom House being shut, consignees are unable, without any fault on their part, to clear their goods. Sundays and holidays will be exempted from rent, unless the goods have already incurred rent, in which case Sundays and holidays are included.

Late entry of vessels.

16. When a vessel is entered at the Custom House after 2 P.M. on week days or after 1 P.M. on Saturday, in calculating Wharf rent the cargo she discharges either on or before the day of her entry will be considered as landed on the next working day.

Wharf rent on damaged goods.

17 Damaged goods, for which a claim is brought against the ship, will not be charged wharf rent until the fifth day after landing, provided notice of survey is given to the Dock or Jetty Superintendent, as the case may be, within 48 hours after the goods have been received from the ship.

Wharf rent on reshipment goods (ship's account).

18. No charge for wharf rent on reshipment goods will be made until the fifth day after landing, provided the charges are to be debited against the vessel's account.

Wharf rent on transhipment goods.

19. No charge for wharf rent on transhipment goods will be made until after the fourteenth day after landing.

Wharf rent on Railway and Warehouse goods.

20. The wharf rent on Railway and Warehouse goods will be charged up to the date of the submission of complete papers.

Wharf rent on wines

21. In cases of wines free allowance of three clear days will be granted after the date of their removal to the Import Warehouse, but if they are once subject to rent, they are to be treated as ordinary goods, and wharf rent and removal charges will be levied from the date of their landing, after allowing the usual days of grace.

Goods for upcountry by foreign wagons and loading local wagons.

22. Goods which can be loaded by manual labour for direct despatch upcountry will be loaded into foreign wagons free of cost, but if loaded at the Jetties into local wagons will be charged one-third of landing.

Warehouse goods and wagon demurrage

23. Goods for the Commissioners' warehouses will be transferred from the transit sheds and unloaded free of cost. If such goods are not taken delivery of within 24 hours, wagon demurrage will be charged at the rate of As. 6 per wagon per hour.

Removal charges.

24. Goods transferred from transit sheds to the import warehouse and subject to wharf rent are liable to removal charges.

Removal charges on goods returned from gate.

25. Removal charges are also to be made on goods returned from gates and put into the import warehouse, whether subject to wharf rent or not.

Advertising fees.

26. An advertising fee of As. 6 for each item will be charged on goods advertised.

	Imports. Rs. A.	
If three cranes or less	2 12	each.
„ four	2 8	„
„ five or more	2 4	„

The above charges are subject to a minimum of Rs. 80 for half a night, but if more than one vessel is working at night, the sum of their charges may go to make up the minimum. For instance, if two vessels were working one crane each for six hours on import cargo, then the charges under the Schedule would be for each vessel Rs. 16-8 but under the minimum rule they would each have to pay Rs. 40 If only one vessel is working, she must pay not less than Rs. 80 for the half night

40. A vessel supplied with electric light for deck and holds will be charged Rs. 7-8 from dark to midnight, and Rs. 7-8 from midnight to daylight. Charge for electric light.

41. Rate for haulage of cranes from Jetties to any point on the Port Trust Railway and back— Hauling charge of crane.

Notice of Lease of Waste Lands in the Sundarbans, under Rule 19, Section II of the Waste Lands Manual, 1898.

NOTICE is hereby given that the lease of the land specified in the schedule hereto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Shomsher Khan Chowdhury, and will be sold at 12 o'clock noon on the 31st of August 1903, Monday, at the Sundarbans Commissioner's office at Alipore, unless meantime the sale is stopped or postponed in consequence of claims or objection under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the Sale of Leases of Waste Lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may, from time to time, be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

Number of lot.	District, subdivision, and thana.	Area.	Boundaries.
		Bighas.	
Lot No. 182, third portion.	24-Parganas, Basirhat, Hasnabad	5,581	*North.*—By the southern boundary of the second block of this lot or a straight line bearing 161° drawn from a point on the bank of the Shagunkhali khal to a point on the bank of the Kalindi river. *East.*—By the Kalindi river. *South.*—By the northern boundary of the fifth block of this lot, that is a straight line bearing 281° drawn from a point on the bank of the Kalindi river up to the last trijunction of the Shagunkhali khal. *West.*—By the Shagunkhali khal. Notice.

THE Custom House notice of the 16th March 1903, published in this Paper on the 25th March 1903, concerning the procedure for the shipment of goods in urgent cases, has been cancelled, and the following is tentatively issued in its place.

The Superintendent of the Preventive Service is empowered to permit the shipment of free goods when urgently required after office hours or at the last moment to complete a vessel's cargo without the usual formalities, provided that the following precautions are observed :—

1. *With vessels for Foreign Ports.*—A written authority for the shipment of the goods from the Master or Chief Officer of the Vessel or from the Agents acting on behalf of the Master must be handed to the Preventive Officer on board, which he will forward, together with a list of the goods actually shipped on the first opportunity that occurs, to the Preventive Office, so that it may reach the Export Department as soon as office opens on the following morning If the shipping bill is not presented in that Department by the Agents within 48 hours of the time of shipment, action will be taken against them under section 167, clause 56 of the Sea Customs Act
2. *With coasting vessels loading for free ports.*—As there is no Preventive Officer on board these vessels, arrangements have been made with the Agents of the chief coasting lines to withhold the bills of lading until the duplicate shipping bills, duly endorsed by the Custom House, have been produced before them. These shipping bills will, upon receipt, be forwarded by the Agents acting on behalf of the Master under section 159 of the Sea Customs Act to the Customs authorities at the port of destination.
